KEEPING THE CHEMICAL INDUSTRY IN MOTION

Powered by owned tank assets.
Enabled by multimodal logistics.

Goodrich supply chain solutions tailored for the chemical industry, backed by a connected global network and real-time visibility.

RAW MATERIAL

Safe, compliant sourcing of chemicals and food-grade goods

MANUFACTURER

Careful handling of dangerous goods and high-value cargo

DISTRIBUTION

Seamless multimodal movement via sea, rail, and road

STORAGE

Secure, compliant storage through owned & partnered tank infrastructure ensuring cargo integrity

RETAILER

Reliable, on-time delivery to retail networks

CUSTOMER

Safe, responsible delivery to end users

Responsible. Safe. Sustainable.

**Owned offices across India, supported by
an extensive global agency network.**

Welcome to ChemExpo India 2026

Connecting India to the world

Welcome to ChemExpo India 2026 – India's most comprehensive show for the chemical and allied industries.

This event runs alongside two co-located shows:

- **ChemProTech India 2026**, for Chemical Process Technology, Equipment; and
- **ChemLogistics India 2026**, focused on Chemical Warehousing, Transportation & Logistics.

We have received a great response to the event – which is manifest in the fact that there are over **600+ Exhibitors** showcasing their products and services. Of these over **150+ companies** are exhibiting for the first time.

The exhibitors include producers and suppliers of fine chemicals, active pharmaceutical ingredients, pharmaceutical intermediates, dyes and pigments, agrochemical intermediates, water treatment chemicals, coating additives, catalysts and enzymes, among many other products.

As we go into the show, we have over 14,000 pre-registered visitors, and we expect the number to go up substantially today and tomorrow.

Do take some time to attend the conferences that run through both days in a dedicated area on the floor of the exhibition.

Also, visit the Technology Showcase area to meet up with innovative solutions offered by around 12 enterprises

Exhibitions are more than anything about connecting people, and we are confident that over the two days of the show you will make new connections and renew old ones.

Team ChemExpo India

AVAILABLE REGULARLY

1-Bromo-3-Chloropropane	Di Ethanol Amine	Maleic Anhydride	Phosphorus Oxychloride
1,2,4H-Triazole	Di Ethyl Carbonate	Malonic Acid • Malononitrile	Phosphorus Pentaoxide • Piperidine
1,4-Butanediol	Di Ethyl Malonate	Melamine • Meta Cresol	Piperazine Anhydrous
1,4-Dioxane	Di Ethylene Triamine	Methacrylic Acid	Poly Vinyl Alcohol • Polyethylene Glycol
1,6-Hexanediol	Di Iso Propyl Ether	Methane Sulphonic Acid	Polypropylene Glycol 1000D
2-Ethyl Hexanoic Acid	Di Iso Propylamine	Methane Sulphonyl Chloride	Polypropylene Glycol 2000D
2-Ethyl Hexyl Acrylate	Di Methyl Amine 40%	Methyl Aceto Acetate • Methyl Acrylate	Potassium Bi Carbonate
2-Methyl THF	Di Methyl Acetamide	Methyl Chloro Formate	Potassium Carbonate (Granular)
2-Hydroxy Ethyl Methacrylate (2-HEMA)	Di Methyl Carbonate	Methyl Cyano Acetate	Potassium Carbonate (Powder)
2,2-Di Methoxy Propane	Di Methyl Formamide	Methyl Cyclo Hexane	Potassium Permanganate
2,4-Dichloro Benzyl Chloride	Di Methyl Malonate	Methylene Diphenyl Diisocyanate (MDI)	Phenyl Chloro Formate
4-Di Methyl Amino Pyridine	Di Methyl Sulfoxide	Methyl Ethyl Ketone	Propionaldehyde • Propionic Acid
4-Hydroxy Benzaldehyde	Di-N-Butylamine	Methyl Iso Butyl Ketone	Propionic Anhydride • Propargyl Alcohol
Acetic Acid • Acetone • Acetonitrile	Di Propylene Glycol	Methyl Methacrylate	Propylene Glycol Technical
Acrylonitrile • Acetophenone	Di Tert Butyl Dicarboxylate (Di BOC)	Methyl Tertiary Butyl Ether	Propylene Glycol USP
Acrylamide • Acrylic Acid • Adipic Acid	Dicyandiamide • Diglyme	Methylene Chloride • Monoethylamine	Phthalic Anhydride • Pyridine
Allyl Alcohol • Alpha-Naphthol	DL-Tartaric Acid	Mono Chloro Benzene	Pyrrolidine • Resorcinol • Soda Ash
Ammonium Bi Carbonate	Epichlorohydrine	Mono Methylamine	Sodium Boro Hydride - Granular
Ammonium Thiocyanate	Epoxy Resin • Ethyl Acetate	Mono Ethanol Amine	Sodium Boro Hydride - Powder
Amino Ethylethanolamine	Ethyl Aceto Acetate • Ethyl Acrylate	Mono Ethylene Glycol	Sodium Cyanide • Sodium Gluconate
Amino Guanidine Bi Carbonate	Ethyl Chloro Formate	Mono Iso Propylamine 70%	Sodium Ligno Sulphonate
Aniline Oil	Ethyl Cyano Acetate	Mono Iso Propylamine 99%	Sodium Metabi Sulphite • Sodium Metal
Benzoic Acid • Benzophenone	Ethylene Di Amine	Monoglyme • Morpholine	Sodium Methoxide Powder
Benzylamine • Beta-Naphthol	Fluorobenzene * Formamide	MP Diol Glycol	Sodium Nitrite • Sodium Nitrate
Bis Trichloro Methyl Carbene (Triphosgene)	Formic Acid - 85%	N-Ethyl Piperazine • N-Butyric Acid	Sodium Thiocyanate
Bisphenol A	Formic Acid - 99%	N-Butyl Methacrylate	Sodium Tri Polyphosphate (STPP)
Butyl Acetate • Butyl Acrylate	Fumaric Acid • Furfural Alcohol	N-Methyl-2-Pyrrolidone	Tartaric Acid (L+ / DL)
Butyl Carbitol • Butyl Carbitol Acetate	Glycerine	N-Pentane • N-Propanol	T-Butanol (T.B.A)
Butyl Glycol / Cellosolve	Hexamethyldisilazane (H.M.D.S)	N-Propyl Acetate	T-Butyl Acetate
Butyl Cellosolve Acetate	Heptane • Hexylene Glycol	N-Amino Ethyl Piperazine (N-AEP)	T-Butylamine • Tetra Hydro Furan
Caustic Potash Flakes	Hydrazine Hydrate 80% & 100%	N-Butanol • N-Butyraldehyde	Thiophenol • Thiourea
Chloroform	Hydrobromic Acid 48%	N-Hexane 99% • N-Heptane	Toluene Di Iso Cyanide
Citric Acid Anhydrous	Hydrogen Peroxide	N-Methyl Piperazine • Naphthlene Crude	Tri Chloro Ethylene
Citric Acid Monohydrate	Hydroquinone	Naphthlene Refined • Neo Penty Glycol	Tri Ethyl Phosphate
Cyano Acetamide	Hydroxylamine HCl	Nitromethane • Nonyl Phenol	Tri Ethyl Amine
Cyclohexane • Cyclohexanol	Hydroxylamine Sulphate	Nonyl Phenol Ethoxylate	Tri Ethyl Ortho Formate
Cyclohexanone	Hexamine • Imidazole • Iodine	Oxone PS-16	Tri Ethylene Pentamine (TEPA)
Cyclohexylamine	Iso Butanol • Iso Butyric Acid	P-Tert-Butyl Phenol (PTBP)	Tri Mellitic Anhydride
Cyclopropylamine	Iso Propyl Alcohol	P-Tert-Octyl Phenol (PTOP)	Tri Methyl Ortho Acetate
D-Tartaric Acid	Isopropyl Acetate	Para Toluene Sulfonyl Chloride	Tri Methyl Ortho Formate
Di Acetone • Di Basic Ester	Isobutyraldehyde • Isophorone	Paraformaldehyde 91% & 96%	Tri Methylol Propane
Di Cyclohexylamine	Isophorone Diamine	Pentaerythritol 98%	Tri Methylamine
Di Cyclohexylcarbodiimide	Isophthalic Acid • Isovaleraldehyde	Perchloroethylene	Tri-n-Butylamine
Di Ethyl Ether	L+Tartaric Acid • Lactose	Phenol	Triethanolamine 85% & 99%
Di Ethyl Sulphate	Lithium Carbonate	Phosphoric Acid (Food Grade)	Triethylene Tetramine
Di Ethylamine	Lithium Hydroxide	Phosphoric Acid (Technical)	Urea - Technical Grade

PIONEERS IN GLOBAL CHEMICAL SOLUTIONS

SINCE 1983

40 Years of Innovation, Quality,
& Sustainable Growth

QUALITY

INNOVATION

VISION

TECHNOLOGY

With a legacy rooted in innovation, quality, and trust, *Sabari Chemicals Pvt. Ltd.* has emerged as a global leader in manufacturing and exporting high-performance chemical solutions. *Founded by Mr. Mohan Nair, the visionary Chairman and Managing Director*, the company has consistently delivered excellence in Drug Intermediates, advanced Agro Chemicals, and high-purity Fine Chemicals, all crafted to meet stringent international standards. Today, Sabari Chemicals continues its growth under the dynamic leadership of Mr. Vinod Nair, Director, who currently heads the upholding the core values that define the Sabari legacy.

Manufacturer & Exporter of

• Drug Intermediates • Agro Chemicals • Fine Chemicals

20 COUNTRIES
In our Expanding Export Portfolio

30% GROWTH
Year On Year

2500 MT/YEAR
Manufacturing Capacity

Resistotech

solution to corrosion

Anticorrosion India Pvt Ltd (Formerly: SGL Carbon India Pvt Ltd)
E 101, MIDC Ranjangaon, Tal. Shirur, Pune 412220 – MH, India,
Email: sales@resistotech.com, sales@anticorrosion.in
Mob: 0091 9820429054, Web: www.anticorrosion.in

Lining Products:

- Pipe and fittings, Strainers – Basket / Y / T
- Bellows, Compensators, Valves – Ball Butterfly, Dia
- Dip Pipe, Spargers, Dip Tubes

PTFE lined equipments:

- Columns, POTs,
- Vessels, Tanks,
- Shells, Customized Equipment

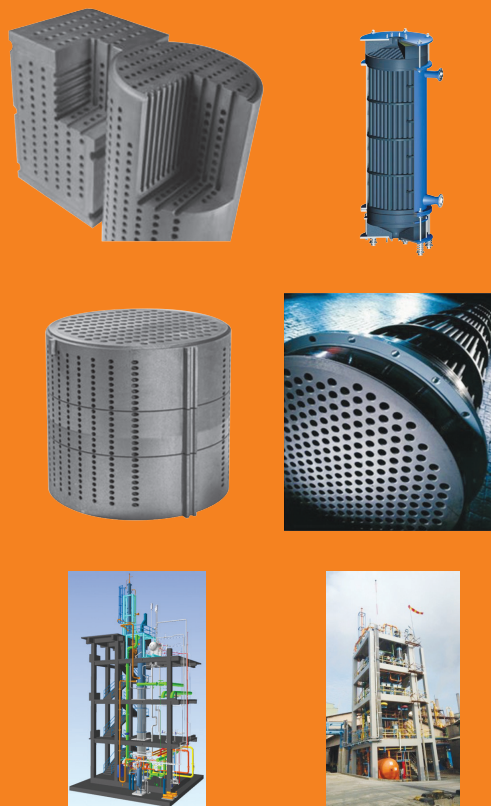

Lining Material: • PTFE/PFA/PVDF/PP/HDPE

Key Points:

- Largest processor of India for lined piping and equipment,
- Have large sizes in seamless lining upto 1600 mm (64")
- All fittings in single piece and longer length pipes upto 6 mtr to avoid joint and leakages,
- Well equipped facility for Graphite equipment with inhouse design (mechanical and process)
- High end Graphite used for equipment longer life,

Techno-commercial solutions provider with pre-engineering and case study of corrosion issues

RESISTOTECH INDIA PRIVATE LIMITED

Graphite:

- Heat Exchangers, Condensers, Absorbers
- Heaters / Coolers, Reboilers / Evaporators
- Silicon Carbide Heat Exchangers

Systems Package Solutions :

- HCl Synthesis Package, Dry HCl Gas package
- HCl Absorption package, H2SO4 Dilution
- Skid operated plants / Pilot Plants

Graphite material: • Vibro and Iso molded

Chemical Business Outlook

April 29, 2026

11:00 onwards

Venue: Hall 4, Seminar Room 2

Bombay Exhibition Centre, Mumbai

Time	Topic	Speaker
11:00-11:40	What's ahead for the Indian chemical industry in 2026	Ravi Raghavan Editor Chemical Weekly & HPIC India
11:40-12:20	India – A Bright Spot for Petrochemicals: Olefins and Polymer Market Outlook	Utkarsh Mishra Lead Olefins Consultant - Asia, Argus Media
12:20-13:00	Domestic and international business opportunities for India's agrochemical industry	Rajeev Ranjan Partner, Consulting Deloitte Touche Tohmatsu India LLP
13:00-14:00	Break	
14:00-14:40	Safe and Efficient Plant Operation - The Strategy for Sustainable Business Growth	Rajendra Utturkar Founder & CEO SEPLO Institute of Training & Research
14:40-15:20	Future of Logistics and Supply Chain for the Chemical Industry	Abhishek Chattopadhyay Growth Expert - Chemicals Growth Advisory Frost & Sullivan
15:20-16:00	Building the Next Chemical Giant	Ms. Amita Parekh Managing Director and Partner Boston Consulting Group
16:00-16:40	Advanced Epoxy Solutions: Recyclamine Enabling a Circular and Sustainable World	Dr. Bharat Singh Joint President - Recyclamine Aditya Birla Advanced Materials

Organised by:

ChemicalWeekly

Exhibitor Showcase

April 29, 2026

11:00 onwards

Venue: Hall 4, Seminar Room 1

Bombay Exhibition Centre, Mumbai

Time	Topic	Speaker
11:00-11:40	Speciality surfactants for sustainable and low VOC formulations	Sagar Desai Manager, Sales & Marketing Dai-Ichi Karkaria Ltd.
11:40-12:20	Advances in Zeolite Molecular Sieves for Performance and Energy Efficiency in Indian Chemical Market Enhancing Purification Efficiency & Sustainability: The Added Value of Activated Carbon for Chemical, Biogas, Water and Catalytical Processes	Himanshu Sharma Country Head – Middle East and India Jalon (Thailand) Co., Ltd. Ms. Linda Li Jingqiu Activated Carbon Specialist Norit Singapore Pte. Ltd.
12:20-13:00	Scale up using AMAR Micro reactors	Dr. Vishwanath Dalvi Advisor - Flow Technology, Amar Equipment Faculty in Chemical Engineering Institute of Chemical Technology, Mumbai
13:00-14:00	Break	
14:00-14:40	Metathesis Reactions in Modern Industry: A Technical Lens on Sustainable and Efficient Synthesis	Dr. Mariana Nadirova Application Technology Manager Apeiron Synthesis S.A.
14:40-15:20	From Lab to Tons per Day — Scalable & Flexible Flow Chemistry Solutions	Dr. Makarand Pimplapure Founder & Managing Director Makspeed Technologies Pvt. Ltd.
15:20-16:00	The power of silicones: from foam control to surface perfection	Dr. Manju Dharman Head R&D Resil Chemicals
16:00-16:40	Advancing Radical Chemistry for Scalable Synthesis	Dr. Santosh J. Gharpure Dean (Faculty Affairs) & Rasiklal Hemani Fragrance and Flavour Chair Professor Department of Chemistry Indian Institute of Technology Bombay
16:40-17:20	Global Regulatory Updates	Dr. Jayachandran Nair CEO - India Global Product Compliance (GPC)

Organised by:

ChemicalWeekly

Exhibitor Showcase

April 30, 2026

11:00 onwards

Venue: Hall 4, Seminar Room 1
Bombay Exhibition Centre, Mumbai

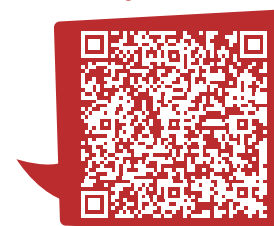

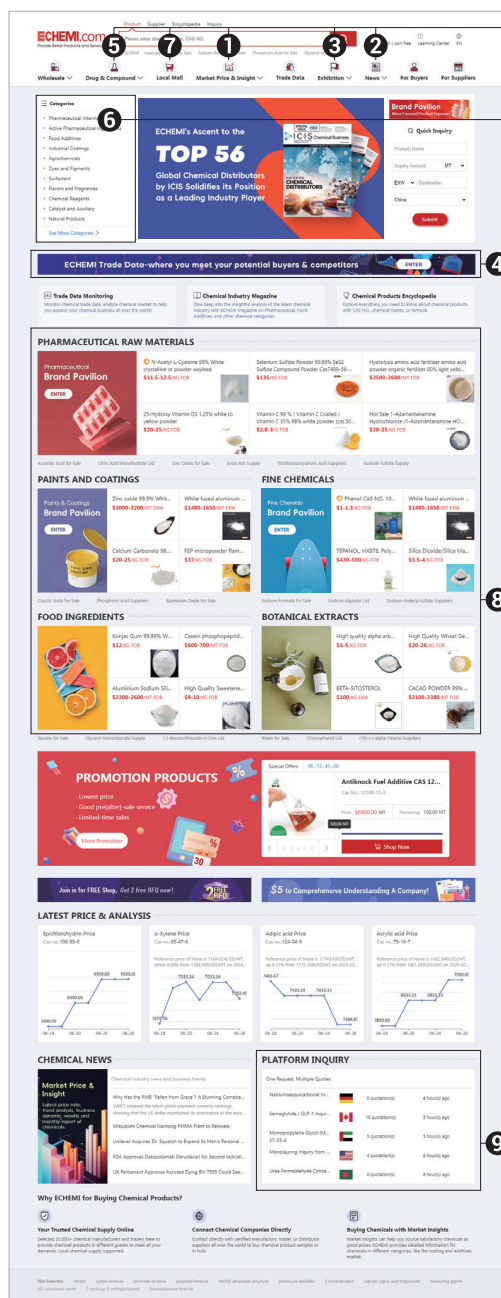

Time	Topic	Speaker
11:00-11:40	Innovations in Particle Engineering	Clifford Schaeferskuepper Head of Sales and Market Development Glatt Ingenieurtechnik GmbH
11:40-12:20	Improving Laboratory Safety and Efficiency in Chemical Analysis	Dr. Sunil Lakhmapure Technical Support Specialist Agilent Technologies India Pvt. Ltd.
12:20-13:00	AI & Digitalisation for Industrial Sustainability: Reality, Not Hype	Arjun Vijayaragavan Founder & CEO KarbonWise Pvt. Ltd.
13:00-14:00	Break	
14:00-14:40	A Multimodal Strategy for De-risking Chemical Logistics	Pradeep Nair Vice President - Chemical Logistics Goodrich Maritime Pvt. Ltd
14:40-15:20	KBR's integrated nitric acid technology: weak & concentrated acid production with optimized OPEX & CAPEX	Chetan N. Meshram Process Engineer Piyush Agnihotri Technical Advisor – Process KBR
15:20-16:00	Evaluating corrugated tube heat exchangers for industrial applications: an experimental approach	Indrakumar Gore General Manager - Design & Proposal Kinam Engineering Industries

www.echemi.com

Professional Digital Cross-Border Chemical B2B Platform

[Register Now](#)

The screenshot shows the Echemi.com homepage with various sections and callouts:

- 1. Market Price & Insight:** Located at the top, it provides daily, weekly, and monthly reviews of 500 chemical products in the China market.
- 2. News:** A section for buyers to realize dynamic changes in the global chemical industry.
- 3. Exhibition:** Focuses on paint and coating, rubber and plastic, water treatment, pharmaceutical, food and nutrition, cosmetics, and other fields.
- 4. Trade Data:** Provides import and export data for 218 countries and regions, including bills of lading and customs declarations.
- 5. Drug & Compound:** Offers free queries on physical and chemical properties, production processes, safety, SDS, and drug instructions.
- 6. Full Category Supplier Database:** A database of more than ten thousand chemical suppliers certified by CBI, Tianyancha, and other third-party qualified companies.
- 7. Local Mall:** Promotes Echemi's overseas warehouses in USA, Thailand, Europe, Turkey, Korea, and Dubai.
- 8. Supplier VIP Service:** Provides personalized shop and zero-distance communication with online buyers.
- 9. Platform Inquiry:** A section for monthly inquiries, involving many categories and distributed to all countries and regions.

1. Market Price & Insight

Provide daily, weekly and monthly reviews of 500 chemical products in China market; Help overseas buyers quickly get market and business information.

2. News

Buyers can realize the dynamic changes of the global chemical industry in one stop.

3. Exhibition

Focus on paint and coating, rubber and plastic, water treatment, pharmaceutical, food and nutrition, cosmetics and other fields of global exhibition real-time dynamic information; Strategic media cooperation with global exhibition organizers.

4. Trade Data

Import and export data of 218 countries and regions, including bill of lading data and customs declaration data; Fastest data updated by day.

5. Drug & Compound

Free query of physical and chemical properties, production process, safety, SDS and other related information of millions of chemicals. Real time update of drug instructions.

6. Full Category Supplier Database

Database of more than ten thousand chemical suppliers certified by CBI, Tianyancha and other third-party qualified companies.

7. Local Mall

Join Echemi's overseas warehouses in USA, Thailand, Europe, Turkey, Korea or Dubai, and immediately possess local customers.

8. Supplier VIP Service

Personalized shop; Zero distance communication with online buyers.

9. Platform Inquiry

Monthly inquiry quantity is 12,000+; The inquiry involves many categories and are widely distributed to all countries and regions.

Global Buyers

130,000+

Chinese Suppliers

17,000+

Overseas Suppliers

7,000+

Monthly Inquiries

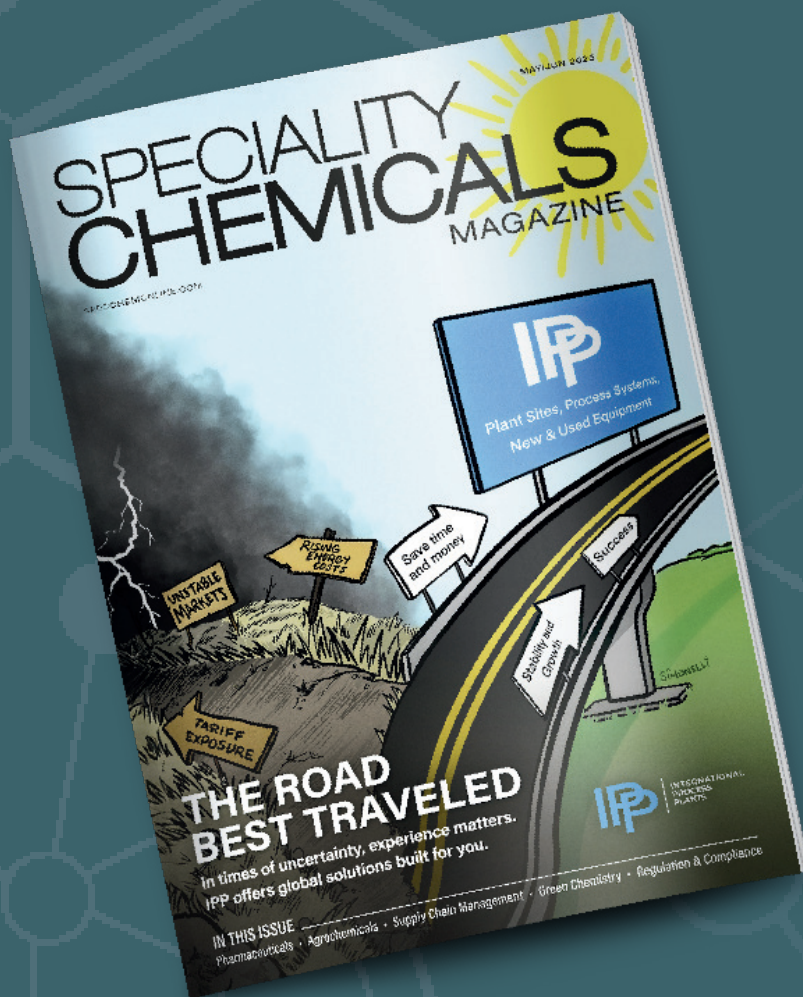

12,000+

Daily Page View

240,000+

Leading the market for over 40 years

Speciality Chemicals Magazine is the only global magazine focused exclusively on the fine and speciality chemicals industries. Our high quality, must-read magazine offers powerful promotion and engagement with key decision makers, who need to stay informed and one step ahead.

INTERNATIONAL CROP-SCIENCE CONFERENCE & EXHIBITION

On 25th & 26th June 2026,

The Peacock Ballroom, Pullman Hotel, Aerocity, New Delhi

Organized by:

PMFAI
AGRIBUSINESS FOUNDATION

**An Exclusive Event on Agri Input Connecting Agribusinesses
for Knowledge Sharing and B2B Network**

www.pmfaiicsce.org

Event Highlight

- Meet your Buyers- Sellers, Importers & Exporters, Manufacturers & formulators, intermediate manufacturers, packaging material suppliers.
- Opportunity for One -One Interaction Between the Buyers and Sellers
- Gain Knowledge from Two Days plenary sessions- listen to Industry Experts, Scientist and Researchers
- Network With More Than 700 Professional Visitors from World Over
- Opportunity For Market Research & Access
- Know about your competitors
- BSM & breakout rooms for one-one meetings.

3F Industries Ltd.

Contact Person: Ms. Kruti S. Vyas, Assistant Manager Marketing

Address: A/1106, 11th Floor, Kanakia Wall Street, Hanuman Nagar, Andheri-Kurla Road, Andheri (East), Mumbai-400093, Maharashtra, India

Email: kruti@fff.co.in

Website: <https://www.fff.co.in/>

3F Industries Ltd is a leading manufacturer and supplier of Oleo Chemicals, Pharmaceutical Excipients, and Paint Additives, with a legacy of excellence since 1962. We are committed to delivering high-quality products and creating value through strong partnerships.

Our Oleo Chemical and Pharma divisions leverage integrated capabilities, including in-house sourcing of raw materials through our agricultural, milling, and vegetable oil refining operations. Our WHO-GMP compliant Pharmaceutical Excipient facility, located in Nellore, Andhra Pradesh, adheres to ICH guidelines and is equipped to meet stringent formulation and regulatory requirements.

Pharmaceutical Excipients Range:

- 3F LuboMag – Magnesium Stearate
- 3F LuboStear – Stearic Acid
- 3F LuboCal – Calcium Stearate
- Refined Glycerine

Oleo Chemicals Range:

- Dimer Fatty Acid
- Monobasic Acid
- Distilled Vegetable Fatty Acids (Soya, Rice Bran, Sunflower)
- Stearic Acid (Industrial Applications)
- Hydrogenated Palm Stearic

PPA Range :

- Calcium Stearate
- Zinc Stearate
- Magnesium stearate

Key Highlights:

- In-house Stearic Acid manufacturing ensuring consistent quality
- Automated processes for superior control over particle size, surface area, and composition
- Compliance with IP, USP, BP, and Ph. Eur standards
- Robust QA/QC systems with audit support

- Customization as per formulation requirements
- HALAL, KOSHER, and ISO certified facility

Our Assurance: Superior quality, reliable service, and timely delivery.

A.R Life Sciences Private Limited

Contact Person: Mr. P Srinivasa Rao, General Manager

Address: No 1C, 4th Floor, Jyothi Imperial, Janardana Hills, Gachibowli, Hyderabad-500032, Telangana, India

Email: marketing@arlifesciences.com

A.R. Life Sciences (ARL) is a prominent manufacturer of bulk drugs, active pharmaceutical ingredients (APIs), and intermediates, established in 2007 and headquartered in Hyderabad, India. The company boasts a skilled workforce of over 350 employees and has cultivated strong relationships with clients both domestic and international. ARL operates three manufacturing facilities, two of which are USFDA-approved in Hyderabad, along with a newly constructed site in Vizag. The infrastructure spans 10 acres and features a reactor volume of approximately 320,000 liters. The facilities are certified with ISO 9001:2015 and WHO GMP, adhering to current Good Laboratory Practices (cGLP) and current Good Manufacturing Practices (cGMP). In a relatively short period, ARL has evolved into a vertically integrated organization,

specializing in intermediates and APIs across various therapeutic areas.

A.V. Plastic Equipments Pvt. Ltd.

Contact Person: Ms. Anagha Rane
Address: A-264, MIDC, TTC Industrial Area,
Mahape, Navi Mumbai-400710, Maharashtra, India
Phone: +91 9820174768
Email: accounts@avplastics.org
Website: <https://www.avplastics.org/>

We, A. V. Plastic Equipments Pvt. Ltd. are in the field of manufacturing various types of plastics equipments in "Spirall" HDPE /P.P. & FRP for more than two decades now. We are an ISO 9001:2015 certified and are one of the largest manufacturers in India for "Spirall" products. The company is promoted by Mr. A. R. Pillai (Mg. Director).

We specialize in manufacturing of equipments in non-metallic material of constructions typically HDPE, PP & FRP which are as follows:

HDPE and PP "Spirall" equipments

FRP Composite products

Lined equipments

- a. Chemical storage tanks
- b. Reactors / blenders / mixing vessels
- c. HDPE & PP scrubber systems & process columns
- d. HDPE & PP Nutch filters

FRP moulded products Industries

Our products are meant for applications in various industries from Chemical, Pharma, Agrochemical, Steel, Food, WTP, ETP, etc. Our products have been installed at various locations in India and are working satisfactorily to our client's expectations. Owing to our two units and infrastructure, we are capable of manufacturing products upto 100KL in capacities and higher.

Aarti Industries Limited (AIL) is one of the world's leading speciality chemical companies, combining process chemistry with scale-up engineering competence. The Company globally ranks 1st-4th for 75% of its portfolio and is a "Partner of Choice" for various Major Global & Domestic Customers. At the heart of AIL's operations is a dedication to sustainable development, seamlessly integrating environmental stewardship into its business model by leveraging cutting-edge technologies and a robust infrastructure to deliver solutions that balance economic growth with ecological responsibility. The Company's commitment to innovative and sustainable practices, along with its immense care for its people and the planet, defines its path to success.

Abhikriya Laboratories Private Limited

Contact Person: Mr. Shripad Kher, Business Development Executive
Address: Plot No. 35, Shop No. 6, Khopoli Industrial Estate, Mulgaon Road, Mulgaon, Khopoli-410203, Maharashtra, India
Email: office@abhikriyalab.com

Abhikriya Laboratories Pvt. Ltd. is a process development and intensification company specializing in contract research, catalytic process development, and scale-up feasibility studies for the refinery, petrochemical, and specialty chemicals industries. The company delivers end-to-end solutions across process chemistry, reaction engineering, and process design, supporting clients from laboratory studies through pilot and commercial implementation.

Abhikriya possesses deep expertise in ethanol and bio-based chemistry, including dehydration, oxidation, esterification, etherification, and advanced catalytic transformations. With a strong focus on green and sustainable chemistry, the organization develops low-carbon chemical derivatives while emphasizing waste minimization, solvent recovery, energy efficiency, and circular-economy principles. Each project is supported by techno-economic analysis (TEA) to ensure commercial viability.

The company operates advanced R&D infrastructure comprising fixed bed reactors (up to 50 bar, 300°C), reactive and vacuum distillation units, VLE apparatus, high-pressure autoclaves, and a fully equipped analytical laboratory with GC and spectroscopic capabilities. Abhikriya has successfully executed projects in reactive distillation, solvent recovery, catalyst performance and deactivation studies, and process simulation.

Abhikriya Laboratories is driven by a highly experienced multidisciplinary team with strong backgrounds in chemical engineering, catalysis, quality control, and industrial operations, supported by seasoned design and engineering associates. The company is committed to delivering innovative, scalable, and sustainable process solutions tailored to client-specific industrial challenges.

Ablaze Glass Works Pvt. Ltd.

Contact Person: Mr. Ravi Agrawal, Asst General Manager
Address: A/10, Rameshwari Society, Nr. Sardar Industrial Estate, Ajwa Road, Vadodara-390019, Gujarat, India
Phone: +91 9727755897
Email: ravi@ablazeprocess.com
Website: <https://www.ablaze玻璃works.com>

Founded in 1985, Ablaze Glass Works Pvt. Ltd. has built a distinguished legacy as a trusted partner in the chemical, pharmaceutical and allied industries, renowned for delivering advanced process solutions and contract manufacturing expertise.

With four decades of commitment to quality and continuous innovation, **Ablaze** has grown from a forerunner in scientific glass equipment to a comprehensive provider of laboratory and pilot-scale glass equipment and solutions.

Ablaze Process is the specialized solutions arm of **Ablaze Glass Works Pvt. Ltd.**, with a strong legacy in precision engineering and process equipment manufacturing. Over the past four decades, we have grown from a manufacturer of laboratory and pilot-scale glass equipment, process systems, engineering

packages, and integrated technology solutions into an integrated provider of **complete process systems, turnkey solutions, and contract manufacturing services** for the chemical, pharmaceutical, and allied industries.

Ablaze Process specializes in Technology, end-to-end process system design, and supply of robust technical packages that empower clients to launch and scale their operations with confidence. Our in-house engineering and fabrication capabilities, coupled with comprehensive project management, ensure seamless delivery of turnkey solutions—including acid concentration, solvent recovery, essential oil extraction, and bespoke chemical production plants.

Our Core Product:

- 1) Borosilicate Glass Process Systems & Turnkey Plant
- 2) Standard Units (Distillation Unit, Reactor, Gas Absorber)
- 3) Technical Packages
- 4) Sight Flow Indicators
- 5) Level Gauge
- 6) PTFE Lined Products (PTFE Lined Sight Flow Indicators, PTFE High Pressure Expansion Bellow PTFE Lined Ball Valves PTFE Lined Piping Components)
- 7) Sight Glass/Toughened Sight Glass Tank

ACI Industrial Organic Pvt. Ltd.

Contact Person: Mr. Anant Amin
Address: A1/47- 5, G I D C, Nandesari, Vadodara-391340, Gujarat, India
Phone: +91 0265 2841117
Email: anant.amin@aci.net.in
Website: <https://aci.net.in/>

ACI Industrial Organic Pvt. Ltd. traces its origins to 1960, when it was founded as *Associated Chemical Industries* by a group of technocrats under the name *Associated Lab Requisites*. Re-established in Vadodara in 1984 and incorporated as a Private Limited Company in 1998, ACI has grown into **India's finest and leading producer of Speciality Chemicals**, a distinction earned through decades of precision, purity, and performance.

Headquartered at the GIDC Estate, Nandesari, Vadodara, Gujarat, ACI operates a state-of-the-art manufacturing plant delivering across three core verticals:

- **Water Treatment** — Descalants & Softeners, Oil Field Chemicals, and Biocides
- **Agro Chemicals** — Chelated Micro Nutrients, Fe EDDHA, Liquid Fertilizers, and Water Solubles
- **Industrial Chemicals** — EDTA, DTPA, NTA, Thioglycolic Acid, Formate, and Chloro Acetic Acid

With over **40 years of combined team experience**, ACI serves **20+ industries** including Pharmaceuticals, Cosmetics, Personal Care, Oil & Gas, Healthcare, and Agriculture, with a trusted clientele of **125+ global clients** including Adani, Aditya Birla, Godrej, Reliance, ONGC, Hindustan Unilever, Coromondal, Dayal fertilizer ITC, Reckitt and Wipro.

Certified by all leading agencies and backed by a committed R&D function, ACI ensures every product meets the highest quality benchmarks. Their mission is clear — deliver the **right product, right quality, and right technical advice**, every time.

Trusted by industry leaders. Proven across borders. Built for the future.

Acme Sujan Chemicals

Contact Person: Mr. Nikhil Patil, Marketing and Sales
Address: D-70, 71, MIDC Area, Jalgaon-425003,
Maharashtra, India
Email: acmesujan@gmail.com
Website: <http://acmesujan.com/>

Acme Sujan Chemicals is a leading Fine and Speciality Chemicals manufacturing Company focused on delivering innovative technology and service excellence to customers across the world.

Acme Sujan Chemicals has been incorporated in February 1989 as small company to provide custom manufacturing services for other companies. It has grown steadily over the years in skill, experience and reputation to become one of the leading company in highly specialized field of Phase transfer Catalysis. Over years of efforts, we have created niche market and acquired leading edge of technology in its chosen fields.

With unique capabilities in organic chemistry and chemical engineering with respect to Phase transfer Catalysis, Pharmaceuticals active intermediates, Cosmetic ingredients sunscreen agents, Perfumery aromatic intermediates and photochemical developers.

Each of our Fine chemical business sectors offers excellent products and services to our domestic and global customers. We export thirty percent of production in Europe, US and South America, Middle East and South East Asia.

Our Capabilities are:

- Acetal Formation
- Addition Reaction
- Alkylation
- De-Alkylation Cleavage
- Condensation
- Decarboxylation
- Dehydration
- Cyclization
- Friedel - Craft Reaction
- Schiff Base Reaction
- Phase transfer catalysis - Synthesis
- Aldol Condensation
- Esterification / Trans-esterification
- Halogenation (Br₂, Cl₂, I₂, ICl, SOCl₂, PCl₅, PCl₃, KF ETC.)

Adani Ports & SEZ Ltd. (Adani Hazira Port Ltd.)

Contact Person: Mr. Jayesh, Manager Sales and Marketing
Address: At & PO Hazira, Choryashi, Surat-394270, Gujarat, India
Email: jayesh.chandan@adani.com
Website: <https://www.adaniports.com/ports-and-terminals/hazira-port>

Adani Hazira Port Ltd. (AHPL) handles all types of cargo including bulk, break-bulk, bulk liquid chemicals, petroleum products & edible oil, containers, automotive and crude. In addition to its proximity to the Delhi-Mumbai Industrial Corridor, one of the world's largest high-tech industrial zones AHPL has excellent multimodal connectivity to the northern, north-western and central parts of India.

Hazira container terminal has congestion free approach roads which allows EXIM trade with faster turnaround of their container shipments from port and saves their money and valuable time. Port also has on-dock EXIM yard with facility of customs examinations, de-stuffing and stuffing which helps importers and exporters in fast clearance of their cargoes.

- Natural gateway to cargo clusters in South Gujarat, North Maharashtra & Central India markets

- Congestion free approach road with seamless connectivity to National & State highways
- On-dock EXIM yard for stuffing, de-stuffing, customs examination and M&R facilities
- Direct delivery from terminal to cut logistics cost
- Flexible carting & paperless transactions for gate-in/gate-out of containers

Adani Hazira liquid terminal, Our multiple berths equipped with different types and sizes of pipelines from jetty to tank farm, ensure safe and efficient handling of liquid products in big parcels. The tank farm at the port is capable of storing multiple types of liquid cargo including veg oil, chemicals and petroleum, oil & lubricants (POL) products. The infrastructure at the Liquid terminal ensures best in class storage, safe and contamination free handling of cargo for the customer.

Founded in **1992**, Aditya Chemicals is a **GMP-certified manufacturer** based in Ahmedabad, India. For over **3 decades**, we have been manufacturing and supplying **high-purity APIs, Food Additives, Excipients, and Nutraceutical Ingredients** to the **pharmaceutical, nutrition, and food industries across the world**.

Our Products:

Amino Acids & Derivatives: Glycine, L-Carnitine L-Tartrate, L-Carnitine Fumarate, Lysine Hydrochloride, Arginine Aspartate, and more.

Chelated Minerals: Glycinates, Citrates, Gluconates, Taurinates, Malates, Aspartates, Lactates, Orotates, and Edetates of **Magnesium, Calcium, Copper, Ferrous, Potassium, Manganese, and Zinc**.

Vitamins & Derivatives: Riboflavin, Riboflavin Sodium 5 Phosphate, Calcium L-5 Methyltetrahydrofolate.

Our Quality Standards:

- **Certified:** FSSC 22000, ICH Q7, ISO 9001, Kosher, Halal
- **Multi-compendial compliance:** USP, EP, BP, JP
- **Free from heavy metals and BSE/TSE**
- **Consistent quality batch to batch**
- **Available in powder, granular, or crystal form**
- **Full supply chain transparency**

Trusted by global leaders like **Sun Pharma, P&G, Solvay**, and Innophos, Aditya Chemicals delivers **pure, reliable, and compliant ingredients for your business.**

Advance Petrochemicals Ltd

Trusted Chemical Solutions Backed by 40+ Years of Expertise

Website: www.advancepetro.com

Advance Petrochemicals Ltd is a well-established chemical manufacturing company with over four decades

of experience serving domestic and global markets. As an exhibitor at Chemexpo, we are pleased to present our strong manufacturing capabilities, diversified product portfolio, and customer-centric approach built on reliability, quality, and long-term partnerships.

Product Portfolio:

- **Glycol Ethers:** Widely used in coatings, cleaners, inks, and other industrial applications.
- **Amines:** Serving as key intermediates across personal care, agriculture, water treatment, and specialty chemicals.
- **Surfactants:** Designed for effective cleaning, emulsification, and wetting performance in multiple formulations.
- **MDEA (Newly Launched & In Commercial Production):** We have recently started commercial production of Methyl Diethanolamine (MDEA), catering to gas sweetening requirements in the oil & gas sector, with a focus on high purity and consistent quality.
- **MMEA:** Applied broadly in specialty chemical formulations and industrial applications.

Contract Manufacturing: Advance Petrochemicals Ltd is also open to **contract manufacturing for Ethoxylation**, offering flexible capacities, strict quality control, and technical support to meet customer-specific requirements.

With modern manufacturing facilities and strong technical expertise, we support industries such as Automotive, Textiles, Pharmaceuticals, Oil & Gas, Agriculture, Personal Care, and Construction. Visit our stall at Chemexpo to explore products including **Methyl Glycol, Methyl Carbitol, Butyl Glycol Ether, Castor Oil Ethoxylate, Nonyl Phenol Ethoxylate, MDEA, MMEA, Brake Fluid, Polyethylene Glycol, and Triethanolamine**, and discuss opportunities for collaboration.

3C01

Advanta Biokemix Pvt Ltd

Contact Person: Mr. Samith Bajaj, Director

Address: 4th Floor, Ashoka Towers, Plot No 19, Sy No 55-58, Gachibowli, Serlingampally, Hyderabad-500032, Telangana, India

Email: samith@biokemix.com

Advanta bioKEMIX is the India-and-China facing arm of bioKEMIX's global network, built to integrate sourcing, manufacturing, and research into a single, coordinated chemical network.

Operating at the intersection of supply and innovation, Advanta is developing a cross-border network that combines on-ground sourcing intelligence, multi-site manufacturing capabilities, and research-driven development partnerships. This structure enables seamless coordination across the chemical value chain, from raw material aggregation to finished product optimization.

By aligning eastern manufacturing ecosystems with western commercial demand, Advanta provides global customers, brands, and formulators with reliable access to high-quality inputs, scalable production, and technically robust solutions under the bioKEMIX umbrella.

Our model is anchored in three integrated verticals:

- **Sourcing:** aggregation of fragmented supplier bases, strategic consolidation, and efficient global distribution
- **Production:** flexible manufacturing through partner factories, with capabilities in synthesis, scale-up, analysis, and process optimization
- **Research:** collaborative development focused on product innovation, process efficiency, and precision-driven performance.

Beyond execution, Advanta plays a structural role in reshaping how chemical supply chains operate. Traditional models—characterized by multiple intermediaries, opacity, and inefficiency—are being replaced by more direct, transparent, and integrated systems.

As part of this shift, Advanta is building a scalable network that reduces friction between suppliers, manufacturers, and end markets—enabling faster development cycles, improved cost efficiency, and greater reliability across geographies.

Advent Chembio Pvt Ltd is 12-year-old, ISO-certified chemical manufacturing company delivering high-quality, customizable solutions to clients across **30+ countries** through a network of **150+ channel partners**. With **4 manufacturing & testing sites**, **GLP/GMP-compliant operations**, and a **30,000 sq. ft. central warehouse**, we're equipped to meet the evolving needs of global industries.

At Advent Chembio, we don't just transform molecules—we transform lives.

Our Product Offerings

With **3,500+ products and 12,000+ SKUs**, our portfolio includes:

- **High-Purity Solvents & Reagents:** HPLC, GC, LN & LCN grade solvents; trace metal analysis reagents; ion-pairing & electronic-grade reagents;
- **Pharmacopoeia-labelled excipients:** Labelled USP, EP, BP, IP, JP & multicompendial solvents and solids in customized packs.
- **Pharmaceutical Standards & Impurities:** Certified reference standards, working standards (in-house/traceable), drug impurities, nitrosamines, metabolites, labelled compounds
- **Peptide & Specialty Chemicals:** Fmoc amino acids, short peptides,
- **Advent's Building blocks:** conjugated bile salts, building blocks, advanced intermediates
- **Diagnostics & Lab Solutions:** Analytical reagents, diagnostic chemicals, Chemicals for manufacturing diagnostic kits.

Comprehensive characterization reports available: CoA, HNMR, MASS, IR, TGA, CHNS, and more—customized to your regulatory needs for Research chemicals.

Certifications & Capabilities

- **ISO 9001:2015, ISO 14001:2015, GLP, GMP, ISO/IEC 17025:2017, ISO 17034:2016**
- **EcoVadis Certified (Bronze Medal)**
- **Export-Ready Packing:** UN-approved HDPE, MS, GI containers

Agrocel Industries Pvt. Ltd.

Contact Person: Mr. Swapnil Kadu
Address: B-701/702, 7th Floor, Flexcel Park, 184-87, S.V. Road, Jogeshwari (West), Mumbai-400102, Maharashtra, India
Email: swapnil@agrocel.net
Website: <https://agrocel.co.in/>

Agrocel is a leading Indian Minerals, Specialty Chemicals and Plant Nutrition Company. We operate with a unique, integrated business model. We extract raw materials by utilizing sophisticated processing and product formulation technologies to add value to our customers in the industrial and agricultural markets.

Leaders in India's bromine-based marine chemical industry and fourth largest bromine manufacturer in the world, our corporate identity bears testimony to the team's determination, commitment, and perseverance. The driving philosophy behind all our actions has been to strictly adhere to codes of corporate responsibility, ensuring welfare of the communities that we live in, and generating wealth that benefits our stakeholders.

Agrocel's resources of bromine and potash are amongst the world's most sustainable, renewable, and self-replenishing. We are the only company globally that manufactures Bromine in two locations with two different processes, lending us a competitive edge.

Our corporate identity bears testimony to the team's determination, commitment and perseverance that has allowed us to build strength using untapped resources in seemingly impossible locations. The driving philosophy behind all our actions has been to remain a responsible company ensuring welfare of the society while benefiting the shareholders.

Agrosyn Impex

Contact Person: Mr. Ravi Joshi

Address: Industrial Shed No. C 1B/2134, Chemical Zone, GIDC, Sarigam, Valsad, Vapi-396155, Gujarat, India

Email: sales2@agrosyn.co.in

Website: <https://agrosyn.co.in/>

Agrosyn Impex - Your trusted partner for Construction chemicals.

Agrosyn is a fast-growing multi-sector company with a vision of synergy and long-term partnerships, we believe in creating value-driven solutions for our customers. Our focus is on innovation, quality, and global reach, ensuring reliable products and competitive prices. With a strong presence in:

- Chemical Sector
- Plastic Sector

• **Chemical Sector:** We have a chemical manufacturing unit specialized in Construction Chemicals (admixtures, waterproofing chemicals, coating chemicals, soil binders, accelerators) and Leather Chemicals. Our manufacturing facility is located at GIDC-Sarigam, Gujarat. Our production capacity is 1,000 MT of liquid and 180 MT of spray-dried powder. We maintain strict quality control through advanced in-house testing laboratories.

We also operates a dynamic export-import division, exporting products to 23 countries and importing from 5 countries. We are one of the top importers of Sodium Lignosulphate in India. With a strong focus on innovation, quality, and global reach, we are committed to delivering high-performance chemical solutions tailored to industry needs.

As our name suggests, we believe in synergy. We treat our customers as partners, offering customized solutions at competitive prices. Rather than focusing on short-term gains, we are dedicated to creating long-term, win-win relationships with our customers.

• **Plastic Sector:** Started in 2017, our plastics supplies are HDPE drums, Containers, Jerry cans, Bucket, IBC tanks, and plastic pallets (5L to 1000L).

Features: UN-certified for export shipments, custom colours & logo printing, stringent quality tests (drop, compression, leakage).

Alicat Scientific – Precision You Can Trust

Alicat Scientific is a world-leading innovator in **flow and pressure measurement and control technologies**, empowering industries to achieve higher accuracy, faster response, and greater process efficiency. Headquartered in Tucson, Arizona (USA), Alicat has been delivering cutting-edge solutions since 1991, supporting customers across the globe with reliable, high-performance instrumentation.

Alicat's comprehensive product range includes **mass flow controllers and meters, liquid flow instruments, pressure gauges, and pressure controllers**, engineered to deliver **real-time, multi-gas and multi-fluid measurement**. Built on advanced sensing technologies such as **laminar differential pressure, thermal, and Coriolis measurement**, Alicat instruments offer exceptional accuracy, ultra-fast response times, and wide turndown ratios—making them ideal for dynamic and demanding processes.

Designed for seamless integration, Alicat devices support a wide array of **digital and industrial communication protocols**, including Ethernet, Modbus, Profibus, and IO-Link. Intrinsically safe models, portable calibration solutions, and application-specific custom designs further enhance flexibility and usability.

Trusted by leaders in **semiconductors, life sciences, aerospace, energy, Automotive, pharmaceuticals, and advanced research, Fine Chemicals**, Alicat stands apart through its commitment to innovation, quality, and customer success. As part of **Halma plc**, Alicat combines global reach with personalized support—delivering fast lead times, expert technical assistance, and solutions that help customers measure, control, and succeed with confidence.

Our company Alkali Metals Ltd., is a 57 year old company, with three (03) manufacturing sites and manufacturing a large no. of Chemicals and Pharmaceutical intermediates. We export our products to Europe (Germany, France, Switzerland, Italy, and Belgium), Japan, U.S.A., U.K. and China to the extent of 10 million USD per year.

PRODUCTS PROFILE: Category-wise

- 1) API PRODUCTS
- 2) (AMINOMETHYL) PYRIDINE COMPOUNDS
- 3) ACETILPYRIDINE COMPOUNDS
- 4) ALKYL BORATE COMPOUNDS
- 5) AMINOPYRIDINE COMPOUNDS
- 6) AZAINDOLE DERIVATIVES
- 7) BIPYRIDINE COMPOUNDS
- 8) BORONIC ACIDS
- 9) BROMOPYRIDINE COMPOUNDS
- 10) CARBAZOLE COMPOUNDS
- 11) CHLOROPYRIDINE COMPOUNDS
- 12) CYANOPYRIDINE COMPOUNDS
- 13) CYCLIC COMPOUNDS & FINE CHEMICALS
- 14) DIETHYLAMINO PYRIDINE COMPOUNDS
- 15) DSSC & OLED MATERIALS
- 16) ETHOXYPYRIDINE COMPOUNDS
- 17) FLUOROPYRIDINE COMPOUNDS
- 18) HYDROXYPYRIDINE COMPOUNDS
- 19) METHOXYPYRIDINE COMPOUNDS
- 20) NEW PRODUCTS
- 21) NITROPYRIDINE COMPOUNDS
- 22) OTHER METAL DERIVATIVES
- 23) PICOLYLALCOHOL COMPOUNDS
- 24) POTASSIUM DERIVATIVES
- 25) PYRIDINE N-OXIDE COMPOUNDS
- 26) PYRIMIDINE COMPOUNDS
- 27) QUINOLINE COMPOUNDS

- 28) SODIUM DERIVATIVES
- 29) TETRAZOLE COMPOUNDS
- 30) TRIAZOLE COMPOUNDS

Alkyl Amines Chemicals Ltd.

Contact Person: Mr. Amol Bhamare, Sr Executive Marketing
Address: 401 - 407, Nirman Vyapar Kendra, Plot No.10, Sector 17, Vashi, Navi Mumbai-400703, Maharashtra, India
Phone: +91 22 67946600
Email: exports@alkylamines.com
Website: <https://alkylamines.com/>

Alkyl Amines Chemicals Ltd. (AACL) is a global supplier of aliphatic amines, specialty amines and amine derivatives to the pharmaceutical, agrochemical, water treatment, rubber chemical and a variety of industries. We work closely with our customers to develop products for their requirements and cater to their specific needs on quality, specifications and supply chain. Our focus on technology, scale of manufacturing as well as our ethical approach to business sets us apart as the partner of choice for amine chemistry.

All our products are developed by our dedicated research scientists and engineers at our technology center at Hadapsar, Pune, who interact with our customers to identify molecules of interest to scale up from gram to commercial. Intensive process development and analytical methods for impurity identification along with engineering optimization during scale up and haz-op analysis are conducted here. We continue to augment our technology team and capabilities to expand our technical competence to platforms beyond amine chemistry.

Allegro Speciality Chemicals Pvt. Ltd.

Contact Person: Mr. D.V.V.S. Sita Rama Raju, Senior Executive

Address: Plot No. 916-I, Road No 46, Near Hill Side School, Jubilee Hills, Hyderabad-500033, Telangana, India

Phone: +91 9133382161

Email: logistics@allegro.co.in

Website: <http://www.allegro.co.in/>

Allegro Specialty Chemicals is a green-field plant located strategically at Naidupeta, close to two major ports in A.P. We specialize in the manufacture of Sodium Methoxide, both in solution and powder form. Higher metal Alkoxide such as Potassium Methoxide and Sodium ethoxide solutions are also in the product pipeline.

The promoters are pioneers in the field of sodium methoxide and have over 30 years experience in project design, construction manufacturing and marketing in the global SMO market. Specifically the founder Mr. Shantisagar is one of the developers of the current process and has supplied SMO Solution to top Biodiesel producers in USA such as ADM and Cargill from his previous company Green Catalysts.Inc, USA.

Redefining Excellence in Chemical Distribution

Since 2000, Alliance has stood as a trusted name in delivering high-quality chemical raw materials, excipients, and specialty ingredients to the food, pharmaceutical, bulk drug, and nutraceutical industries. Backed by global partnerships and deep industry expertise, we bring world-class solutions to manufacturers across India and beyond.

Our portfolio reflects both depth and versatility. In intermediates and bulk drugs, we supply key materials including **Cyanoacetamide, Cyaoacetic acid, Cyanuric chloride, Diethyl Malonate, Dimethyl Malonate, Epichlorohydrine, EDTA variants, Hydrazine Hydrate, imidazole, Malonic Acid, MCA, MCAA, Sodium Cyanide, and Tertiary Butyl Alcohol.** Complementing this, our range extends to **Calcium Lactate, and multiple grades of Lactic and Propionic acid.**

In pharmaceuticals and nutraceuticals, we offer high-performance ingredients such as **Astaxanthin, BHA, BHT, TBHQ, Collagen Peptides, Guar Gum, Lactose Monohydrate, MCCP, MCT oil, Omega fatty acids, Potassium sorbate, Sorbic acid, and Vitamins C and E.** Our nutrition range includes **protein powders, whey protein, along with jaggery, Stevia and date-based products.**

Driven by market insight and operational excellence, our advanced warehousing and supply chain capabilities ensure bulk efficiency and timely delivery. At Alliance, we go beyond supply—delivering consistency, competitive value, and trusted partnerships.

Alliance – where quality performs, and partnerships power progress.

Alpha Chemika

Contact Person: Mr. Hitesh Konjathur, General Manager

Address: 102, B- Wing, Savgan Heights, RTO Lane, Andheri (West), Mumbai-400053, Maharashtra, India

Phone: +91 22 26317055

Email: info@alphachemika.co.in

Website: <https://www.alphachemika.co/>

Alpha Chemika is a trusted manufacturer and global supplier of high-quality laboratory chemicals, fine chemicals, and research reagents. With a strong commitment to precision, purity, and performance, we cater to the diverse needs of pharmaceutical companies, research institutions, educational laboratories, healthcare organizations, and industrial clients worldwide.

Established with a vision to deliver consistent quality and scientific reliability, Alpha Chemika has built a comprehensive product portfolio that includes analytical reagents, culture media ingredients, laboratory reagents, stains and indicators, buffer solutions, volumetric solutions, and specialty chemicals. Each product is manufactured under stringent quality control systems to ensure compliance with national and international standards.

Our state-of-the-art manufacturing facilities are equipped with advanced technology and operated by a skilled team of chemists and quality professionals. We follow rigorous testing protocols at every stage—from raw material procurement to final packaging—ensuring accuracy, safety, and batch-to-batch consistency. Our packaging solutions are designed to maintain product integrity during storage and transportation.

At Alpha Chemika, customer satisfaction is at the core of our operations. We emphasize timely delivery,

customized solutions, and responsive technical support to meet the evolving demands of the scientific community. Through continuous innovation, quality enhancement, and global outreach, we aim to contribute to scientific advancement and industrial growth.

Driven by integrity, excellence, and reliability, Alpha Chemika stands as a dependable partner for laboratories and industries seeking superior chemical solutions.

Amar Equipments Pvt. Ltd.

Contact Person: Mr. Nikhil A More, Technical Sales Engineer

Address: Valson Mills Compound, L.B.S Road, Bhandup (West), Mumbai-400078, Maharashtra, India
Phone: +91 22 62255023

Email: nikhil.more@amarequip.com

Website: <https://amarequip.com/>

Amar Equipment Pvt. Ltd. and Amar Flow together represent a powerful ecosystem of advanced reactor technologies and process engineering solutions that span the full lifecycle of chemical reaction development—from concept and lab-scale feasibility to pilot and commercial manufacturing. **Amar Equipment**, a veteran in high-pressure and high-temperature vessel design since 1974, is a leading manufacturer of *batch and continuous reactors* including stirred and autoclave reactors, as well as specialized *flow reactors* engineered for rigorous R&D and industrial applications. Their portfolio covers custom reactors in exotic materials such as SS316, Hastelloy, Inconel and Titanium, capable of handling extreme conditions up to 700 bar and 1000 °C, serving chemical, pharmaceutical, oil & gas, and research sectors worldwide.

Building on this robust manufacturing foundation, **Amar Flow (Amar Flow Laboratory)** focuses on *flow chemistry innovation and process intensification*. It leverages Amar Equipment's reactor technologies in its process development laboratory to help clients convert traditional batch chemistry into efficient continuous processes. Here, modular continuous flow reactors—such as microreactors, tubular reactors, slurry handling systems, and fixed-bed designs—are employed with analytical feedback to optimize reaction performance, improve safety, and enable seamless scale-up.

Together, **Amar Equipment's precision reactor fabrication and Amar Flow's flow chemistry expertise** deliver turnkey solutions that enhance product quality, reduce cost and risk, and accelerate commercialization. Their integrated approach supports applications from kinetic studies and process design to pilot plant execution, driving modern continuous manufacturing strategies across industries.

We, at Amkette Analytics Ltd are dealing in Laboratory instrument and consumables., please find below our product details.

Analytical/ QC/ QA Laboratory:

- Weighing Balances, Make: Shimadzu, Japan
- Muffle Furnace, Make: Nabertherm, Germany
- Alpine Air Jet Sieve Shaker, Make: Nexopart, Germany
- Laboratory Glassware Washing System, Make: Lancer, France
- Digital Optimelt Melting Point Apparatus, Make: SRS, USA
- Ovens, Incubators, Cooled Incubators, Co2 Incubators, Make: Binder, Germany
- Humidity Chambers, Climatic Chambers, Make: Binder, Germany
- Freezers & Refrigerator, Make: Gram, Denmark

- Test Sieve Shakers, Seives & Particle Size Analysis, Make: W S Tyler, USA
- Water Activity Meter, Make: Novasina, Switzerland
- Ultrasonic baths Make: Hwashin, Korea.
- Water bath / Chiller, Make: Polyscience, USA
- Viscometer, Rheometer, Texture Analyser, Online Viscometer, Make: Lamy, France
- Texture Analyser, Make: Shimadzu, Japan

Biotech / Microbiological Instruments:

- Autoclaves – Vertical & Horizontal, Make: Hirayama, Japan
- Ovens, Incubators, Cooled Incubators, CO2 Incubators, Make: Binder, Germany
- Humidity Chambers, Climatic Chambers, Make: Binder, Germany
- Water Activity Meter, Make: Novasina, Switzerland
- Freezers & Refrigerator, Make: Gram, Denmark
- Colony Counter, Lab Blenders, Sampling Bag, Make: Interscience, France

Chromatography Columns & Supplies & Spectroscopy Supplies:

- Vials, Septa, Caps for HPLC & GC Auto Sampler, Make: Cyber lab, USA
- D2 Lamp for HPLC, Make: Cyber lab, USA
-Syringes, GC Capillary Columns, Linear, Ferruel, Septa, Make: SGE, Australia

Pollen Breeding & Bio Processing (impedance flow cytometry) :

- Cell Analyser
- Pollen Analyser

2B08**AMLF Multimodal**

Contact Person: Mr. Aman Malhotra, Director

Address: PAP/D 143, TTC Industrial Area, MIDC Turbhe, Navi Mumbai-400705, Maharashtra, India

Email: aman@amlf.net

Website: <https://amlf.net>

AMLF has been providing logistics and supply chain solutions for bulk liquid transportation and in-transit storage for over 26 years, with utmost dedication to material safety and security. AMLF owes its success to its expert professionals, state-of-the-art technologies, extensive fleet, and the confidence of many blue-chip clients.

We provide services such as Road Transportation, Multimodal Transportation by rail as well as coastal means and ISO Tank leasing for storage and cargo transfer purposes.

AMLF has over 400 road tankers, 700 ISO tanks making it one of India's largest fleet owners in this segment catering to over 70000MT of cargo carried monthly.

Ampson Chemicals LLP

Contact Person: Mr. Sagar Shah
Address: Samhita International Complex, Office No. 38, Building No 13-AB, MTNL Exchange Road, Opposite Fairfield by Marriott, Andheri (East), Mumbai-400072, Maharashtra, India
Email: sagar@ampson.net
Website: <https://ampsonchemicals.com/>

Ampson Chemicals is a trusted chemical distribution company serving industries like Home and Personal care, Hygiene, Dyes and Pigments, Micronutrients, Adhesives and Textiles. With a strong focus on quality, reliability and customer partnership, we act as a vital link between leading Global manufacturers and end use industries. Ampson is authorized distributor for Nouryon (Chelating agents and surfactants) and Evonik (Textile additives) in India.

Backed by an experienced team, we offer comprehensive support beyond distribution—ranging from product selection and application guidance to regulatory documentation and after-sales service. We maintain robust logistics and inventory management systems to ensure timely deliveries and uninterrupted supplies across regions. Ethical business practices, transparent dealings, and long-term relationship building form the foundation of our operations.

Our product portfolio comprises of Chelating Agents, Biocides, Green Surfactants, Pigments, Preservatives, Quats, Ethoxylates. Driven by innovation and market insight, we continuously expand our product range and capabilities to support our customers' growth.

We have our headquarters in Mumbai, and warehouse facilities in Maharashtra and Gujarat.

Anar Chemicals LLP

Contact Person: Mr. Bajarang Singh, Asst Manager
Address: Plot Nos. 12 & 14, GIDC Estate, Phase I, Vatva, Ahmedabad-382445, Gujarat, India
Email: business@anarchem.com
Website: <https://anarchem.com/>

Anar Chemicals LLP, Ahmedabad India - spreading colours in lives with Passion, Purpose & Precision. ISO Certifications- ISO 9001:2015 - ISO 14001:2015 - ISO 45001:2018. 45Years. One Promise. Endless Possibilities. Established in 1980 – 45 years of colour mastery - 13,500 square meter plant – Vatva GIDC, Ahmedabad - Leading manufacturer of Petroleum Fuel Dyes, Aviation Smoke Dyes, Flame Retardant, Tracer Monomer, Metal Phthalocyanine, Naphthols - Speciality chemicals for Oils, Polymer, Rubber, Dyes, Coatings, Aqua & Agro chem - Advanced Effluent Treatment Plants. Sustainability at heart.

Core Offerings

1. Liquid Solvent Petroleum Fuel Dyes & Fire Suppressant Dyes.
2. Linear & Branched Para Dodecyl Aniline.
3. Candle Liquid Dyes for paraffin, soy, and gel wax.
4. Fluorescent Tracer Monomer.
5. Azo Dye Markers.
6. Naphthols ASCL, ASCA, ASLC, ASOL, ASBI.
7. Metal Phthalocyanines.
8. Smoke Dyes.
9. UV Absorbers (1577, 1164, 2500) Lubricants, Polymers & Coatings
10. Water-Glycol Soluble Dyes.
11. Cargo Dyes.
12. PPM Triazine Polymer Additive: Cable Compounding, Masterbatch Industry & Intumescent Coatings.

Beyond Manufacturing

1. CDMO: Contract Manufacturing, Tolling & Outsourcing
 2. Custom Development of Molecules & Manufacturing specialty chemicals under strict confidentiality ensuring supply security. Custom, scalable, IP-secure
 3. Joint Venture
- In collaboration with MCA Technologies, we manufacture PPM Triazine - patented, eco-friendly halogen free flame & fire retardant synergist for Cables, Polymer, Masterbatch & Compounding.
3. Sourcing, Outsourcing & Trading Support- Global network, local execution

4. Reaction Profile

Amidation
Sulphonation
Condensation
Esterification
Heterocyclic Synthesis
Multi-step synthesis
Reduction
Oxidation
Nitration
Diazotization
Hydrogenation
Friedel-Crafts Acylations

Angel Flow Tech Private Limited

Contact Person: Mr. Arvind Nirmal, Director
Address: Ground Floor, Shop No. 101, Vindhya Commercial Complex, Plot Number -1, Sector-11, Opp. State Bank of India, CBD Belapur, Navi Mumbai-400614, Maharashtra, India
Email: sales@aftco.in
Website: <https://www.angelflowtech.com/>

Angel Flow Tech Private Limited (AFT), established in 2020, is an engineering company specializing in the development, supply, and servicing of high-quality metallic and non-metallic components for diverse industrial applications. Backed by an experienced engineering team, AFT is committed to delivering reliable, premium solutions aligned with international quality standards.

AFT's core portfolio includes **industrial products** such as Pressure and temperature gauges, and PTFE gland packings; **cleaning equipment** including high-pressure pumps, hoses, rotor jets, and related solutions; and a comprehensive range of **ISO tank spare parts** like PTFE gaskets, seals, valves, caps, flanges, O-rings, walkways, and cladding systems. The company also supplies **certified construction materials** including FRP, MS, SS, and aluminum sheets, angles, and structural rails for cladding and framework applications.

In addition, AFT is actively involved in the **sale and purchase of ISO tank containers and dry box shipping containers** from Kalamboli Steel Market (Nhava Sheva), along with **fabrication of portable containers** for office and storage use.

Beyond supply, AFT provides specialized **maintenance and repair (M&R)** services for heavily damaged ISO

tank containers, covering internal defects such as pitting and dents, as well as external refurbishment.

With a strong focus on quality, safety, and customer satisfaction, Angel Flow Tech delivers integrated engineering solutions while building long-term partnerships across industrial and logistics sectors.

We are manufacturing Fine Chemicals, Specialty Chemicals, and Pharma Intermediates

•Zinc Chloride •Potassium Chloride •Ammonium Chloride •Calcium Chloride •Calcium Acetate •Calcium Hydroxide Pharma •Manganese Acetate •Magnesium Chloride •Magnesium Sulphate •Potassium Carbonate •Ferrous Sulphate •Sodium Acetate •Zinc Carbonate •Zinc Acetate •Zinc Sulphate

FINE CHEMICALS:

•Antimony Tri Chloride /Liquid •Antimony Penta Chloride •Ferric Chloride •Barium Carbonate •Ammonium Chromate •Ammonium Di Chromate •Potassium Chromate •Potassium Di Chromate •Ferrous Sulphide •Lead Acetate •Lead Chromate •Lead Chloride •Lead Carbonate •Lead Nitrate •Copper Carbonate •Copper Sulphate •Copper Acetate •Copper Nitrate

FORMATE:

•Potassium Formate •Potassium Di Formate •Ammonium Formate •Calcium Formate •Sodium Formate

BISMUTH PRODUCTS:

•Bismuth Carbonate •Bismuth Citrate •Bismuth Oxide •Bismuth Subgallate •Bismuth Oxychloride •Bismuth Subsalicylate •Bismuth Subnitrate •Bismuth Hydroxide

SELENIUM / SELENITE / VANADATE:

•Selenium Sulfide •Selenium Dioxide •Sodium Selenite •Sodium Selenate •Sodium Meta Vanadate •Potassium Meta Vanadate

IODIDE PRODUCTS:

•Sodium Iodide •Potassium Iodide •Potassium Iodate •Calcium Iodate •Calcium Iodide •Sodium Iodide •Sodium Iodide •Ammonium Iodide •Copper Iodide •Iodoform •Methyl 2-Iodobenzoate •Trimethyl Sulfoxonium Iodide (TMSI)

PYRIDIUM:

•Pyridium Di Chromate •Pyridium Chloro Chromate •Pyridium p -Toluene Sulphonate

ORGANICS PEROXIDES:

Aluminium Isopropoxide Tertiary Butyl Peroxide Di Tertiary Butyl Peroxide •Tertiary Butyl Per Benzoate Tertiary Butylperoxy-2-ethylhexanoate Calcium Peroxide Urea Peroxide

PHARMA INTERMEDIATES / SPECIALITY

CHEMICALS: 2 Phenyl Benzimidazole 5 Sulfonic Acid 3 Hydroxy Benzaldehyde 3 Nitro Benzaldehyde Methyl Lactate N N Di Methyl 3-Aminophenol Lasamide 4 Nitrophenol 5 Chloro 2 Nitro Aniline (5CNA) 2 Nitro Acetophenone 3 Nitro Acetophenone Methyl 4 Aminobenzoate

The APL Group began its journey in 1982 with the manufacturing of textile chemicals, promoted under the brand name 'VENUS'. In a short span of time, the brand earned the trust and confidence of customers, becoming a reputed name in the chemical industry.

Over the years, the Group diversified its product portfolio of polymers and surfactants by establishing the following manufacturing units:

Venus Dye Chem

Venus Marketing Combined Pvt. Ltd.

Arham Technochem

Anshika Polysurf

Anshika Polysurf Limited

Today, all these manufacturing concerns operate under the flagship of the APL Group, catering to industries such as Carpets, Pharmaceuticals, Construction, Agrochemicals, Packaging & Adhesives, Textiles, Paper, Paint & Coatings, Home Care, Personal Care, Automotive & Rubber, Oilfield & Lubricants.

The Group's core strengths lie in its focussed R&D and flexible manufacturing setups, enabling innovation, developing new molecules, enhancing the performance of existing products, and delivering tailor-made, reliable solutions to customers.

All APL scope of certification is ISO 9001:2015, ISO 14001:2015, and ISO 45001:2018 certified.

2A05

Anticorrosion India Pvt. Ltd.

Contact Person: Mr. Ramesh Natarajan, DGM Sales Marketing

Address: Plot No E-100, Ranjangaon MIDC, Village - Karegaon, Tal: Shirur, Pune Dist.-412220, Maharashtra, India

Email: ramesh.natarajan@anticorrosion.in

Website: <https://resistotech.in/>

Anticorrosion India Pvt. Ltd., formed by taking over **SGL Carbon India Pvt Ltd - German Facility**, thereby carrying forward a strong legacy of delivering high-end

engineered graphite solutions to both domestic and international markets. Anticorrosion is pioneers in the design, development, and manufacturing of **Graphite Heat & Mass Transfer Equipment, PTFE Seamless Lined Piping Systems and Process Equipment**, catering to chemical, pharmaceutical, fertilizer, and allied process industries.

Our **Equipment** is designed and manufactured using premium-quality raw materials, suitable for handling highly corrosive media such as strong acids and aggressive chemicals, ensuring excellent thermal shock performance, reliability, and long service life. All equipment is manufactured, inspected, and tested in accordance with applicable international standards to meet stringent processes and safety requirements to run the plant in smooth condition without any production losses.

Products Portfolio: -

Graphite Heat & Mass Transfer Equipment

- Heat Exchangers – Block and Shell & Tube Type
- Condenser & Evaporator
- Heater / Cooler / Reboiler
- Absorbers – Falling Film / Rising Film
- Quenchers
- Silicon Carbide Heat Exchanger

Systems & Package

- HCL Synthesis Package
- Dry HCL Gas package
- HCL Absorption package
- H₂SO₄ Dilution
- Ejector Systems

Fluoropolymer Lined Process Equipment

- Column/Scrubber
- Tank & Vessel
- Catch Pot
- Reactor

At ACIPL, we believe not simply in selling products; instead, we focus on providing reliable engineered solutions that ensure a maintenance-free operational life. Our commitment to quality and engineering excellence has resulted in a zero-failure track record across our supplies.

Anval International Private Limited

Contact Person: Mr. Yogeshwar Manoharan, Engineer Sales

Address: E2-3, Industrial Estate, Maraimalai Nagar, Chengalpattu, Chennai-603209, Tamil Nadu, India

Email: yogeshwar.manoharan@anval.net

Website: <https://www.meelupsystems.com/>

Anval is a global leader in the design and manufacture of valves, feeders, and airlocks for bulk solids handling. Originating from **Ansac**, an Australian thermal processing specialist, Anval draws on more than 40 years of engineering experience to deliver reliable equipment for demanding industrial applications worldwide.

Anval products are known for their exceptional durability and dependable sealing performance in extreme operating conditions, including high temperatures, high pressures, abrasive environments, and explosive atmospheres. With a strong focus on quality and reliability, Anval ensures optimal performance across a wide range of industries, from cement and mining to food and pharmaceutical processing.

The Anval product portfolio includes **23 product series**, covering solutions for feeding, airlocking, and isolation applications. Its main product categories include rotary valves, slide gate valves, dump valves, and diverter valves.

Key product series include the **RFS Series**, a ceramic-embedded, wear-resistant airlock; **RS Series**, corrosion-resistant stainless steel airlock and feeder; **RE Series**, hygienic quick-clean valve; **RSC Series**, designed for sticky and viscous bulk solids; **RMF Series**, heavy-duty airlock for large-scale applications; and **RH Series**, robust rotary airlock and feeder for demanding solids handling operations.

With more than **two decades of experience**, we have built a strong reputation as trusted importers, stockists, and distributors of chemical raw materials in India. Our extensive industry knowledge and hands-on experience enable us to understand evolving market dynamics and customer-specific needs.

We source premium-grade materials from globally reputed and reliable manufacturers, ensuring consistent quality, regulatory compliance, and dependable supply. Our products cater to a wide range of industries across India, including **Textiles, Water Treatment, Pharmaceuticals, Colorants, Paints, Coatings, Resins, Adhesives, Flavors, and Fragrances**.

We are proud to be authorized distributors for leading companies such as **Kaison Chemicals, Solvay, The Beaming Company, WeylChem, Lotte, Jiangsu Feymer, KremsChem, UI VR PRIVATE LIMITED, and Aqua pharm**. Our strong supplier partnerships allow us to deliver trusted products backed by technical knowledge and responsive service.

Driven by quality, integrity, and long-term relationships, we strive to be a reliable partner in fulfilling our clients' raw material requirements.

quality, timely delivery & service have built long-term partnerships with leading FIBC users & distributors.

Specialized in Food & Industrial grade FIBCs, ABS offers UN-certified, conductive (Type C) & dissipative (Type D) bags, baffle & circular FIBCs, dust proof (for fine powders), flame retardant and other customized solutions with a wide range of liners.

Our FIBC designs:

U+2 panel
4+1 panel
Circular FIBCs
Baffle-FIBCs / Q-bag
Tubular Baffle / Circular Baffle
One / Two loop FIBCs

Customizations

- Single | double | triple dust proof seams
- Standard Baffle | Net Baffle | Gambo Liner Baffle | Tie Baffle
- Corner & cross corner loops
- FIBCs with conical top / bottom
- Ventilated FIBCs

Liner insertion options: Form fit, Tabbings, Glued and Flange

Liners options:

- EVOH Liner
- EVA Liners
- Heat Stable - PP Liner
- Foil Liners
- Baffle Liners
- Anti-static Liners
- Nylon Liners
- HDPE Liners / MDPE Liners

Barentz Distribution India Pvt. Ltd.

Contact Person: Ms. Kavita Morajkar, Asst Manager
Address: D-801/ 802, Lotus Corporate Park, Off. Western Express Highway, Goregoan (East), Mumbai-400063, Maharashtra, India
Email: kavita.morajkar@anshulindia.com

Barentz is a global provider of specialty ingredient solutions for the life sciences and performance materials sectors. We form strong partnerships with customers and principals to deliver high-quality ingredients, technical expertise in ingredient selection application and tailored services.

BDIPL's products offering include the following:

High quality excipients, APIs, intermediates along with Personal Care and Nutraceuticals, Performance chemicals.

Intermediates including Acid Chlorides, Oxalyl Chloride, Methyl Oxalyl Chloride, Chloroacetyldehyde dimethyl acetal, Anthranilamide, 5 Chloroemethyl anthranilate, Anthranilates, Isatoic Anhydride and other Specialty Chemicals.

Under new product category, intermediates of Febuxostat, Sitagliptin, Teneligliptin, Citicoline, Tizanidine, Olopatadine, Diacerein & Lornoxicam.

Surfactants, Adjuvants and Specialty Lignin Chemicals for Agrochemical Formulations.

High quality excipients including Tablet Binders, Disintegrants, Diluents, Solubilizers, Lactoses, MCC,

CCS grades, HPMC, HEC, Ethyl Cellulose, Sodium CMC, PVA, PEO, Effer Soda, Mannitol, Sorbitol grades, Starches etc.

Flavor and Fragrance chemicals including Methyl Anthranilate, Dimethyl Anthranilate, Ethyl Anthranilate, Other Anthranilates, WS3, WS5, WS23, WS11, Coolent Complex, and other Ingredients.

Fine fragrances for Household products and Personal Care.

Specialty Ingredients and Actives for Personal Care Products.

Functional ingredients including Vitamin E, Betacarotene, Xanthan Gum grades, Sucralose, Maltitol grades for Food and Nutra applications.

More than 90 professionals meet customer needs. Three well equipped Application laboratories provide solutions in areas of Pharmaceuticals, Personal care and Food & Nutraceuticals. BDIPL is associated with leaders like Ingevity, Arxada, Momentive, Ashland, Mingtai, Mitsubishi, Mibelle, Kobo, Kahl Wax and other leading suppliers.

BDIPL wishes to explore alliances and collaborations in terms of product distribution, product development, analytical development and contract manufacturing.

The Birla Institute of Technology & Science (BITS), Pilani is India's premier Institution of Eminence, functioning as a high-velocity engine for human capital and technological IP. Across campuses in Pilani, Goa, Hyderabad, Dubai, and Mumbai, BITS bridges the gap between academic rigor and large-scale industrial application through a unique value proposition:

1. **Pre-Vetted Talent Pipeline:** Driven by a **merit-only admission policy** (no quotas), BITS ensures an elite student body. The **Practice School (PS)** program mandates a **7.5-month industry residency**, providing a frictionless, long-term recruitment funnel for your organization to integrate top-tier talent before graduation.
2. **High-Impact R&D:** With over **450 crore in active research funding** and a top-20 national ranking for research output, BITS is a powerhouse for **applied R&D**. Specialized centers, such as the **Goa Hydrogen Valley Innovation Cluster**, offer industry owners opportunities for contract research, sponsored PhDs, and technology transfers.
3. **Corporate Upskilling (WILP):** BITS partners with over **1,100 corporate entities** to upskill workforces via **Work Integrated Learning Programmes**. Employees earn B.Tech, M.Tech, or MBA degrees while on the job, directly applying new competencies to business challenges.
4. **The "Unicorn" Ecosystem:** Ranked top-10 globally for producing VC-funded founders, the BITS network has generated **900+ startups and 17+ unicorns**. This provides partners access to a vibrant innovation ecosystem through incubators like **BioNEST** and **PIEDS**.

BITS Pilani is a **strategic ally** for industries navigating the 21st-century economy.

Ceracoats

Contact Person: Mr. Jigar Patel, Marketing Manager
Address: Block No : 833, Rajnagar Road, Khadol, Anand-388350, Gujarat, India
Email: mkt@ceracoats.net
Website: <https://www.ceracoats.net/>

Mission:

To provide the pharmaceutical and chemical industries with **technologically advanced glass-lined equipment** that meet quality, safety, cleanability, and energy efficiency expectations.

Vision:

To be the **preferred choice** for customers seeking tailor-made glass-lined solutions with excellent quality, safety, and competitive delivery schedules.

Values:

Ceracoats prioritizes simplicity, clarity, and quality in its operations and brand presence, aiming to deliver reliability and loyalty through its products and services.

6B20**Champions Filters & Innovation Pvt. Ltd.**

Contact Person: Mr. Deep

Address: Unit No 13, MLK 3 Industrial Estate, Vasai (East), Palghar-401208, Maharashtra, India

Email: info.championfilters@gmail.comWebsite: <http://championfilters.in/>

Champions Filters & Innovation Pvt. Ltd. is a leading Indian manufacturer and solution provider in the field of process filtration equipment. Established in 1985, the company has built a strong reputation for delivering reliable, efficient, and application-specific filtration solutions to a wide range of industries including pharmaceutical, chemical, API, agrochemical, food, and specialty chemical sectors.

With decades of engineering experience, Champions Filters specializes in the design and manufacture of high-quality filtration systems such as Sparkler filters, candle filters, nutsche filters, pressure leaf filters, bag filters, cartridge filters, strainers, and customized filtration assemblies. The company combines robust mechanical design with in-depth process understanding to ensure consistent performance, long service life, and compliance with stringent industry standards.

Innovation and continuous improvement are at the core of Champions Filters' philosophy. The company focuses on optimizing filtration efficiency, ease of maintenance, and operational safety while offering customized solutions tailored to specific client requirements. A strong emphasis on quality control, material traceability, and precision manufacturing enables Champions Filters to meet demanding process conditions.

Driven by customer satisfaction, technical expertise, and ethical business practices, Champions Filters & Innovation Pvt. Ltd. continues to be a trusted partner for process industries seeking dependable and cost-effective filtration solutions.

Solutions offered by us are as follows:

- **Reactors:**

SS & alloy vessels with agitators suitable for process requirement.

- **Grinding & Milling:**

Ball Mills, Bead Mills, Air Classifying Mills, Air Jet Mills,
Air Classification Systems

- **Blending & Mixing:**

Ribbon Blenders, Pneumatic Blenders, Nauta Mixers,
High Speed Dispersers, Multi shaft dispersers

- **Drying:**

Spin Flash Dryers, Rotary Vacuum Paddle Dryers,
Rotary Cone Vacuum Dryers, Rotary Drum Dryers /
Rotary Kilns, Spray Dryer.

- **Bulk Material Handling:**

Storage Silos with Pneumatic Conveying Systems
(Lean phase / Semi Dense Phase / Dense Phase)

- **Turn-Key Plant Solutions:**

GCS Plant, SC Plant, WDG Plant, Resin Plant,
Pigment Plant, Paint Plant, Ink Plant, etc.

Chemi Care is a leading importer and distributor of specialty chemicals, backed by over three decades of industry experience. The company's continuously expanding marketing and sourcing teams specialize in the import, domestic supply, and export of a wide range of petrochemicals and waxes. Its product portfolio includes surfactants, monomers, ethyleneamines, ethanolamines, oleochemicals, paraffin waxes,

microcrystalline waxes, polyvinyl alcohols, and several other value-added chemical products.

Over the years, Chemi Care has successfully served a broad spectrum of industries, including textiles and auxiliaries, pharmaceuticals, personal care, packaging, paper, and allied sectors. This diverse customer base reflects the company's strong technical understanding, consistent quality standards, and ability to meet varied application requirements across industries.

Chemi Care has evolved steadily with changing market dynamics by leveraging strong global partnerships, robust sourcing networks, and advanced research and development tools. These capabilities enable the company to provide reliable technical support, consistent product quality, and efficient supply chain solutions, ensuring timely deliveries and dependable service standards for its customers.

Today, Chemi Care operates through offices and stock points strategically located in Mumbai, Ahmedabad, Chennai, and Rajkot. Its experienced team possesses in-depth knowledge of local market conditions while remaining closely aligned with international trends and developments in the global chemical industry. This combination of local expertise and global perspective allows Chemi Care to deliver tailored solutions, build long-term partnerships, and maintain its reputation as a trusted and customer-focused chemical solutions provider. The organization remains committed to ethical practices, sustainability, continuous improvement, and creating long-term value for stakeholders globally.

CHINA JIANGSU INTERNATIONAL GROUP(CJI GROUP)

CHINA JIANGSU INTERNATIONAL ECONOMIC AND TECHNICAL COOPERATION GROUP LTD (referred to as CJI GROUP) was founded in December 1980 with the approval of the State Council, establishing itself as a major state-owned enterprise in Jiangsu Province, China. The group boasts a registered capital of 3 billion yuan and an annual revenue approaching 3 billion US dollars, with a presence spanning over forty subsidiaries worldwide.

CHINA JIANGSU INTERNATIONAL CHEMICAL CO., LTD (CJIC)

Established in 1995 as the CJI GROUP chemical Import and Export Branch the company underwent a significant transformation in August 2021. rebranding itself as China Jiangsu International Chemical CO., Ltd (referred to as CJIC). As a fully-owned subsidiary of China Jiangsu International Group, its primary focus lies in global international resource development and supply, spanning various sectors such as fine chemicals, agricultural chemicals, and basic chemicals.

Core product portfolio covers a wide range of fine and bulk chemicals, including petrochemical derivatives, solvents, alcohols, acids, amines, anhydrides, resin intermediates, and specialty additives. It includes representative products such as Dicyclopentadiene (DCPD), C5/C9 petroleum resins, salicylic acid and methyl salicylate, DMSO, Acetophenone, TIPA, DEIPA, THF, 1,4-butanediol, ethylene glycol derivatives, organic

acids, alkoxides, carbonate solvents, amines, and key intermediates for pharmaceuticals, agrochemicals, coatings, and polymer industries.

We also supply a broad portfolio of performance chemicals and specialty materials supporting downstream applications in resins, adhesives, pharmaceuticals, agrochemicals, and advanced materials.

Chongqing Chevalier Chemical Technology Co., Ltd. (hereinafter referred to as CVL) was founded in 2016. It is a technology-oriented enterprise engaged in process technology and engineering construction services within the fine chemicals sector.

The company provides a comprehensive array of services:

- Process Package Design & Transfer
- Plant Commissioning & Start-up Assistance
- Key Equipment Design & Supply
- Speciality Chemicals R&D & Production

Core Expertise: HCN & Derivatives, DL-Methionine & Derivatives, Sulfur Chemical, Phosphorus Chemical

Our team brings together R&D scientists, process engineers, project managers, and veteran production experts. This blend of skills enables us to deliver full-scope services, from product planning to plant commissioning.

Key Achievements:

- 200+ patents · 100+ products industrialized
- 10-40 years team experience
- Global projects in India, Iran, Uzbekistan, Russia & more
- National May Day Labor Medal winner

We collaborate with global partners to deliver efficient, integrated chemical solutions.

Clariant IGL Specialty Chemicals Pvt. Ltd.

Contact Person: Ms. Melrina Mascarenhas
Address: 9th Floor, Reliable Tech Park, Gut No. 31,
Village Elthan, Off Thane - Belapur Road, Airoli, Navi
Mumbai-400708, Maharashtra, India
Email: melrina.mascarenhas@clariant.com
Website: <https://www.clariant.com/en/Corporate>

Clariant IGL Specialty Chemicals Private Limited (CISC), a joint venture between Clariant and India Glycols Limited, is a leading manufacturer of green-technology based chemicals. The company has a multipurpose production facility including an alkoxylation plant based on renewable bio-ethylene oxide, located in Kashipur, Uttarakhand (India).

CISC is a leading supplier of green ethylene oxide derivatives in India with a focus on renewable solutions catering to the rapidly growing specialty chemicals market in India, Bangladesh, Sri Lanka, and Nepal. Besides ethoxylates, the product profile covers a wide gamut including Biocides, Surfactants, pH Stabilizers, Defoamers, Emulsifiers, Wetting agents, Dispersing agents, Emollients, Rheology-modifiers, Humectants and Specialty Solvents.

In alignment with our purpose statement of "Greater Chemistry – between people and planet", we are committed to providing our customer base with more innovative, sustainable and tailor-made solutions that would enhance customer satisfaction. Our VITA range of surfactants and PEGs are 100% bio-based, carbon-reducing, fully segregated with RCI (Renewable Carbon Index) of >95%. This will support our customers reduce their carbon footprint and Scope 3 emissions while delivering the same performance as fossil-based versions.

Our R&D and technical application facilities supported by Clariant's global expertise along with the benefit of local manufacturing make CISC a preferred partner for various industries including Coatings, Industrial Lubricants, Crop, Textile, Construction, Pharma, Personal Care and Home Care. With our labs situated at Kashipur and Navi Mumbai and the plant located at Kashipur we are strategically located to be closer to our customers and deliver quicker and enhanced service.

Connect Chemicals is a global producer, custom manufacturer, and traditional distributor of a wide range of specialty chemicals. Established in 1998, with headquarters in Ratingen, Germany, offices on four continents, and an international network of partners, we offer global coverage, serving both local and multinational organizations.

Connect Chemicals India was established in 2004 with its headquarters in Mumbai. It acts as a vital link between Connect Chemicals Group and the ever-growing network of specialty chemical producers and customers in India.

To meet the ever-changing trends in the chemical industry, Connect Chemicals has evolved into a unique hybrid company. To catalyse this change, we have developed a Modular Custom Manufacturing process. Our own resources are augmented by external cutting-edge technology to serve specific customer requirements. From R&D, process development, piloting, scale-up, and commercial production, we are there every step of the way with you. Continuously and progressively, the company invests in state-of-the-art facilities, R&D labs, advanced technology, analytical capabilities, and a highly qualified technical team of experts.

Connect Chemicals also begun construction of its new research laboratory in Pune, India, our new three-story facility will significantly expand the company's R&D capabilities, featuring advanced infrastructure and technology to support customer-focused, application-driven innovation and long-term growth.

Our experienced team of chemists and scientists is led by our Indian Director & CEO, Mr. Suresh Manjrekar, and our Head of CRAMS, Dr. Siddheshwar Kshirsagar, with their leadership, **we transform your ideas into product.**

Email: sethiack3@corning.com

Website: <https://www.corning.com/in/en/about-us/company-profile/Corning-In-India.html>

Corning Advanced-Flow™ Reactors — offers a comprehensive array of reactor products tailored to accommodate the needs of a specific reaction or a broad spectrum of reactions. Intricately designed for smooth transition from lab feasibility to process development, and from industrial-scale to multi-ton production, Corning Advanced-Flow™ reactors are perfectly suited

for the pharmaceutical, specialty, and fine chemical industries, as well as agrochemicals.

Boasting over **800+ global installations and 200+ commercial reactors**, Corning AFR enhances the efficiency, scalability, yields, and quality of chemical processing. Simultaneously, it significantly reduces environmental impact, performance variability, and cost.

In addition, we are delighted to now offer a **technology transfer for commercial production using Continuous Manufacturing** with our **Corning Advanced-flow reactor technology** for critical pharma and specialty chemical Key Starting Materials (KSMs) & active ingredients. Some of our standout molecules include **TriEthyl Phosphite (TEPI)**, **TriMethyl Phosphite (TMPI)**, **Pendimethalin**, **Di-Nitro Benzene (DNB)**, **Ethyl Hexyl Nitrate (EHN)**, **Nitrosourea**, **Methyldiethoxyphosphine**, **Empagliflozin**, etc.

A seamless scaleup from lab to production makes our technology unique, and the versatility of Corning AFR in handling a diverse set of reactions - from Liquid-Liquid, Gas-Liquid, Gas-Liquid-Solid to Photochemical applications - makes it a highly modular and favored reactor choice for CDMO businesses. Its design facilitates swift process development and enables an immediate transition from lab-scale to multi-ton production.

Cosmo Chemistry is a **Government of India-recognized Star Export House**, specializing in the international trading and export of **industrial and specialty chemicals**. We cater exclusively to **global markets**, supplying reliable, compliant, and high-quality chemical products to customers across multiple industries worldwide.

With a strong global sourcing network and deep expertise in export regulations, documentation, and logistics, Cosmo Chemistry ensures seamless cross-border transactions and dependable delivery schedules. Our business philosophy is built on long-term partnerships, transparency, and consistency in quality.

Core Strengths

- Government-recognized **Star Export House**
- Export-focused chemical trading & sourcing

- Compliance with international standards (COA, MSDS, regulatory documentation)
- Flexible packing & shipment options (FCL, bulk, flexi, drums, bags)
- Strong command over international logistics & banking procedures

Industry Applications

- Water treatment & disinfection
- Industrial processing chemicals
- Mining & mineral processing
- Textiles & dyeing auxiliaries
- Polymers, plastics & coatings

At **ChemExpo India 2026**, Cosmo Chemistry showcases its capabilities in **global chemical exports, customized supply solutions, and reliable international trade execution**.

Visit us at Hall 4, Stall 4D03 to explore long-term sourcing partnerships for global markets.

Crescent Organics Pvt Ltd, incorporated in February 1991, is engaged in international indenting, trading, and distribution of chemicals and allied products. Since inception, the company has focused on market development for its principals, expansion of its product portfolio, and strengthening its import, export, and indenting operations in line with evolving industry requirements.

Crescent serves a wide range of Indian industries, including paints and coatings, printing inks, agrochemicals, adhesives, fragrances, pharmaceuticals, laminates, speciality chemicals, and other intermediates. Crescent's extensive marketing network spans major industrial centres such as Mumbai, Delhi, Vadodara, Ahmedabad, Daman, Hyderabad, and Chennai, providing direct access to key end users nationwide.

Crescent handles approximately half a million tons of bulk and packed products annually, supported by robust bulk storage facilities and well-equipped warehousing infrastructure. These capabilities ensure efficient handling, safe storage, and timely distribution of products across domestic and international markets. Leveraging strong relationships across the chemical, petrochemical, and polymer industries, the company has expanded its operations into export markets to Western and Middle East countries.

In addition to its core trading, distribution, and indenting activities, Crescent provides a comprehensive range of value-added services such as shore tank storage at terminal ports, customs clearance, cargo surveys, and customised logistics and delivery solutions. Transparent business practices and strong ethical standards underpin the company's commitment to reliability, security, and customer satisfaction.

With over 35 years of industry experience, Crescent has established a strong and reputable presence in the chemical and polymer trading and distribution sector and remains committed to sustained growth.

DCM Shriram Chemicals: Delivering Sustainable Solutions

With a **legacy of over 135 years**, DCM Shriram Ltd. is a leading force in India's industrial growth. With a **turnover of INR 12,741 crore**, the Group operates a diversified portfolio across Chemicals, Agri-Rural Businesses, and Value-Added Ventures. The Chemicals business anchors the Group's operations, supported by strong Agri-Rural segments including Fertilizers, Sugar, Farm Inputs, and Hybrid Seeds, while Value-Added Ventures such as Fenesta deliver advanced solutions for construction and lifestyle applications.

DCM Shriram Chemicals is **India's second-largest Caustic Soda manufacturer** and a leading chemical producer, operating state-of-the-art facilities in Bharuch

and Kota. The company offers an integrated portfolio of **essential and specialty chemicals**, including Caustic Soda, Chlorine, Hydrogen, Hydrochloric Acid, Stable Bleaching Powder, Hydrogen Peroxide, Epichlorohydrin (ECH), and Epoxy. These products serve critical industries such as oil and gas, textiles, alumina, agrochemicals, dyes, and inorganic chemicals.

The Bharuch facility is the **largest single-location** chemical manufacturing site in India, supporting a total annual Caustic Soda production capacity of **1 million metric tonnes**. This scale enables the company to meet large and diverse industrial demand with consistency and reliability.

As part of its growth journey, DCM Shriram Chemicals continues to strengthen India's position as a global chemical manufacturing hub. **Sustainability remains integral** to this vision, supported by Responsible Care Certification, ISCC Plus Certification, and a Bronze Medal from EcoVadis.

The focus remains on building a greener, more resilient world, ensuring that its growth contributes positively to both society and the planet.

Deccan Cans & Printers Pvt. Ltd

Contact Person: Ms. Tasneem Doriwala, Business Development Manager
Address: No.154, 1st Floor, Adarsh Industrial Estate, Sahar Road, Andheri (East), Landmark: Next to Chakala Cigarette Factory, Mumbai-400099, Maharashtra, India
Email: tasneemdoriwala@deccancans.com
Website: <https://deccancans.com/>

Deccan Group is a renowned manufacturing company headquartered in Mumbai, India, with a workforce of over 500 employees and exports spanning 38 countries. The company is ISO 9001:2015 certified and actively participates in the EcoVadis sustainability program, reflecting its commitment to quality and responsible business practices.

Founded in 1967 by Mr. Mansoor Chunawalla, Deccan Group began as a small tin can manufacturing unit in a 100 square feet workshop, where cans were handcrafted. Over the decades, the company has grown into one of the largest players in the industry, with a production capacity exceeding 200,000 tins per day. Equipped with high-end manufacturing lines, a fully functional quality control laboratory, and an in-house design team, Deccan Group delivers customized solutions across diverse industries.

The company's state-of-the-art manufacturing facility in Daman spans 5.5 acres, with over 200,000 square feet

of well-designed workspace. Advanced machinery and streamlined processes ensure consistent efficiency and superior product quality.

In 2008, Deccan Group diversified into FIBC (Flexible Intermediate Bulk Containers) and jumbo bag manufacturing. With modern tape plants and looms from Lohia Starlinger, automated cutting systems, and skilled stitching operations, the company maintains stringent quality standards. Its advanced QC lab is equipped with UV testing, tensile testing, and cyclic load testing facilities.

Driven by innovation, technical expertise, and a skilled workforce, Deccan Group continues to deliver high-quality, reliable solutions, strengthening its position as a trusted global manufacturing partner.

Deepak Fertilisers and Petrochemicals Corporation Ltd. (DFPCL) is among India's leading producers of fertilizers and industrial chemicals. Set up in 1979 as an Ammonia manufacturer, DFPCL today is a publicly listed, multi-product Indian conglomerate with an annual turnover of over one billion USD with a product portfolio spanning industrial chemicals, bulk and specialty fertilisers, farming diagnostics and solutions, technical ammonium nitrate and value-added real estate. The Company has manufacturing facilities in Taloja, Srikakulam, Panipat, and Dahej. In Industrial chemicals, DFPCL is the leading producer of Isopropyl Alcohol (IPA), Nitric Acid, food grade Liquid CO₂ and Methanol. DFPCL is one of the leading manufacturer and supplier of IPA in India with an installed capacity of 70,000 MTPA. The product meets international quality standards for use in pharmaceuticals, coatings and inks, specialty chemicals and cosmetics. For critical applications in the pharma sector, DFPCL offers IPA conforming to stringent standards such as IP, BP, Chinese Pharmacopeia USP to name a few. In Nitric Acid, DFPCL is the largest manufacturer in Southeast Asia. It manufactures three grades of nitric acid including DNA, SNA, and CNA. Our brand PUROSOLV is a one stop for certified Pharmacopeia solvents and under this umbrella brand we have expanded our solvent offering from IPA to Methanol, Acetone and MDC and will shortly be launching more certified solvents. DFPCL has also developed solar grade nitric acid (SGNA), Electronic

Grade IPA (ELIPA) and PICKBRITE for solar cell, electronic and steel industry application respectively.

Started with a modest manufacturing unit as “**Dhruv Chem Industries**” in the year 1995 with a vision to be a pioneer in the field of Bromine derivatives. Today we have become a leading ISO Certified manufacturer of Bromine & Chlorine Derivatives, Intermediates & Fine Chemicals for APIs, agrochemical, Cosmetic Industries.

With having robust experience of more than 27 years in the field of manufacturing of Bromine & Chlorine Derivatives we have grown as a group of companies over the period by establishing new units as per the need of time.

Our group companies leverage our robust R&D and technical expertise and stringent quality norms, advances our position as a premier manufacturer and supplier in our segment for both domestic and international market, with more than 50+ products to offer including the range of Bromo Alkanes, Aliphatic Bromides, Aromatic Bromides, Inorganic Bromides and Bromo Chloro Alkanes.

Diamines and Chemicals Ltd.

Contact Person: Mr. Tanmay Godiawala, General Manager
Address: Plot No.13, P.C.C. Area, Vadodara-391346, Gujarat, India
Email: tanmay@s-amit.com
Website: <https://dacl.co.in/>

Diamines and Chemicals Ltd. (DACL) is an Indian specialty chemical manufacturer, established in 1976 in Vadodara, India, known as the sole domestic producer of Ethyleneamines for decades, utilizing indigenous technology for products like Piperazine, Ethylenediamine, and Triethylenediamine, serving pharmaceutical, agrochemical, and water treatment industries. The company focuses on R&D, sustainability (wind power), and innovation, expanding its offerings to provide chemical solutions and maintaining leadership in its niche segments.

Company Overview

- **Name:** Diamines and Chemicals Ltd. (DACL).
- **Founded:** 1976, production started in 1982.
- **Location:** Vadodara, Gujarat, India.
- **Industry:** Specialty Chemicals, Organic Compounds.
- **Key Strength:** Proprietary technology for Ethyleneamines, unique in India.

Products & Applications

- **Main Products:** Ethyleneamines (Ethylenediamine, Diethylenetriamine), Piperazine Anhydrous, Piperazine Solutions, Triethylenediamine (TEDA).
- **Applications:** Pharmaceuticals (APIs), Agrochemicals, Resins, Water Treatment, Petroleum Production, Polymers.

Key Features

- **Innovation:** Focuses on R&D, technological solutions, and developing sustainable chemical processes.

- **Market Position:** Sole manufacturer of Ethyleneamines in India for many years, a key supplier for Piperazine.
- **Sustainability:** Utilizes captive wind power for energy needs, reducing its carbon footprint.
- **Certifications:** ISO 9001, ISO 14001, ISO 45001 certified.

Business Focus

- Sustaining market leadership in existing segments.
- Providing specialized chemical solutions and supply chain services.

In essence, DACL is a specialized chemical producer known for its unique position in the Indian market for ethyleneamines, driven by indigenous technology and a commitment to innovation and serving diverse industrial needs.

Dinakara Life Sciences Pvt. Ltd

Contact Person: Ms. Vani
Address: 706, Manjeera Trinity Corporate,
Hyderabad-500072, Telangana, India
Email: vani@virujpharma.com

Viruj Pharma was established in 2014, and initially, we collaborated with a third-party manufacturer to produce specific molecules selected by Viruj. Viruj Pharma is the authorized marketing partner of these specified molecules, but our partner does not sell our products directly.

In 2020, we started a new R&D lab where we developed our products. Our development process includes quantification, analytical validation, and transfer to our partner sites across Hyderabad and Andhra Pradesh. Although the product belongs to us, we chose the site based on the process chemistry involved in the project. Our experienced R&D team is well-equipped to handle a wide range of chemical reactions and develop the most complex APIs. Our manufacturing capabilities range from gram-level to multi-ton lots.

We have recently acquired Dinakara Life Sciences Private Limited in addition to Viruj Group. This company operates from an existing API and Intermediates manufacturing facility and is wholly owned by the Viruj Group. I hope this provides you with a better understanding of our company and operations.

Distil India

Contact Person: Mr. Raghunath V Iyer, Vice President
Address: 5th Floor, Quest Co-Works, Technopolis,
Andheri (East), Mumbai-400093, Maharashtra, India
Email: raghu@distil.market

Distil is a Mumbai-based, global speciality chemicals company focused on personal care, masterbatches & compounds and flavours & fragrances.

We are an R&D-first company that develops deep expertise in chosen areas and we create customer value by seamless integration of manufacturing, supply-chain and compliance.

We also develop custom synthesis organic chemicals for the above segments at our R&D centre in Navi Mumbai.

Portfolio snapshot:

1. Personal care: inorganic UV filter chemicals, SPF boosters, emollients, emulsifiers, silicone alternatives, natural esters
2. Masterbatches and compounds across all sectors and emerging products such as PFAS-free Polymer Processing Aids (PPAs)
3. Aroma chemicals: wide range of aroma chemicals for food, flavours and fragrance applications

A Portable Hot & Cold Storage Company – DivineCooling.com

Divine Cooling Solutions India Pvt. Ltd. (DCSIPL) brings over **35+ years of expertise** in portable hot & cold storage solutions, delivering reliable temperature-controlled systems ranging from **-70°C to +100°C**.

With a strong **pan-India presence**, we cater to the stringent storage requirements of the **chemical, pharmaceutical, and specialty industries**, supporting critical temperature ranges such as **2-8°C, 15-25°C, -20°C**, and other customized setpoints. Our solutions are designed to ensure product stability, regulatory compliance, and operational continuity.

Our Product Range Includes:

- Cold Room Containers
- Hot Containers (Incubation Chambers)
- Portable Cold Storage Units
- Portable RH-Controlled Storage
- Heating Containers
- Customized Thermal Storage Solutions

With rapid mobilization capability, and decades of engineering expertise, DCSIPL supports:

- Plant shutdown & turnaround storage
- Bulk chemical inventory storage
- Seasonal storage requirement
- Project-based & emergency storage requirements
- Controlled RH storage applications
- Saving civil construction cost & time

At DCSIPL, we combine engineering excellence with practical industry understanding to provide dependable, energy-efficient, and scalable storage solutions tailored to client needs.

Website: <https://www.dmcc.com/>

Driving Chemistry. Delivering Excellence.

With over 100 years of legacy, DMCC is a leading Indian manufacturer of speciality chemicals, boasting deep expertise in sulphur and boron-based chemistry at Roha & Dahej locations. Our core portfolio includes Sulphuric Acid, Oleum (all grades), Benzene Sulphonyl Chloride, Di-ethyl Sulphate, Sodium Vinyl Sulphonate, Boron chemicals, & other speciality sulphur derivatives serving diverse industrial sectors.

Over the decades, DMCC has evolved into an integrated chemical solutions provider, combining strong manufacturing capabilities with advanced research, engineering excellence, & sustainable operations proving as one of the pioneer's in commercial & innovative manufacturing in sulfur & boron speciality products serving as key material in Polyacrylamide (Water treatment), Nickel electroplating brightener & Foundry No Bake furan resin

Research & Technical Strength

Innovation drives our growth. Our DSIR-recognised R&D centre at Roha, Maharashtra, is equipped with advanced laboratories & pilot plant facilities to support process development, product customisation, & continuous improvement.

DMCC is certified to:

- Ø ISO 9001:2015 (Quality Management)
- Ø ISO 14001:2015 (Environmental Management)
- Ø ISO 45001:2018 (Occupational Health & Safety)
- Ø Responsible Care

Global Presence

DMCC exports to over 25 countries across six continents, reinforcing India's position in the global speciality chemicals market.

Sustainability – Our Strongest Formula

Ø Waste heat recovery systems reducing fossil fuel consumption
Ø ~2.49 MW solar power installation
Ø 1.6 MW in-house power generation through high-efficiency steam turbine
Ø Effluent Treatment Plant supporting water recycling and zero liquid discharge goals

Dravya Oleo

Contact Person: Mr. Krunal M
Address: W-45, MIDC, Phase II, Dombivili (East)-
421203, Maharashtra, India
Email: dravyaoleo@gmail.com
Website: <https://dravyaoleo.com/>

Dravya Oleo is a emerging provider of sustainable solutions for hazardous waste management, specializing in the recovery of valuable metals from spent nickel catalysts generated by the pharmaceutical, chemical, and petrochemical industries. Our advanced recycling processes transform what is traditionally considered hazardous waste into a profitable and environmentally responsible resource, supporting your compliance with strict environmental regulations while maximising resource recovery

Sustainable Nickel Recovery

Spent nickel catalysts, classified as hazardous waste due to toxic residues, pose significant risks if not managed properly. At Dravya Oleo, we employ state-of-the-art recovery techniques to extract high-purity nickel from these catalysts, reducing landfill disposal and minimizing environmental impact. Our closed-loop recycling approach ensures low carbon emissions and high resource efficiency, aligning with global sustainability goals

Industry Benefits

By partnering with Dravya Oleo, industries can achieve zero-waste targets, reduce operational costs, and contribute to a circular economy. Our solutions are tailored to the specific needs of pharma, chemical, and petrochemical sectors, ensuring regulatory compliance and hassle-free waste management. We offer comprehensive services, from waste collection to metal recovery and documentation support, making the transition to sustainable practices seamless and profitable.

Dravya Oleo is committed to turning hazardous waste into valuable resources—responsibly, efficiently, and sustainably.

We are one of India's leading stockists and suppliers of Duplex 2205 (UNS S32205 / S31803) plates, catering to a wide range of chemical equipment manufacturers

across the country. Our duplex stainless steel plates are widely used in the manufacturing of duplex strainers, distillation columns and trays, water treatment equipment, heat exchangers, pressure vessels, and other critical process equipment. We offer high-quality plates at competitive and reasonable prices, ensuring complete customer satisfaction. All our materials are supplied with authentic mill test certificates, guaranteeing quality, traceability, and compliance with international standards. We also provide value-added services such as cutting plates according to customer-specific sizes, shapes, and drawings.

Our organization specializes in offering a comprehensive range of super duplex steel, duplex stainless steel, and duplex steel products. Our product portfolio includes duplex steel pipes and tubes, duplex stainless steel pipes, butt weld fittings, socket weld fittings, flanges, fasteners, and round bars. In addition, we supply alloy steel pipes, forged fittings, stainless steel 309 and 310 grade products, Inconel, nickel alloys, and Hastelloy products. All our products conform to international quality standards and are known for their dimensional accuracy, high tensile strength, corrosion resistance, and long-term durability. With a strong commitment to quality and timely delivery, we aim to build long-lasting relationships with our valued customers.

Eastmen Chemicals has been a trusted manufacturer and exporter of **high-purity metallic salts** since 1971 market leader in India. With over five decades of expertise, we have earned a strong reputation for **consistent quality, technical excellence, and reliable supply** across domestic and international markets. Our operations are certified to **ISO 9001, 14001, 45001**, reflecting our commitment to quality management, environmental responsibility, and occupational health & safety. Also we recently cleared **GMP audit by SGS** for Chemical manufacturing.

Our comprehensive product portfolio covers a wide range of **Cobalt, Nickel, Copper, Manganese, Zinc, and Iron salts**, designed to meet stringent industrial and regulatory requirements.

Cobalt

Cobalt Acetate, Cobalt Nitrate/Solution, Cobalt Carbonate, Cobalt Oxide, Cobalt Sulphate

Nickel

Nickel Acetate, Nickel Nitrate/Solution, Nickel Carbonate, Nickel Oxide, Nickel Sulphate, Nickel Sulphamate Sol, Nickel Ammonium Sulphate

Copper

Copper Acetate, Copper Carbonate, Copper Nitrate, Copper Sulphate

Manganese

Manganese Carbonate, Manganese Acetate

Zinc

Zinc Acetate, Zinc Carbonate, Zinc Sulphate, Zinc Oxide

Iron

Ferric Nitrate, Ferric Sulphate

Our products serve diverse industries including **animal feed, catalysts, ceramics, surface treatment, metal finishing, batteries, electronics, petrochemicals, catalysts**. Eastmen Chemicals operates manufacturing facilities in **Tarapur**, corporate headquarters in **Mumbai, India**. Our global footprint spans **25+ countries** across Europe, Asia, Africa, and North America, supported by **REACH registration for Nickel, Cobalt, and Zinc products**, strong regulatory compliance, and a robust **R&D capability** for customized, application-specific solutions.

Driven by innovation, compliance, and sustainability, Eastmen Chemicals is a reliable partner for global industry.

Address: 12 F, Huayin Mansion, No.5, Donghai West Road, Qingdao-266071, Shandong, China

Email: annie@echemi.com

Website: <https://www.echemi.com/>

ECHEMI -- The name is originated from the abbreviation of "E-commerce of chemical". ECHEMI is a chemical supply chain service company headquartered in Hong Kong, providing chemical raw materials supply, research and analysis, marketing, distribution, logistics and E-commerce.

www.echemi.com is officially launched in October 2015 with the goal of providing better products and services. ECHEMI is the professional digital cross-border chemical B2B platform, aiming at helping our platform buyers analyze the market and purchase high quality chemicals, and in the meanwhile, assisting platform suppliers to promote their superior products. ECHEMI provides e-commerce services such as Market Price & Insight, Encyclopedia, Full Category Supplier Database, Supplier VIP Services, Local Mall, News, Exhibition, Trade Data, Platform Inquiry, etc.

Echemi.com is offering decent services and products to more than 23,000 suppliers and more than 120,000 international buyers.

Chemical product ranges on the platform mainly cover from pharmaceutical intermediates, API, food additives,

dyes and pigments, chemical pesticides, surfactant, flavors and fragrances, chemical reagents, catalyst and auxiliary, natural products, inorganic chemistry, organic chemistry, biochemical engineering, analytical chemistry.

E-CON PACKAGING PVT LTD, is one of the India's Large manufacturer of Steel drums and HMHDPE drums with the highest through put plant. Our state of Tech plant, strategically located in Silvassa near Mumbai reflect our commitment to precision, automation and excellence. These technologically advanced facilities have been meticulously designed and commissioned with finest detailing to ensure world class quality and efficiency. Our operations are virtually free from manual intervention ensuring consistency, safety and speed.

Our steel drum line is capable of producing over 8000 barrels per day catering to wide range of specifications, finishes and application. E-Con has carved out

significant Market Share in a highly competitive and mature industry, setting benchmarks in both quality and innovation. We continue to transform customer experiences through cutting -edge technology and superior packaging solutions. Our inhouse Technology and product development center relentlessly drives innovation designing new products and enhancing packaging to meet the evolving needs of our clients.

E-CON First's In India

1. First to commission a fully Automated plant in the country.
2. First pretreat all components before the assembly for every type of the drum
3. First to introduce triple seam profile
4. First to introduce Goose Neck/Necked in open top drums
5. first to introduce fully automatic welding machine
6. First to Introduce " W Bead" drums
7. First to get ISO 9000 QMS certification in the drum industry
8. First to introduce pure stoving paints for barrel

Elchemy International

Contact Person: Mr. Ankit Singh, Sales and Strategy Lead
Address: Bizinbiz Technologies Private Limited, 3rd Floor, Donear House, Plot No. A-50, Road No. 1, MIDC, Andheri (East), Mumbai-400093, Maharashtra, India
Email: ankit.singh@elchemy.com
Website: <https://www.elchemy.com/>

Elchemy, a brand of **BizinBiz Technologies Pvt Ltd**, was founded during the peak of the global COVID-19 pandemic, when chemical supply chains were facing unprecedented disruption. This period exposed a critical industry risk, over-reliance on single-source raw material suppliers. As volatility continues across global markets, chemical manufacturers and distributors are actively seeking resilient, diversified sourcing models. Elchemy was built precisely to solve this challenge.

We help manufacturers/distributors **diversify and secure their supply chains** by developing new, reliable sources of supply. In a short span of time, we have partnered with **hundreds of small and medium-scale chemical manufacturers across India**, aggregating demand to unlock **economies of scale** that were previously inaccessible to individual

customers. Our ecosystem provides access to **25+ contract manufacturing sites, R&D facilities, and specialized laboratories**, enabling execution of complex, hazardous, and high-value chemical reactions.

Reliability is our north-star metric. We take complete end-to-end ownership of quality and delivery performance. Through our network of **NABL-accredited laboratories**, every product undergoes stringent quality control before dispatch, ensuring consistent quality and complete satisfaction.

Our team of experienced chemists and chemical engineers trained in organizations that have served global leaders such as **BASF, Cargill, and Reliance** combines deep technical expertise with strong supplier relationships to deliver an exceptional sourcing experience.

Today, Elchemy has **exported chemicals to over 53 countries** and maintains a growing global presence with **offices in India and the USA**. We are your **strategic supply-chain partner** and a true extension of your procurement team.

Elkay Chemicals Pvt. Ltd. is a leading **specialty and performance silicone manufacturer** based in Pune,

India, with a strong global footprint. Established in 1990, Elkay has grown into a trusted partner for industries across the world, offering a diverse portfolio of high-performance silicone oils, resins, surfactants, functional silicones, emulsions, and advanced formulations that meet varied industrial needs.

Our products serve a broad spectrum of sectors including Paints and coatings, construction and coatings, cosmetics and personal care, pharmaceuticals, textiles, rubber and tyre, petrochemicals, agriculture and chemical processes, enhancing product performance, functionality, and sustainability.

At Elkay, innovation is at the heart of everything we do. With over 150+ high-performance silicone products and customer-centric proprietary solutions, we collaborate closely with clients to develop customized formulations that address specific performance challenges. Our advanced R&D centers and state-of-the-art manufacturing facilities, compliant with the highest EHS and sustainability standards, underscore our commitment to quality, safety, and environmental stewardship.

Driven by a mission to Enhance Lives and Redefine Possibilities through Silicone Innovations, Elkay embraces sustainability as a core value delivering cutting-edge solutions that not only elevate experiences but also contribute to a more sustainable, eco-conscious future.

We take pride in our excellence in exports, serving customers worldwide with reliable supply chains and engineered solutions that meet global standards. Our commitment to innovation, quality, custom solutions, and rapid delivery has made us a preferred partner across industries seeking advanced silicone technologies.

Epigral is India's leading integrated chemical manufacturer, leveraging the strength of integration to deliver sustainable solutions that drive industries forward and enable progress.

Over time, we have evolved from initially offering three products to providing a diverse portfolio that caters to more than 15 industries. This transformation includes a shift from dealing solely in bulk products to crafting specialized solutions.

Our

Chlor Alkali

Products:

- Caustic Soda Lye
- Caustic Soda Flakes
- Liquid Chlorine
- Hydrochloric Acid
- Hydrogen Gas
- Sodium Hypochloride
- Spent Sulfuric Acid
- Caustic Potash Lye
- Caustic Potash Flakes
- Chloromethanes
- Hydrogen Peroxide
- Epichlorohydrin
- CPVC
- Chlorotoluene Value Chain

Esteem Industries Pvt. Ltd.

Contact Person: Mr. Jayesh S. Shirodkar, General Manager Global Marketing
Address: Plot No. 76, 77, 103, 108 & 131, Pissurlem Industrial Estate, Pissurlem, North Goa-403530, Goa, India
Email: jayesh@esteemindustries.in
Website: <https://www.esteem-india.com/>

Esteem Industries is among India's leading manufacturers of surfactants and specialty chemicals. With a wide range of products and world-wide export network, Esteem serves various markets and applications. Established in 1987 in Goa, India, Esteem today has six production sites located in different parts of India. Esteem Industries focuses on providing surfactant-based solutions for industrial processes and products involving interfacial surface chemistry. In January 2016, Harco Chemicals Inc. of U.S.A. acquired a majority stake in our business.

Since then, we have been working together on various technical and commercial synergies. We cater to multiple industries such as Textiles, Leather, Personal Care, Paper, Agro, Refinery, Metal & Electroplating, Paints & Coatings, Sugar, Pharma, Perfumery, Water Treatment, and several others. We have products for various applications within each of these industry segments. Besides offering our established products, we specialize in custom manufacturing products to suit individual client requirements. We continuously strive to offer tailor-made products and system solutions to our customers. Our dedicated and versatile Research and Development laboratory is well equipped to carry out a wide range of complex processes. We also have a specialized Application Laboratory for Textile related products. Our elaborate and multi faceted manufacturing facilities allow us great flexibility in our operations, enabling our product-range and business operations to be completely customer-driven.

Website: <https://estellechemicals.com/>

Estelle a leading producer of emulsifiers and specialty surfactants in India. It is renowned for its quality and cutting edge technology for producing hi-tech emulsifiers for variety of applications.

Estelle has long-standing heritage in producing food additives and specialty surfactants. Since its foundation in 1998, the company has established a large customer base throughout India, Asia pacific, Africa and Middle East. With the state-of-the-art manufacturing facility, it complies all the food safety standards and certifications.

An FSSC 22000, ISO 9001-2015, RSPO, KOSHER AND HALAL certified company, the company offers products to meet the global standards and ideally positioned itself to offer the technical expertise and support that is required in today's challenging market.

Our product portfolio includes following products

GLYCEROL ESTERS: Glycerol Monostearate(GMS); Mono-diglycerides, Distilled Monoglycerides, Glycerol Tristearate, Glycerol Monooleate(GMO), Glycerol Trioleate(GTO), Glycerol Monolaurate(GML).Glycerol Monopalmitate

SORBITAN ESTERS: Sorbitan Monolaurate(SML), Sorbitan monopalmitate(SMP), Sorbitan

monostearate(SMS), Sorbitan Tristearate(STS), Sorbitan Monooleate(SMO), Sorbitan trioleate(STO).

POLYGLYCEROL ESTERS: Polyglycerol esters of fatty acid(PGE), Polyglycerol Polyricinoleate(PGPR)

POLYSORBATES: Polysorbate 20, Polysorbate 40, Polysorbate 60, Polysorbate 80

BAKING ADDITIVES: Sodium stearoyl Lactylate(SSL), Cake improvers viz Cake Gels, and speciality blends of emulsifiers

POLYOL ESTERS: EGMS, EGDS, DISTILLARY DEFOAMERS, PEG ESTERS, ETC

Ester India

Contact Person: Mr. Riyaaz Dhruv, Managing Partner
Address: 128/29-30 GIDC, Nandesari, Vadodara-391340, Gujarat, India
Email: riyaaz@esterindia.com
Website: <https://esterindia.com/>

Ester India was established in 1980 as a small-scale unit manufacturing fine chemicals. The first product to start with was an ester, and hence the name. Our manufactured products include three major verticals. Pharma intermediates being the first one, water treatment/Biocides, plastic and paint chemicals and most recent being cosmetic preservatives and chemicals that followed. Ester India, by virtue of its ethical business practices and excellent customer service, has earned the trust of some of the most reputed domestic and multinational companies in the pharmaceutical and cosmetic industries. We cater to the needs of many multinational and Indian companies on a regular basis and are also toll manufacturers for many MNC's.

Website: <https://europem.be/routes/>

Europem India Private Limited (EIPL) is an independent Indian engineering, technology, and EPC company specializing in industrial combustion systems, thermal oxidation, incineration, flue gas treatment, and comprehensive emission-control and waste-treatment solutions.

Registered in India in 2014 and headquartered in Navi Mumbai, EIPL serves a wide range of industries including oil & gas, refineries, petrochemicals, chemicals, fertilizers, power plants, pharmaceuticals, steel, and waste-management facilities, covering hazardous industrial waste, medical waste, and municipal waste applications.

EIPL traces its engineering legacy to Delta-EM, Belgium, established in 1998, which has executed several hundred combustion, thermal oxidation, incineration, and emission-control projects across Europe, the Middle East, Asia, and South America. This lineage has provided EIPL with strong technical foundations, proven process know-how, and exposure to complex international projects. Today, EIPL operates as a fully independent Indian organization, executing and supporting projects globally through its in-house engineering, project management, and site execution teams.

The company offers end-to-end services including feasibility studies, FEED, basic and detailed engineering, procurement, fabrication, site erection, commissioning and long-term operation & maintenance (O&M) services. EIPL's execution philosophy emphasizes safety, reliability, regulatory compliance, and lifecycle performance, supported by structured project management and strong QHSE practices.

With a focus on engineering integrity, environmental responsibility, and sustainable solutions, Europem India Private Limited aims to be a trusted partner for clients seeking dependable waste-destruction and emission-control systems in India and international markets.

Eurotainer – Global Leader in ISO Tank Container Leasing

For more than 50 years, Eurotainer has been a world leader in ISO tank container leasing, supporting the safe and efficient transport of liquids, gases, and specialty products across international supply chains. With a strong global presence spanning Europe, Asia, the Middle East, and the Americas, we serve customers in the chemical, petrochemical, food, pharmaceutical, energy, and industrial sectors.

Our fleet of over **55,000 high-quality ISO tank containers** — available in more than 150 configurations — is engineered to meet the most demanding product and regulatory requirements. From insulated and steam-heated tanks to cryogenic, gas, and UN-certified units for hazardous cargo, Eurotainer provides specialized equipment solutions designed for safety, compliance, and operational flexibility.

As a dedicated leasing company, we focus exclusively on delivering reliable, high-performance ISO tank assets tailored to our customers' transport strategies. Our experienced technical and commercial teams work closely with clients to identify the right equipment, optimize fleet utilization, and ensure full regulatory compliance across global markets. With comprehensive maintenance support, quality assurance standards, and advanced tracking capabilities, we provide the confidence and transparency businesses require.

As part of the Stroom Group, Eurotainer continuously invests in innovation, sustainability, and asset excellence to support evolving industry needs.

At Eurotainer, we deliver the equipment expertise and reliability that empower our customers to move their products with confidence.

At Excel Conveyors, simplicity is our hallmark. Since our inception in 2016, we have dedicated ourselves to crafting straightforward yet ingenious industrial conveyor solutions. As a leading Conveyor Roller and custom Conveyor Manufacturer based in Pune, India, we understand that sometimes, the most powerful automated conveyor solutions are the simplest ones.

Navigating the complexities of material handling equipment, we offer a range of conveyors that seamlessly bridge the gap between efficiency and simplicity. Whether it's the smooth transport of lightweight labels or the robust handling of 2-ton pallets, our conveyor systems are designed to make your processes effortlessly efficient.

Our product repertoire spans a wide array, from carton boxes and HDPE bags to machined components, plastic crates, and more. We take pride in being architects of uncomplicated material flow that meets the diverse needs of industries worldwide.

What sets Excel Conveyors apart is our commitment to simplicity without compromising quality. Our Standard Design Concepts ensure swift turnaround, maintaining a delicate balance between efficiency and ease of use. We believe that in simplicity lies the key to reliability.

Join us at Excel Conveyors, where we're not just simplifying solutions; we're propelling your business forward with the ease of excellence.

Excel Industries Limited : Corporate Profile

EXCEL was started in 1941 by Mr C C Shroff, a chemistry graduate, with the explicit purpose of developing indigenous technology to produce world-class chemicals. Over the years, Excel came to be known as an industry leader in the area of Specialty chemicals including agro-chemical intermediates. Using its expertise in Chemistry and Chemical technology, Excel also expanded its manufacturing range to other chemicals. Our products find applications in Pharmaceuticals, Polymers, Paints, Dyes, soaps & detergents, water treatment, mining chemicals etc. Excel's commitment to sustainable development led to venture into the field of Environment and Bio-technology. Excel is a Pioneer and Technology leader in rapid conversion of Municipal Solid Waste to organic compost. It has both centralized and decentralized as well as door to door waste management solutions. Its organic plant protection and soil/crop productivity enhancers are well accepted in the market. During the last eight decades, it has received numerous awards in recognition of its dedication and excellence in the field of chemicals and sustainable development. Excel group companies and associated NGOs have been actively engaged in improving the living standards of the people through different activities like water harvesting, animal husbandry, agricultural research and land management, soil and water testing, forestry, health and sanitation services, weather forecasting, climate change reversal, disaster prevention & management and various income generating activities. The Company is managed currently by the Executive Chairman Mr.

Ashwin C. Shroff, Managing Director Mr. Ravi A Shroff and Executive Director Mr. Hrishit

Fabex Engineering Pvt. Ltd.

Contact Person: Mr. Burhanuddin Electricwala, Sales and Marketing Executive
Address: W45(b) MIDC Ambad, Nashik-422010, Maharashtra, India
Phone: +91 9270056095
Email: mkt@fabexeng.com
Website: <https://fabexeng.com/>

Fabex Engineering Pvt. Ltd. specializes in **process intensification and process optimization**, enabling our customers to achieve **better yields, reduced waste, and improved overall process efficiency**. For more than a decade, we have partnered with process industries to translate complex challenges into scalable engineering solutions that deliver measurable value.

Our core technologies include:

- **Agitated Thin Film Evaporators & Dryers (ATFE / ATFD)**
- **Short Path Distillation Units (SPDU)**
- **Liquid-Liquid & Annular Centrifugal Extractors (ACE)**
- **Scraped Surface Crystallizers**
- **Continuous Flow Reactors & Related Process Systems**

With **10+ years in the industry and over 300 completed industrial installations**, our solutions operate across pharmaceuticals, specialty chemicals, oleochemicals, paints, pigments, surfactants, and performance materials. Each project is engineered to solve specific process bottlenecks—whether related to high viscosity feeds, heat-sensitive materials, solvent recovery, evaporation challenges, or drying and separation needs.

A key differentiator for Fabex is our **in-house pilot plant**, designed for **concept proofing, sample evaluation, and informed scale-up decisions**. This capability minimizes uncertainty, accelerates development timelines, and ensures that final installations are backed by real-world operating data rather than assumptions.

At Fabex Engineering, we are driven by **technical credibility, engineering depth, and practical problem-solving**. Our mission is to support global process industries with **robust, energy-efficient, and future-ready technologies** that enable sustainable growth and higher productivity.

Fabex Engineering — Process solutions that move industries forward.

We take immense pride in introducing ourselves as one of India's rapidly growing organizations specializing in comprehensive corrosion-resistant solutions through an extensive range of FRP (Fiberglass Reinforced Plastics) products. Under the visionary leadership of our Chairman, **Mr. Ashok Jain**, who brings over **40 years of dedicated expertise** in FRP and composite engineering, we have built a strong and credible presence in the industry.

Our core strength lies in designing and engineering FRP/Composite products that meet stringent structural, process, and environmental requirements across corrosive, humid, and saline operating conditions. With a diverse client base across **20+ states in India** and international markets in **Africa, Europe, and Asia Pacific**, we are recognized as a preferred supplier of high-performance FRP solutions.

We cater to a wide spectrum of industries including **steel, power, chemical, fertilizer, ports, water treatment, oil & gas, beverage, textile, EPC projects**, and more.

Our Product Range Includes:

- FRP Storage Tanks
- FRP Chemical Process Equipment
- Scrubbing Equipment & Fume Scrubbing Systems
- FRP Chimneys
- Acid Oil / Soap Stock Splitting Plants
- FRP Gratings
- FRP Chequered Plates & Decking Panels
- FRP Cable Trays
- FRP Pultruded Sections
- FRP Handrails & Fencing
- FRP Conveyor Guards, Deck Plates & Seal Plates

- FRP Roofing Sheets
- FRP Manhole & Drain Covers
- FRP Planters & Dustbins
- FRP Lining / Coating

With a strong commitment to quality, innovation, and customer satisfaction, we continue to deliver reliable, durable, and cost-effective FRP solutions across industries.

Fineotex Chemical Limited is a USD 400 million public-listed multinational company engaged in the manufacture of specialty performance chemicals since 1979. With manufacturing facilities in the USA (Midland & Brookshire), Malaysia (Selangor), and India (Ambernath & Navi Mumbai), the company has a total production capacity of approximately 120,000 MTPA. Our FDA pharma-approved manufacturing plants are spread across a combined area of nearly 140,000 sq. meters and adhere to stringent global quality and compliance standards.

Backed by over 47 years of industry expertise, Fineotex serves customers in more than 70 countries, offering high-quality solutions across diverse sectors including Oil & Gas, Water Treatment, Textiles, Hygiene & Cleaning, Construction, and Paints.

Our U.S. subsidiary, CrudeChem Technologies Group (CCT), is a leading manufacturer of advanced oilfield chemical solutions. With over a decade of proven field performance, world-class laboratories, and facilities in Texas, CCT adds strong technical depth and operational excellence to Fineotex's global portfolio.

Since 2011, Fineotex has maintained technical collaborations with reputed European specialty chemical companies such as Biotex, Eurodye CTC Belgium, and HealthGuard Australia, strengthening innovation and product development capabilities.

Our commitment to excellence has been recognized through several prestigious awards, including multiple Business Excellence Awards from Dun & Bradstreet, Hurun Manufacturing Economy Contribution Awards (2025), CNBC TV18's Masters of Risk award (2024), and an ICRA credit rating upgrade to A+(Stable)/A1+.

We are equally proud of our sustainability and workplace recognitions, including Great Place to Work™ certification for the fourth consecutive year, the Dun & Bradstreet ESG Registered Badge, NABL accreditation

Finepac Structures was founded in 1993 with the intent of delivering the highest quality of products and services at competitive prices and a family-orientated commitment to customer service and satisfaction. Through constant dedication to these principles for more than 30 years, Finepac has earned a glowing reputation as a specialist in the field of mass transfer and separation technology.

Headquartered in Pune, Finepac commenced its operations in 1993. The unique location has offered us the ability to attract employees of high calibre and strong work ethic and, at the same time, utilise the vast wealth of resources the city of Pune has to offer.

Finepac designs, engineers, and manufactures a wide range of products used in chemical processing, oil & gas, petrochemical, pharmaceutical, water treatment, and food & beverage industries, including:

Mass Transfer Equipment: Structured packing, random packing, mass transfer trays, column internals and other components that improve efficiency in distillation, absorption, and stripping operations.

Separation Technology: High-performance separator internals, mist eliminators, baffle plates, axial cyclones, coalescers, TEG & amine contactors, de-sanding systems, inlet devices and gas distribution systems for phase separation and scrubber applications.

Static Mixing Technology: Static mixers designed for reliable fluid blending without moving parts.

Process Equipment Fabrication: Engineering and fabrication of pressure vessels, distillation columns, heat exchangers, reactors, extractors, and storage tanks with ASME-certified welding and quality processes.

 Website: <https://formecaindustries.com/>

Formeca is a leading company, providing process solutions, technologies, services & innovations to meet the specific requirements of our customers in the chemical process industries. We have more than 30 Years of experience in Design & Manufacturing of critical Equipment's & Systems for chemical process industries. Our entire success is attributed to our customer oriented approach, innovation, quality products, well equipped infrastructure & dedicated workforce.

We offer complete expertise in Reaction Engineering including design, simulation, engineering & manufacturing of complete Reactor Systems.

These include :

High Pressure Lab Autoclaves from 50 ml to 25 Litres in SS 316/SS 316L, Hastelloy C-276/C-22, Monel, Inconel, etc, Gas Induction Reactors/ Hydrogenators in Pilot & Commercial scale from 50 Litre to 50 KL capacities, EO Reactors, Magdrives, Jet Loop Reactors, Fixed Bed Reactors.

Some of our esteemed customers:

Indo Amines, Gharda Chemicals, Privi Speciality Chemicals, Dorf Ketel, Prasad Organics, Ganesh Polychem (Aarti Group), Nirchem Speciality Chemicals, Prigiv Speciality Chemicals, Eternis Fine Chemicals, Oriental Aromatics, Hindustan Monomers, Acharya Chemicals, Institute of Chemical Technology, Unilab Chemicals & Pharmaceuticals.

Frontal Turnkey Solutions Pvt. Ltd.

Contact Person: Mr. Harshad Bhujbal, Manager Sales and Marketing

Address: B1-C7, Aranyeshwar Park, Near Aranyeshwar Temple, Sahakarnagar, Pune-411009, Maharashtra, India

Email: HABhujbal@Frontal.in

Website: <https://www.frontal.in>

From 2017, Frontal is in the business of providing engineering services and solutions in the field of process instrumentation, industrial automation and Web-SCADA / IIOT / IT- Enabled software.

Range of product and services are listed as follow.

- **Instrumentation Engineering** - Design, detail engineering, Supply, Configuration, Startup and Commissioning of instrumentation systems
- **Electrical Engineering** - Design, detail engineering, Supply, Startup and Commissioning of LT systems, earthing, lighting and field electrical devices.

Industrial Automation

- PLC/ HMI / SCADA based Automation Systems.
- PLC / MCC and instrumentation control panel design, manufacturing, quality assurance, testing, supply, installation and commissioning.
- PLC Programming and SCADA development services.
- Authorized system integrators for RealiteQ for Web-SCADA, Telemetry and IOT solutions (<https://www.realiteq.com>)
- Start-up, commissioning, retrofit, upgradation and maintenance services

Galaxy Industrial Equipments Pvt. Ltd.

Contact Person: Mr. Vashisath Anand, Engineer-Application & Sales

Address: Office No. EL21/3, J Block, MIDC-Bhosari, Pune-411026, Maharashtra, India

Email: vashisathanand@galaxyprocess.in

Website: <https://www.galaxyprocess.in/index.html>

Galaxy Industrial Equipments is a specialized company in Design & Manufacturing of fluid mixing equipments. Our continuous quest for mixing performance improvement together with the experience acquired, enables us to offer a varied range of mixing solutions. Our process centric solution approach makes us solve most of the critical problems of agitation in all types of industries.

Through understanding of process requirements as well as detailed consideration of customer requirements makes us reliable and economical solution provider.

We are specialized in almost all the fluid mixing industry segments such as

- Paints & Coatings
- Mineral Processing
- Chemicals & Specialty Chemicals
- Thermal Processing
- Sugar, Distillery & Starch
- Adhesive & Rubber
- Pharmaceuticals & Personal Care
- Water & Wastewater Treatment

We are pleased to present you our company profile for your perusal. I am writing to introduce our company and explore potential opportunities for collaboration.

Established in 1991, Galaxy Laboratories Pvt. Ltd. is a well-regarded manufacturer of API intermediates. We operate two units—one in Chhatrapati Sambhajinagar and the other in Newasa, Maharashtra, India.

With over 25 years of industry experience, we have built a reputation as a trusted partner for global API and specialty chemicals manufacturers.

Galaxy Laboratories boasts a robust Quality Assurance, Environment, Health, and Safety infrastructure and holds ISO and cGMP certifications.

Kindly visit our website www.galaxylaboratories.com for more information .

PRODUCT NAME:

Furfurylamine (FFA)

5-Chloro-6-(2, 3-Dichlorophenoxy)-1, 3-dihydro
Benzimidazole -2-Thione

5-Chloro-4-Amino-2,1,3-Benzothiadiazole

3-Hydroxypyridine

2-Amino-3-Hydroxy Pyridine

2-Furoic Acid

5-Chloro-2-Nitroaniline (CNA)

5-Thiophenyl-2-Nitroaniline (FTC)

Cyclohexenyl Ethyl Amine (CHEA)

Beta Phenyl Ethyl Amine (BPEA)

Hydrogen Gas

4-Methoxycyclohexanone

2,5-Dichloro-4-(1,1,2,3,3,3-hexafluoropropoxy) aniline

Meta Amino Benzotrifluoride (MABTF)

2-Amino Benzotrifluoride

4-Amino Benzotrifluoride

Benzylamine

*Unit I (Registered & Corporate Office):

Plot No. B-22, MIDC, Aurangabad Industrial Area,

Website: <https://www.gblchemical.com/>

GBL Chemical Ltd, a wholly owned subsidiary of Ganesh Benzoplast Limited (GBL), is a key specialty chemical manufacturer within the Ganesh Group. Ganesh Benzoplast Limited, incorporated in 1986, is listed on both the NSE and BSE and is widely recognized for its diversified operations, strong technical expertise, and reliable manufacturing infrastructure.

GBL Chemical Ltd focuses on benzoic acid-based chemicals, benzoate derivatives, non-phthalate plasticizers, and lubricant additives, serving a broad range of industries including food & beverage, pharmaceuticals, flavors & fragrances, polymers, coatings, adhesives, sealants, plastics, and lubricants. The company places strong emphasis on consistent quality, regulatory compliance, and customer-centric solutions.

The benzoate product portfolio includes Benzoic Acid, Sodium Benzoate, Potassium Benzoate, Ammonium Benzoate, and high-purity esters such as Methyl Benzoate and Ethyl Benzoate, which are widely used in preservatives, intermediates, and specialty formulations. GBL Chemical Ltd also manufactures non-phthalate benzoate plasticizers, including Diethylene Glycol

Dibenzoate (DEGDB), Dipropylene Glycol Dibenzoate (DPGDB), and customized benzoate blends, offering excellent performance while meeting evolving global regulatory requirements.

In addition, the company offers a comprehensive range of lubricant additives, including petroleum sulphonate series, individual lubricant components, and additive packages for industrial and automotive lubricant applications. These products are designed to enhance lubrication performance, corrosion protection, detergency, and overall system reliability.

Supported by strong R&D capabilities, modern manufacturing facilities, and stringent quality and safety standards, GBL Chemical Ltd continues to expand its domestic and international presence, building long-term partnerships through innovation, reliability, and technical excellence.

Address: Jalan Industrial Estate,
Gate No 1, Lane No 5,
Jangalpur, Howrah-711411, West Bengal, India
Email: central@gemmachinery.in
Website: <https://gemalliedgroup.com/>

GEM Machinery is at the vanguard of Drying Solutions and Technologies. With a deep-seated commitment to excellence and innovation, we have carved a niche for ourselves as global leaders in thermal drying systems. Gem Machinery is a needle- mover & trend setter in drying equipment, pioneering advanced drying solutions that cater to a wide range of industries, including Pharmaceuticals, Food processing, Chemicals, Minerals, Fertilizers & Polymers.

Gem Machinery is a key global player in the drying machinery eco-system. 70% of our entire production is for the Export market. The presence of our equipment is available in 50+ countries globally. We have Infrastructure towards Pilot plant demonstration and testing with domain intelligence in designing unique and complex Driers.

Our Solid Drying Systems portfolio includes the following:

1. Static Fluid Bed Drier
2. Flash Drier
3. Vibratory Fluid Bed Drier
4. Apron plate Band Drier
5. Fluid Bed Drier with embedded Thermal Tubes

6. Conveyor Drier
7. Paddle Drier
8. Calciners
9. Rotary Drier/Kiln
10. Coolers
11. Vacuum Paddle Drier
12. Refractance Window Drier or Thin Film Drier
13. Drying Lanes & Tunnel Drier (for holding & drying products for upto 24 hours)

Website: <https://gjmultigases.com/>

GJ Multi Gases Pvt. Ltd. is an Indian supplier of ammonia and industrial gases, serving industrial customers across Maharashtra and Gujarat.

Company Overview

- Supplier of **Anhydrous Ammonia Gas** and **Ammonia Solution (Liquor Ammonia)**
- Backed by **20+ years of industry experience** in ammonia manufacturing, handling, and bulk supply

Industries Served

- **Agrochemicals**
- **Pharmaceuticals**
- **Specialty Chemicals**
- **Pigments**

- **Dyes**
- **Life Sciences**

Product List

- **Anhydrous Ammonia Gas**
- **Ammonia Solution (Liquor Ammonia)**
- **Industrial Gases**
- **Cylinder and Tonner Maintenance Services**

Supplied in:

- **Cylinders**
- **Tonners**
- **Bulk road tankers**

Logistics – Road Tanker Supply

- Dedicated **road tanker fleet for bulk ammonia transportation**
- Supports **regular and high-volume industrial requirements**
- Enables reliable inter-state movement

Manufacturing Unit Locations

- **Ambernath, Maharashtra** – Manufacturing and gas handling unit
- **Dahej–Saykha region, Gujarat** – Manufacturing and bulk supply unit serving major chemical clusters

4D38**GKE Consulting Pvt. Ltd.**

Contact Person: Mr. Himanshu Pancholi, Principal Consultant and Director
Address: 704, Surya Icon, Near AEC Cross Road, 132 feet Ring Road, Naranpura, Ahmedabad-380013, Gujarat, India
Phone: +91 9825212299
Email: sales@gkengineers.in / salesgkeconsulting.iniso.gkindiagmail.com
Website: <https://www.gkengineers.in/>

GKE Consulting is a leading advisory firm with over two decades of experience delivering integrated solutions across sustainability, operational excellence, and enterprise systems. We partner with organizations to drive measurable performance, manage risk, and create long-term value through structured, implementation-focused engagement.

Consulting:

Our consulting practice spans ESG & Sustainability, EHS Excellence, and Business Excellence. We support clients in developing and executing ESG strategies, including Product Carbon Footprint (PCF), Extended Producer Responsibility (EPR), Life Cycle Assessment (LCA), and Environmental Product Declarations (EPD).

We also enable EcoVadis score enhancement and TFS alignment, ensuring compliance with global sustainability frameworks and stakeholder expectations.

Auditing:

We deliver independent audit services across HR, process, and manufacturing domains, complemented by specialized GHG, supplier, and social audits. Our approach focuses on identifying gaps, strengthening controls, and enhancing operational effectiveness.

Assurance:

GKE provides robust assurance services covering GHG and sustainability disclosures, PCF, LCA, and BRSR. Our assurance framework enhances transparency, credibility, and regulatory alignment for stakeholders and investors.

Training & Capacity Building:

We design and deliver targeted training programs to build organizational capabilities across ESG, EHS, and operational excellence, enabling sustained performance improvement.

ISO Certification Support:

We support end-to-end implementation and certification for ISO standards including ISO 27001, 50001, 22301, 37001, and 55001, ensuring seamless integration with existing systems and continuous improvement.

GKE combines domain expertise with a pragmatic approach to deliver sustainable business transformation.

Glassco Laboratory Equipments Pvt. Ltd.

Contact Person: Mr. Sanjeev Chomal, National Sales Head

Address: Manglai, VPO Khudda Kalan, Ambala-133004, Haryana, India

Phone: +91 0171 2891633

Email: sanjeevchomal@glasscolabs.com

Website: <https://www.glasscolabs.com/>

Glassco is a producer of high-quality Lab **Glassware and Instruments** for more than **55+ years** and **exporting to 107+ countries**. We export a wide range of standard glassware, according to **DIN, JIS, ISO, and ASTM** standards from one production facility with **more than 1000 employees**.

Recently, we started manufacturing **Disposable Glassware** like Test Tubes, Pasteur Pipettes, Culture Tubes, and Chromatography Vials, a milestone achieved in Glassco Laboratories, having a capacity of producing **one million pieces per day**.

For our scientific instruments, we have marketed under **DAN Logitech Brand** that ensures **good design** and **functionality** for our **benchtop instrument range**.

We are proud to assert that **Glassco** is the first company to enable **QR Code** on the lab glass, which helps the users access all relevant information about the product within a fraction of seconds by simply scanning the code through their smartphones. Offering a **QR Code** on our volumetric flasks adds up to our innovation portfolio. This enables our customers to **download individual certificates** for our products. QR code is also available in this catalogue, which, when scanned, leads you to the website for any additional information on the products or quick buys.

Glassco has signed an agreement with Caliber Software Company having more than 250 installations in Pharma Companies. Their software is compatible with our QR coded Volumetric Glassware. Offering a QR Code on our Volumetric Flasks amplifies our portfolio and enables the customers to download individual certificates for our products.

About Global Fabtech:

Global Fabtech has established its manufacturing facility at MIDC, Boisar, District Palghar, near Mumbai. Over the years, we have established ourselves as a trusted manufacturer and fabricator of various **Process and Utility Equipment**. Our operations are managed by a team of highly qualified technologists and engineers, capable of delivering customized design solutions. In addition, we provide reliable **technical after-sales service** to ensure complete customer satisfaction

We Are Manufacture and Exporters of Chemical, Paint and Pharma Equipment (Machinery)

- ✓ REACTOR, FERMENTER, HYDROGENATOR
- ✓ CONDENSER / HEAT EXCHANGER
- ✓ PRESSURE VESSEL / STORAGE TANKS
- ✓ HIGH SPEED DISPERSER (HSD)
- ✓ TWIN SHAFT DISPERSER (TSD)
- ✓ ROTO CONE VACUUM DRYER / (RCVD)
- ✓ DOUBLE CONE VACUUM DRYER (DCVD)
- ✓ SPARKLER FILTER
- ✓ NAUTA MIXER DRYER
- ✓ AGITATED NUTSCHE FILTER (ANF)
- ✓ AGITATED NUTSCHE FILTER DRYER(ANFD)
- ✓ CENTRIFUGE MACHINE {CF}
- ✓ EMULSION PLANT / RESIN PLANT
- ✓ DISTILLATION PLANT / SRU
- ✓ FLUID BED DRYER (FBD)
- ✓ FLAKER DRUM / DRUM DRYER
- ✓ EXOTIC MATERIAL EQUIPMENTS
- ✓ CHIMNEY
- ✓ TRAY DRYER & VACUUM TRAY DRYER
- ✓ DISTILLATION COLUMN, BED COLUMN
- ✓ WET SCRUBBER
- ✓ ETP & WATER TREATMENT PLANT
- ✓ CLEAN ROOM EQUIPMENT
- ✓ LARGE CAPACITY SITE FABRICATED TANKS
- ✓ SPECIALTY EQUIPMENT

Our Equipment Is Used in Diversified Industries

Given Below.

- Ø BULK DRUGS / API
- Ø DRUGS INTERMEDIATES
- Ø FOODS
- Ø AROMATIC CHEMICALS
- Ø RESIN, POLYMERS & PAINTS

Go Green Group

Go Green Group is a leading manufacturer of Biomass Pellets and Briquettes, operating more than 15 advanced manufacturing plants strategically located across Madhya Pradesh, Gujarat, Karnataka, and Haryana. Our strong geographic presence enables us to efficiently serve multi-location energy requirements and large-scale industrial demands under a single, streamlined supply arrangement with reliable logistics support. We are committed to delivering sustainable and renewable energy solutions that help industries reduce their dependence on fossil fuels. Our biomass products provide a clean, eco-friendly alternative, significantly lowering carbon emissions while ensuring high calorific value and operational efficiency. Backed

by extensive industry experience and modern manufacturing facilities, we ensure consistent quality, dependable supply, and competitive pricing.

Product Portfolio:

Biomass Pellets (8MM): Suitable for industrial boilers, power plants, and heating systems.
Briquettes (90MM): High-density fuel for various combustion applications.
Raw Materials:

We utilize agricultural residues such as Groundnut Shell and Agro Waste including Soybean, Mustard, Coriander, Cumin, Corn, Cotton Stalk, and others, supporting waste utilization and environmental sustainability. With a strong focus on quality, reliability, and sustainability, Go Green Group is a trusted partner for industries transitioning toward clean and cost-effective renewable energy solutions.

Email: sawant.swapnil@somaiya.com
Website: <https://www.godavaribiorefineries.com/>

Godavari Biorefineries Limited, established in 1939, is the flagship company of the diversified Somaiya group. We utilize sugarcane as a feedstock to manufacture a wide range of products, including sugar, ethanol & ethanol based bulk & speciality chemicals, bio-based chemicals. We currently have two manufacturing facilities, one manufacturing facility located in the Bhagalkot district in Karnataka and another manufacturing facility located in the Ahmednagar district in Maharashtra.

Godavari Biorefineries Limited specializes in the production and distribution of a wide array of chemical products, with a strong focus on biobased and specialty chemicals. The comprehensive portfolio caters to various industries including pharmaceuticals, personal care, mining, and food packaging.

Core Product Categories:

Solvents: A full range of ethanol grades (Rectified Spirit, Industrial, ENA, Anhydrous, Perfumery Alcohol) and ethyl acetate are offered.

Biobased Solvents: A commitment to sustainability is evident through products like Bio Ethyl Acetate (NatroEA), Bio Acetic Acid, Bio n-Butanol, Naturo Butyl Acetate, and Ethyl Lactate.

Intermediates: Key chemical building blocks are produced, including acetaldehyde, 2-ethyl 1,3-hexanediol, crotonaldehyde, and various acetates and butanols.

Pharmaceutical, Flavor & Fragrance Intermediates & Others: A specialized selection of high-purity intermediates such as paraldehyde, cinnamic aldehyde, triacetin, and crotonic acid are available.

Personal Care & Cosmetics Products: Offerings include 1,3-butylene glycol (Naturowax®), naturowax (sugarcane wax), and biobased acetone.

Mining Chemicals: Specialized chemicals like Somfroth (1,1,3-triethoxybutane) and croto resin are provided for industrial applications.

"Graphicarb Products" Is A Dynamic Group, Which Was Established In The Year Of 1995, We Are An Iso 9001:2015 Certified.

Since Establishment, We "Graphicarb Products", Is One Of The Eminent Manufacturers, Exporters And Suppliers Of Graphite Process Equipments. Our Organization Is Driven Towards Providing Total Solutions In Areas Like Impervious Graphite Equipments, Corrosive Heat And Mass Transfer And Graphite Process Equipments For Chemical And Mechanical Engineers. These Products Are Acknowledged For Their Quality And Performance.

QUALITY POLICY:-

We Are Committed To Achieve Customer Satisfaction and Confidence In Our Product And Organization Through: Product Quality At Competitive Price,

Timely Supply and Assurance For Product Quality. We Are Also Committed To Comply With Requirements Of Iso 9001-2015 And Continually Improve The Effectiveness Of Its Quality Management System.

Grasim Industries Ltd. (Chemical Division)

Contact Person: Ms. Afrah Shaikh
Address: Unit No. 602,601, 601 A, 6th Floor, Tower 1 & 2, One International Centre, Senapati Bapat Marg, Prabhadevi (West), Mumbai-400013, Maharashtra, India
Email: afrah.shaikh-c@adityabirla.com
Website: <https://www.grasim.com/about-us/who-we-are>

Grasim Industries Limited, the flagship company of the Aditya Birla Group, is one of India's leading publicly listed companies with over five decades of expertise. It has established itself as a global leader in the chemicals industry, known for its innovation, operational excellence, and commitment to sustainability. As India's largest and a globally prominent manufacturer of caustic soda, Grasim offers a diverse, solutions-focused product portfolio that caters to markets worldwide. With a strong presence in the Chlor-Alkali industry, the company produces a range of products with applications in pulp and paper production, hydrogenated fats manufacturing, and water purification. Operating eight manufacturing units across India and one in Thailand, it ranks among the top 10 Chlor-Alkali manufacturers globally. Its state-of-the-art R&D facilities, recognized by DSIR, and certifications from ISI, ISO, NSF, REACH, and CAA ensure the delivery of high-quality, customized solutions.

Email: krishna.padia@industrialgreenchem.com
Website: <https://chemistryforsustainability.org/>

Green ChemisTree Foundation is a registered non-profit organization, with the vision to bring forth technical know-how regarding Green & Sustainable Chemistry based applications amongst the Chemical community including Industry, Academia, Research Institutes,

Govt. bodies, and Students. Since its inception in 2009, the Green ChemisTree Foundation has emerged as a focused platform to engage industry and non-industry groups in exploring the world of Green Chemistry and Green Engineering practices as an integrated approach to designing chemical processes and chemical manufacturing practices, with the objective to impact the triple bottom line of Profit, People and Planet. The vision is to impact the collective 'green' consciousness across the value chain of the Chemical Industry :

- by creating a new DNA of thoughts – for preventing, providing, and partnering
- by bringing together the chemical community by bridging the gaps
- by bringing into focus the industrialization and implementation of green chemistry and engineering

The Foundation, through its various national and international deliberations, facilitates the world-wide chemical community to explore, engage, exchange and expand their GC&E paradigms.

Gujarat Alkalies and Chemicals Ltd. (GACL)

Contact Person: Mr. Harshjit Dhaybar, Assistant Corporate Communication

Address: P.O. Ranoli, Vadodara-391 350, Gujarat, India

Phone: +91 0265 6111000

Email: harshjit.dhaybar@gacl.co.in

Website: <https://www.gacl.com/>

Gujarat Alkalies and Chemicals Limited (GACL) was established in 1973 in Vadodara, Gujarat, to manufacture caustic soda and allied products. Promoted by the Government of Gujarat, GACL has become one of India's largest caustic soda manufacturers, leveraging advanced eco-friendly technology, R&D, and strategic expansion. From an initial capacity of 37,425 TPA caustic soda, the company has grown to 8,52,400 TPA, with manufacturing facilities across four complexes—two in Vadodara and two in Dahej. GACL now offers over 35 products that serve as essential raw materials across various industries, playing a crucial role in the growth of the country's chemical sector.

With more than 5,000 customers including some of the finest global corporations, GACL has established itself strongly in the markets of Africa, North America, South America, Europe, Turkey, Middle East, Russia, Asia Pacific, Southeast Asia, Japan and other regions.

At GACL, sustainability has been a core value since our inception. We prioritise the use of renewable energy, with 171.4 MW of wind and 36.6 MW of solar power installed for our captive use.

Today, the company manufactures products including Caustic soda lye, Hydrochloric acid, Liquid chlorine, Caustic soda flakes, Caustic soda prills, Compressed hydrogen gas, Anhydrous sodium sulphate, Sodium hypochlorite, Methyl chloride, Methylene chloride, Chloroform, Carbon tetrachloride, Hydrogen peroxide, Sodium chlorate, Hydrazine Hydrate, Phosphoric Acid (Technical Grade), Phosphoric Acid (Food Grade), Anhydrous aluminium chloride, Poly aluminium chloride, Stable bleaching powder, Caustic potash lye, Caustic potash flakes, Potassium carbonate, Potassium Hydroxide, Benzyl Chloride, Benzyl Alcohol, Benzaldehyde.

Website: <https://www.gnfc.in/>

Gujarat Narmada Valley Fertilizers & Chemicals Limited (GNFC), established in 1982, is a Government of Gujarat-promoted enterprise engaged in the manufacture of fertilizers, chemicals, and IT-enabled products and services. Initially set up as a fertilizer manufacturer, GNFC has progressively evolved in response to changing industrial and market dynamics, guided by a strong focus on growth, diversification, and sustainability.

Alongside the development of its fertilizer complex, GNFC strategically expanded into core chemical and petrochemical sectors. Today, the Company boasts a diversified product portfolio that includes Methanol, Formic Acid, Nitric Acid, Acetic Acid, Toluene Di-Isocyanate (TDI), Aniline, Concentrated Nitric Acid, Ammonium Nitrate, Ethyl Acetate, Methyl Formate, Nitro Benzene, Catsol, and Technical Grade Urea. GNFC holds a unique position in the Indian chemical industry as the sole domestic manufacturer of Acetic Acid, Formic Acid, TDI, and Aniline. These products serve a wide range of domestic industries and are also exported to international markets.

GNFC's manufacturing facilities operate in accordance with internationally recognized management systems and are certified under ISO 9001, ISO 14001, ISO 45001, and ISO 50001, underscoring the Company's commitment to quality, environmental stewardship, occupational health and safety, and energy efficiency.

In the information technology and cyber security domain, GNFC's IT division, (n)Code Solutions, operates a world-class Public Key Infrastructure (PKI) facility, providing Digital Signature Certificates and secure PKI-based solutions. Further aligning with national priorities, GNFC has been a pioneer in implementing 100% Neem Coated Urea since January 2015, supporting sustainable agriculture and improved fertilizer efficiency.

Hemani Intermediates Pvt. Ltd. – Innovating Chemistry Since 1976

Established in 1976, Hemani Intermediates is a manufacturer of specialty chemical & intermediates, serving industries such as agrochemicals, pharmaceuticals, veterinary, pigments, and dyes. With nearly five decades of expertise, the company has built a strong reputation for forward and backward integration, producing critical intermediates like Para Nitro Chloro Benzene (PNCB), Ortho Nitro Chloro Benzene (ONCB), Ortho Anisidine (OA), and 3,3 Di Chloro Benzidine, ensuring reliability across global supply chains.

Flagship Products Our core portfolio includes Dichlone, 2,4 DNCB, 2,5 DCA, 3,3 DCB HCL, 4B Acid, OA, OCA, ODA HCL, ONA, ON Anisole, ONCB, OPDA, PCA, PNA, PNCB, MgO, and CaCl₂.

Campaign Basis Products We also manufacture 2B Acid, 2,4 DCA, 2,4 DCNB, 2,5 DCNB, 3,4 DCA, 3,4 DCNB, MNCB, OCPNA, ONAPSA, PAP, PA, PCONA, PNAOSA, PN Anisole, and PNP.

Hemani operates advanced facilities in Vapi, Sarigam, Saykha (Gujarat, India) under Hemani Intermediates, Hemani Chemicals, Hemani Chemiorganics, and Ideal Dye Chem Industries. Each unit is supported by modern R&D centers, QC/QA labs, and robust EHS systems aligned with international standards.

Sustainability & Innovation is central to our operations, with solar power generation, effluent treatment, CETP participation, and solid waste management. Our expertise spans nitration, hydrogenation, chlorination, sulphonation, and custom synthesis, enabling tailored solutions for diverse industries.

Care for Nature, No Fear in Future.

HENI's legacy began in the early 1960s, with a mission to establish a premier manufacturing base. Over the decades, HENI has grown into a leading name in the pharmaceutical, specialty chemical, and Lubricant industries. The company operates with the highest standards of quality and safety, supported by internationally recognized certifications including FDA-aligned practices, GMP, ISO 9001:2015, Kosher (Star-K), RSPO, and HACCP. These certifications ensure that every ingredient produced meets rigorous global quality benchmarks. Serving both domestic and international markets, HENI offers a diverse and expanding product portfolio.

Building on this foundation, HENI has evolved into a multi-vertical ingredient manufacturer catering to pharmaceuticals, food and nutrition, personal care, lubricants, and industrial applications. Its offerings include APIs, excipients, functional and food ingredients, esters, and specialty chemicals designed to meet the performance and regulatory needs of global customers.

Sustainability and natural sourcing are central to HENI's product philosophy. This commitment is embodied in the ZON brand architecture, inspired by the sun as a symbol of life and vitality. Under this umbrella, HENI operates focused verticals such as , ZONqs (pharmaceutical ingredients), ZONGlam (cosmetic ingredients), ZONLube (lubricant ingredients), and ZONPrime (fine and specialty chemicals), ZONutra (nutraceutical ingredients) each tailored to industry-specific requirements.

Driven by advanced R&D capabilities and a strong technical team, HENI continuously develops innovative, high-performance ingredients with an emphasis on

safety, efficacy, and sustainability. With corporate and R&D functions based in Thane (Mumbai) and manufacturing operations located in Sarigam GIDC, Gujarat, HENI remains committed to delivering reliable, future-ready ingredient solutions to global markets.

Hi-Mark Process Equipments

Engineering Solutions, Partnering in Your Growth.

Having two decades of experience in the chemical & pharmaceutical industry.

Hi-Mark Process Equipments is unique in providing solutions as per clients' requirements in the most economical ways with client satisfaction. We specialize in designing & manufacturing Filter, Dryers & Alloy Equipment as per Indian/International codes and standards like ASME, TEMA, IS, DIN & global compliance like cGMP, ISO, CE & ATEX.

We provide end-to-end services including Design, Engineering, Fabrication, Quality Testing, Installation, Commissioning & Repair. Our team of process and design engineers coordinate with clients to ensure the most suitable process route and economical design is selected in strict accordance with the clients' specifications and standards.

We are a specialized manufacturer of custom-built Process Equipments for the Chemical, Pharmaceutical, and Allied Industries. Our expertise covers the design, fabrication, and supply of:

- Filters & Dryers :- ANFD, RVPD, RCVD, NAUTA, PSMD & PNF.
- Process Equipments :- Reactors, Heat Exchangers, Receivers & Storage Tanks.

Hindustan Scale Company (HSCo), established in 1955, is one of India's most trusted manufacturers of industrial weighing and measurement solutions. With nearly seven decades of experience, HSCo delivers accurate, reliable, and durable products to industries where precision directly impacts quality and compliance. Headquartered in Mumbai, the company designs, manufactures, calibrates, and services its solutions in-house, ensuring complete control over quality and performance.

HSCo serves the chemical and process industries with a comprehensive range of industrial weighing systems, including crane scales, heavy-duty platform scales, tank and hopper weighing systems, and custom load cell assemblies. These systems withstand harsh operating conditions and provide consistent, repeatable measurements for raw materials, intermediates, and finished products. By enabling precise weighing, HSCo helps organizations improve process control, reduce material losses, and maintain regulatory compliance.

Alongside industrial weighing, HSCo offers a growing portfolio of laboratory instruments tailored for quality control and research applications. This range includes precision balances, analytical scales, moisture balances, viscometers, and calibrated laboratory weights. Laboratories and R&D centers rely on these instruments for accurate testing, formulation, and validation across chemical and allied industries.

HSCo supports clients across chemicals, petrochemicals, pharmaceuticals, steel, casting and forging, food processing, logistics, and educational institutions. Through its nationwide service network and long-standing customer relationships, the company ensures dependable support throughout the product lifecycle. Hindustan Scale Company continues to strengthen industrial and laboratory operations by delivering measurement solutions that enhance accuracy, efficiency, and confidence in every process.

Hitech Corporation Limited is one of India's foremost 360° Rigid Plastic Packaging Solutions Providers, with over 35 years of manufacturing excellence since 1991. Headquartered in Mumbai, Hitech operates across 11 state-of-the-art manufacturing facilities, an India Head Office, a USA Subsidiary, an in-house Technology Centre, an in-house RCPP Plant, and 2 facilities under its brand Thriarr Polymers — all equipped with high-end, modern machinery delivering precision, consistency, and scale across pan-India operations.

Hitech manufactures the complete spectrum of rigid plastic packaging — Bottles, Jars, Pails, Drums, Jerry Cans, and Caps & Closures — spanning 5 ml to 250 Ltrs, across all major materials (HDPE, PET, PP, RPET) and processes (EBM, IBM, IM, SBM, ISBM), with full in-house decoration capabilities including IML, pad printing, screen printing, and labelling.

For the agrochemical and chemical industries, Hitech is the trusted packaging partner to the world's leading companies — supplying 10 ml to 5 Ltr formulation bottles and containers to global majors across their entire SKU range, alongside large-volume industrial packaging. From the smallest field-ready bottle to the largest storage drum, Hitech delivers the entire packaging portfolio under one roof.

At Chem Expo 2026, Hitech spotlights its HDPE Drums (50 Ltrs – 250 Ltrs) — engineered for demanding chemical storage and transportation, offering superior chemical resistance, structural integrity, and leak-proof performance.

Serving 10+ sectors, driven by Six Sigma methodologies, and backed by an in-house R&D and Technology Centre in Pune — Hitech Corporation Ltd is the single, accountable partner for every packaging need.

Hyma Synthesis Pvt. Ltd.

Contact Person: Mr. Alok Kumar Jha

Address: 15, Sunshine Industrial Park, Changodar, Ahmedabad-382213, Gujarat, India

Email: westsales@hymasynthesis.com

Website: <https://hymasynthesis.com/>

Hyma Synthesis Private Limited offers a comprehensive catalogue, curated by expert chemists and microbiologists, comprising specialty chemicals and biologics across various grades and quantities.

Quality of our products is of paramount importance, given their application in R&D. We are ISO certified and have state-of-the-art quality control instruments including GC, HPLC, NMR, GC-MS to ensure that all our products meet stringent quality parameters.

4E41

Hypersonic Technologies Pvt Ltd

Contact Person: Dr. Jayaraman Kandasamy, Founder and CEO

Address: Pt No 206, 207, Leelavathy, NGR, Senneerkuppam, Sriperumbudur, Kanchipuram, Chennai-600056, Tamil Nadu, India

Phone: +91 9894840845

Email: jayaraman@hypersonics.in

Website: <https://hypersonics.in/>

Hypersonic Tech is a Energy Tech start-up, focusing on "Decarbonizing Industry with Modular Plasma Pyrolysis with sustainable Hydrogen and Advanced Carbon Materials production with built-in AI-driven safety, ESG compliance, and carbon monetization capabilities for wide range of applications", i.e., Plasma pyrolysis of bio-methane, natural gas and biogas into Hydrogen and carbon black. By adopting this cutting-edge plasma pyrolysis technology, positioning us at the forefront of the industry, driving innovation and setting new standards. Our decentralized model empowers industries to reduce emissions, monetize carbon credits, and transition toward net-zero operations. Conventional hydrogen generation, such as Steam Methane Reforming (SMR), emits 10 kg CO₂ per kg of hydrogen, while traditional carbon black synthesis releases 2.4 kg CO₂ per kg, exacerbating climate impact, whereas electrolysis process is capital intensive. Our plasma-driven process eliminates CO₂ emissions, providing a net-zero alternative for refineries, steel industries, and EV battery manufacturers. India's hydrogen economy faces a dual challenge: high cost of clean hydrogen and dependence on carbon-intensive production routes. Current industrial hydrogen is largely produced via steam methane reforming (SMR), which emits significant CO₂, undermining national decarbonization

goals. Alternative green hydrogen routes (electrolysis) remain expensive and water-intensive, limiting scalability in resource-constrained regions. Methane pyrolysis offers a CO₂-free pathway, but conventional single-stage plasma systems suffer from high energy intensity, unstable plasma discharges, and poor control over carbon byproducts. Hypersonic Tech provides the solution to integrate advanced plasma control, staged reaction zones, and real-time optimization to reduce energy per kg H₂, stabilize operations, and create dual-revenue streams.

Indian Chemical Merchants & Manufacturers Association

Contact Person: Mr. Debasish Gupta, Executive Secretary
Address: 4, India Exchange Place, 8th Floor, ICC Tower, Kolkata-700001, West Bengal, India
Phone: +91 033 40014704
Email: icmmaoffice@gmail.com

Indian Chemical Merchants & Manufacturers Association, founded in 1942 is an association of Small & Medium scale chemical Manufacturers and dealers primarily based in the state of West Bengal

ICMMA is affiliated to Indian Chamber of Commerce (ICC), Indian Merchant Chamber, Mumbai (IMC) & Federation of Indian Chamber of Commerce and Industry, New Delhi (FICCI)

The association is actively engaged in the development of Chemical Trade & Industry in West Bengal and is active in establishing a Chemical Park for Industries and Warehousing at Ranihati, Howrah.

ICMMA promotes a Fair Trade Practice

ICMMA regularly organizes Fellowship meets

ICMMA leads trade mission to foreign countries to foster better business relation

ICMMA in collaboration with several organization and Trade Bodies conduct different Industrial Seminars and Buyer-Sellers Meet.

ICMMA encourages Indian and International Enterprises

ICMMA solicits constructive suggestions.

Established in 1980, Indiana Chem-Port is a distinguished and reputable manufacturer of fine chemicals. With over 40 years of experience, we have been at the forefront of pioneering the production of inorganic fine chemicals to cater to diverse industries. Our commitment to excellence, quality, and compliance with international standards has earned us the trust and recognition of customers worldwide. At Indiana Chem-Port, we place paramount importance on maintaining the highest standards of quality and safety. Our state-of-the-art facilities is designed as per cGMP norms and are equipped with advanced

technology to ensure that our products consistently meet stringent quality requirements. We are proud of our certifications and approvals, including GMP FDA, REACH, HALAL, KOSHER, and FSSAI, which reflect our dedication to excellence and compliance with international regulations. Indiana Chem-Port offers an extensive range of inorganic fine chemicals and excipients to meet the diverse needs of our customers.

INDIATECH PROCESS EQUIPMENT stands as a distinguished name in the realm of advanced process engineering, with a legacy spanning over 35 years of excellence, innovation, and trust. Renowned for its uncompromising commitment to quality, the company has consistently delivered precision-engineered solutions that cater to the sophisticated requirements of the pharmaceutical, chemical, food, and allied industries. Its portfolio reflects a seamless blend of robust design, cutting-edge technology, and meticulous craftsmanship, ensuring superior performance and long-term reliability.

At the core of INDIATECH lies a philosophy driven by engineering integrity, continuous innovation, and customer-centricity. Backed by a highly skilled team and modern manufacturing infrastructure, the company excels in developing customized process equipment that aligns with global standards and evolving industry demands. Every solution is thoughtfully designed to optimize efficiency, enhance productivity, and ensure operational excellence for its clients.

Over the decades, INDIATECH PROCESSEQUIPMENT has cultivated enduring relationships with a diverse clientele across domestic and international markets, earning a reputation for reliability, responsiveness, and technical expertise. Its unwavering focus on quality assurance, timely execution, and comprehensive after-sales support reinforces its position as a preferred partner in the process equipment industry.

With a forward-looking vision rooted in innovation and sustainability, INDIATECH continues to set benchmarks in engineering excellence—delivering not just equipment, but value-driven solutions that empower industries to perform at their best.

Indra Water

Contact Person: Mr. Vineet Mankar, Manager Business Development

Address: Fenkin 9, C5, 1203 1204, Wagle Industrial Estate, Thane (West)-400604, Maharashtra, India

Email: vineet.mankar@indrawater.com

Website: <https://indrawater.com/>

Indra is an Indian deeptech startup delivering modular, decentralised wastewater treatment and reuse systems for industries, institutions, and cities. Our technology core, ElectroX, uses advanced electrochemical treatment to remove solids and difficult pollutants with low chemical dependence, reduced sludge, and a small footprint, making it ideal for space-constrained retrofits and high-variability waste streams.

Indra's systems convert wastewater into reuse-ready water for cooling, flushing, process needs, and landscaping, helping clients cut freshwater demand while preventing under-treated discharge to rivers, lakes, and groundwater recharge zones. The solution is engineered for practical field deployment: skid-based modules, automated controls, key parameter monitoring, and simplified operation to reduce human error.

Indra's mission is to make water circularity scalable and affordable, so that wastewater becomes a dependable local resource, not an environmental liability.

Email: marketing@imp-india.com

Website: <https://imp-india.com/>

Industrial Metal Powders India Pvt Ltd, the most trusted name in high-purity iron powder & a reliable source of iron since 1974.

Established in 1974, IMP has been working diligently to promote the growth of the Pharmaceutical, Nutritional,

Chemical, Oxygen Absorbers and Personal Care industries by offering various options of high-purity iron powders, thereby ensuring consistent quality and focusing on market expansion.

IMP has having well-equipped in-house laboratory to ensure carrying out all the incoming to in-process, to final product testing to supply each batch with 100% assurance and consistent quality.

IMP is ISO 9001, 14001, 45001 and FSSC 22000 certified and is rated by ECOVADIS as GOLD medal for sustainable practices.

IMP has been exporting its products to over 35 countries for the last 30 years and has become the most reliable source to various customers in a long time.

IMP has been producing **ELECTROLYTIC IRON POWDERS, REDUCED IRON POWDERS & ATOMIZED IRON POWDERS** for many years now.

IMP is very flexible with their policies in packing, supply quantity, payment terms, confidentiality of customised products, etc.

IMP believe in working for Make in INDIA and supports the industries to become import-free and use most of the local products with more consistency, performance & cost-effective tools/segments.

This helps to cater to the small buyers to get the material in time, price benefits, and sustain business.

Let's work together and grow together to make in India.

INTEROR is a France-based custom manufacturing partner specialized in fine and specialty chemicals. Headquartered in Calais, the company combines decades of expertise in complex organic synthesis with industrial-scale production capabilities.

INTEROR operates as a contract development and manufacturing organization (CDMO) for advanced intermediates, supporting customers from early-stage process development through scale-up to multi-ton production, under both GMP and non-GMP environments. Its core competencies include hazardous and multi-step chemistries such as hydrogenation, Grignard reactions, bromination, and Friedel-Crafts processes, with strong know-how in process control and industrial transposition.

The company serves a broad range of industrial markets, including CASE (Coatings, Adhesives, Sealants,

Elastomers), specialty chemicals, personal care, and pharmaceutical intermediates. Its value proposition lies in handling technically demanding, HSE-sensitive, or capital-intensive processes that customers prefer to outsource.

INTEROR positions itself as a reliable European industrial partner, contributing to supply chain security and offering an alternative to offshore sourcing. Its competitiveness is reinforced by optimized production costs through intensive solvent recycling and the integration of an on-site wastewater treatment plant, ensuring both economic and environmental performance.

With flexible multipurpose production units and a strong focus on safety, quality, and responsiveness, INTEROR supports projects ranging from pilot batches to several hundred tons per year.

ChemExpo brings together over 100 exhibitors from bulk, fine, and specialty chemicals, as well as equipment and logistics providers, reflecting the diversity of the global chemical value chain.

ITT Logistics India Pvt Ltd

Contact Person: Ms. Sudeepta Das, CFO
Address: Akshar Business Park, L-2037, Sector-25,
Plot-25, Vashi, Navi Mumbai-400703, Maharashtra,
India
Phone: +91 022 69757777
Email: admin@bulkcontainerindia.com
Website: <https://efclogistics.com>

Intermodal Tank Transport (ITT) was founded in 1993 in Medellín, Colombia, and quickly established itself as a leader in ISO tank transportation across Latin America. Growing alongside its customers, ITT pioneered isotank operations in challenging and emerging markets, earning recognition as one of the region's most specialized tank container operators.

Within its first decade, ITT expanded internationally with offices in the United States and Northern Europe, becoming a dominant carrier on trade routes between the USA, Europe, and Latin America. In its second decade, ITT strengthened its global footprint with offices in Barcelona, Shanghai, Singapore, and Santiago, firmly positioning itself as a truly global tank container operator.

As part of its continued global expansion strategy, ITT has also entered into a joint venture in India with an Indian partner under the name **ITT Logistics India Pvt Ltd**, reinforcing its presence in the fast-growing South Asian market and enhancing regional service capabilities.

This sustained growth has enabled ITT to operate one of the youngest fleets in the industry, supported by a robust global network of cleaning and repair depots to ensure the highest standards of quality and safety.

At the heart of ITT's success are its people—their dedication, expertise, and commitment to superior customer service. While ITT operates globally, it continues to serve customers with a strong local focus, delivering reliable, customer-centric logistics solutions worldwide.

J. Kirit & Brothers

Contact Person: Mr. Yash Mehta, Partner
Address: 5 & 6, Chandra Niwas, 2nd Floor, Police
Lane, Andheri (East), Mumbai-400069, Maharashtra,
India
Phone: +91 022 35115405
Email: info@jkirit.com
Website: <https://www.jkirit.com/>

At J. Kirit & Brothers (JKB), we have built a legacy spanning over five decades as one of India's most trusted chemical importers and distributors. Since we diversified into chemical trading in 1973, we have consistently delivered world-class industrial raw materials to a wide range of industries, including paints, coatings, synthetic resins, petrochemicals, adhesives, and allied sectors. We pride ourselves on our deep industry expertise, strong global supplier relationships, and commitment to reliability. Through strategic partnerships with leading manufacturers such as Reliance Industries Ltd, Thirumalai Chemicals Ltd, DCM Shriram Chemicals, Vinati Organics Ltd, SI Group India Ltd, Perstorp OXO (Sweden), IRPC Polyol (Thailand), KPX Chemicals (Korea), and PCG PCC Oxyalkylates (Malaysia), we ensure a robust and diverse product portfolio tailored to meet our clients' specific process needs. Our product range includes key intermediates and specialty chemicals such as Phthalic Anhydride, Purified Terephthalic Acid, Isophthalic Acid, Neo Pentyl Glycol, Nonyl Phenol variants, Polypropylene Glycols, PTMEG & PolyTHFs, TDI, MDI, Glycerine, Epichlorohydrin, and more — all sourced with stringent quality standards. With well-versed professionals, strong in-house warehousing facilities, and a customer-centric approach, we consistently deliver on time at competitive rates. We uphold ethical business practices, nurturing long-standing relationships with both suppliers and clients. This dedication to excellence makes JKB a preferred distribution partner for leading industrial players across India.

3D55**Jacobi Group**

Contact Person: Mr. Abhishek Shukla, Assistant Manager Sales and Marketing

Address: Jacobi Group I Nova Carbons India Private Limited, B 46, B 47, B 48 & B 49, SIPCOT Industrial Growth Centre, Gangaikondan, Tirunelveli-627352, Tamil Nadu, India

Jigs Chemical, is a well informed, well-versed, highly competent, promptly executing, competitive sourcing company. We, Jigs Chemical, form an integral part of the global chemical industry. Jigs Chemical is established in 1998 with the purpose of serving the emergent pharmaceutical sector in India and international market. Jigs has come a long way from being just a chemicals supplier to a big renowned API, Pharmaceutical Intermediate, Nutraceuticals, Herbal Extracts, Industrial Chemicals, and Solvents for manufacturing, supplying, sourcing and marketing company.

Jilin Xingyun Chemical Co., Ltd.

Contact Person: Zhan Wenrui, Product manager

Address: No.1, Yixi Road, Jilin City-132021, Jilin

Province, China

Phone: +86 0432 65117319

Email: 19916541131@163.comWebsite: http://www.xingyunchem.com/index_en.html

Founded in 1993, Jilin Xingyun Chemical has evolved over three decades of dedicated entrepreneurship and scientific development into a nationally recognized "Little Giant" specializing in advanced chemical technologies and a National High-Tech Enterprise. The company is authorized to host an Academician Workstation, attracting a distinguished foreign academician to spearhead cutting-edge research and innovation. Recognized as both a Jilin Provincial Enterprise Technology Center and a Jilin Provincial Sci-Tech Enterprise, it has successfully constructed and operates twelve advanced production facilities, including lines for Polyethylene Oxide, Dispersants, Fluoropolymers, Polyethylene Catalysts, Acrylonitrile Catalysts, Rejuvenated FCC Catalysts, n-Hexane, and Refinery Additives. Its comprehensive product portfolio encompasses over 100 varieties, serving diverse industrial needs.

Among its flagship offerings, the company's dispersant series stands as the sole domestic brand capable of substituting imported products in ABS and CR units, commanding the largest production scale in China. Furthermore, its Polyethylene Oxide products have successfully replaced counterparts from Dow Chemical and Sumitomo, securing a position among the global top three in both production scale and performance. These high-performance materials find extensive and critical applications across healthcare, environmental protection, agriculture, and other vital sectors, underscoring the company's commitment to technological excellence and industrial advancement.

Address: Plot No. 174/1, J Block, MIDC Bhosari, Pune-411026, Maharashtra, India

Email: anant.vibhandik@jnkchemdist.com

Website: <https://www.chemdistgroup.com/>

JNK Chemdist Technologies Private Limited is a specialized process engineering and technology solutions company formed as a strategic joint venture between **JNK India Limited** and **Chemdist Process Solutions Private Limited**. The company brings together JNK India's proven expertise in heavy engineering, fabrication, and EPC execution with Chemdist's strong background in process design, separation technologies, and specialty chemical applications.

JNK Chemdist focuses on delivering **end-to-end process packages and equipment** for the chemical, petrochemical, refinery, specialty chemicals, pharmaceutical, and sustainability-driven industries. The company's portfolio includes **distillation systems, evaporation and concentration systems (MEE, MVRE), strippers, thin film evaporator and agitated thin film dryers (TFE/ATFD), solvent recovery units, oil-water separation systems, and customized heat transfer equipment** such as shell-and-tube heat exchangers. Solutions are engineered for both conventional and complex, high-purity, or corrosive services.

With a strong emphasis on **process optimization, energy efficiency, and operability**, JNK Chemdist provides complete techno-commercial solutions covering **process simulation, basic and detailed engineering, equipment design, fabrication, testing, installation support, and commissioning**. The company follows

recognized international design codes and quality systems to ensure reliability and long-term performance.

Leveraging its combined engineering strength and manufacturing infrastructure in India, JNK Chemdist is positioned as a **single-point responsibility partner** for clients seeking reliable, scalable, and sustainable process solutions, from concept to execution.

Website: <https://matthey.com/>

Johnson Matthey is a world leader in the development and manufacture of catalysts for automotive, energy and chemical industries. Our catalysts help remove pollutants, improve efficiency of industrial processes and unlock the potential of new sustainable fuels. Much of our catalyst offering is heterogenous and homogenous catalysts for the Chemical, Pharma, Argo industry. While chemical catalysis is used throughout industry, we are taking inspiration from nature and developing complementary biocatalyst solutions like enzymes. These are catalysts that come from living organisms, such as cells or bacteria. At JM, we use expertise to identify, develop and manufacture biocatalysts for making pharmaceuticals and agrochemicals.

PGM recycling and refining

We collaborate with our customers to optimize precious metal recovery from complex materials and our technical support teams provide the best possible refining options. We're experienced in handling high value materials, with leading security standards and end to end control of the metal. With our refineries in Europe, US, China and India and through our global refining network of partners we offer full geographic coverage and complete refining solutions.

Our refining process allows us to efficiently and securely extract and recover PGMs from complex products and then refine them to commercial grade purity. From initial material analysis to comprehensive metal management services, we guide and advise customers at each step of the process

JSP Enviro (P) Ltd.

Contact Person: Dr. Fidal V T
Address: No. 4, Old No. 20, Pillayar Koil Street, Cholembedu Road, Thirumullaivoyal, Chennai-600062, Tamil Nadu, India
Email: fidal@jsp.one

JSP Enviro is a cleantech start-up working in environmental technologies and services from 2019. We aim towards a circular economy by re-use and re-cycle of industrial wastewater across the globe. Our Technology Industrial waste water treatment is a challenge on the account of high capital and operational costs in running Effluent Treatment Plants (ETPs). Conventional systems are energy- and chemical-intensive and generate large volumes of sludge. JSP Enviro has developed BEADS, a fuel cell technology to treat industrial wastewater. Bio-Electrochemical Anaerobic Digestor System (BEADS) is a biological process which utilizes microorganisms to degrade the organic contaminants in wastewater and produce energy in the form of electricity (or methane). It is an anaerobic process in which the specially developed microbial consortium can reduce the COD/BOD, colour, sulphates, nitrates in the wastewater and generate energy in the process. BEADS is a decentralized, energy-efficient solution that provides 95% clean recycled water.

BEADS USP

- Recovers bioelectricity (up to 0.5 kWh per m3) or methane
- No Chemicals used
- 90% reduced sludge
- Energy positive
- 40% reduction in OPEX – savings in chemicals, energy and sludge handling
- Modular & Portable – No concrete structure
- Less retention time compared to Anaerobic digestors
- 1 ton of CO2 saved per m3 of effluent treated yearly

KCIL, established in 1983, is a trusted manufacturer of specialty solvents with advanced facilities near Mumbai, India. We are a two-star export house with ISO certifications (9001, 14001 & 45001), EU-REACH registration, and Ecovadis certification.

Since 2007, KCIL has exported products such as 1,4-Dioxane, 1,3-Dioxolane, Tetrahydrofuran, and Acetonitrile to over 40 countries, including the USA, Japan, Europe, and China.

We specialize in high-purity specialty solvents for applications in API synthesis, analysis, intermediates, fine chemicals, industrial applications, paints, and electronics. Our key products include

Ethers:

- Ø 1,4-Dioxane (including HPLC and Electronic Grades)
- Ø Dibutyl Ether (DBE)
- Ø Monoglyme (1,2-Dimethoxyethane)
- Ø Diglyme
- Ø Di isopropyl Ether

High Grade Solvents:

- Ø Acetonitrile (including Peptide/Gradient/NMR/Electronic)
- Ø N-Methyl-2-Pyrrolidone
- Ø Tetrahydrofuran (THF)
- Ø 2-Methyl THF

Acetals:

- Ø 1,3-Dioxolane
- Ø Ethylal
- Ø Methylal
- Ø Butylal

Specialty chemicals:

- Ø Phenyl Boronic Acid
- Ø 20% KTB in THF
- Ø Custom Grignard's
- Ø ETT

Our Strengths:

- **Consistent Supply:** Multiple manufacturing setups ensure uninterrupted production.
- **Quality & Compliance:** Advanced testing (GC-MS), global certifications, and full documentation including VQ and regulatory declarations.
- **Experience:** Serving 500+ customers globally, especially in pharmaceuticals.
- **R&D & Customization:** DSIR-approved facility for tailored solutions.

With decades of expertise and a strong focus on quality and reliability, KCIL is committed to supporting your business with innovative and customized solutions.

6J09**Kajay Remedies Pvt. Ltd.**

Contact Person: Mr. Sankalp Saboo, Director

Kajay Remedies Pvt. Ltd. is a **GMP CERTIFIED** specialty chemical and pharmaceutical intermediate manufacturer based in Badlapur (near Mumbai), India. With over 3 decades of manufacturing expertise, the company has established itself as a reliable supplier of high-purity phenolic intermediates to global pharmaceutical, agrochemical, dye, and specialty chemical industries.

The company specializes in the production of **Nitrophenols, Aminophenols, and other derivatives**, which serve as key intermediates for **pharmaceuticals, hair dyes, agrochemicals, and advanced chemical applications**. Kajay Remedies is particularly recognized for its strong capabilities in products such as **4-Aminophenol (GMP Certified), 4-Nitrophenol, and Ortho Aminophenol**, manufactured with a strong focus on purity, consistency, and process efficiency.

In addition to intermediates, the company has developed **Formiphen®**, a unique antifungal latex coagulation solution widely used in the natural rubber industry for converting natural latex into rubber sheets while preventing fungal contamination.

Kajay Remedies operates a modern manufacturing facility supported by experienced chemists and process engineers, enabling the company to offer **custom synthesis and contract manufacturing (CDMO) services** from laboratory scale to commercial production. The company has strong expertise in complex reaction chemistries including **alkaline hydrolysis, catalytic hydrogenation, nitration, and other specialty chemical processes**.

Driven by innovation, quality, and long-term customer partnerships, Kajay Remedies continues to expand its global presence by delivering **reliable chemistry, consistent quality, and customized manufacturing solutions** to customers worldwide.

We, KAMAL TECHNOPLAST PVT LTD situated at Silvassa where we are Manufacturing HM HDPE plastic drums ranging from 20 ltrs To 250Ltrs and moreover we have also one more plant at Palghar in the name of KAMAL CONTAINERS where we manufacture HM HDPE plastic carboys ranging from 5Ltr To 125ltr HM HDPE plastic barrels.

KAMAL CONTAINERS & KAMAL TECHNOPLAST PVT LTD is Gold Medalist from ATUL LTD, VALSAD for good quality and services.

KarbonWise Pvt. Ltd.

Contact Person: Mr. Tanmay Salkade
Address: 5th Floor, Kapil Towers, ISB Rd, Financial District, Nanakramguda, Hyderabad-500032, Telangana, India
Email: tanmay@karbonwise.com

KarbonWise is an end-to-end sustainability solutions provider combining smart technology platform and Advisory expertise to help organisations accelerate their sustainability, decarbonisation and compliance goals. By bringing together automation and expert advisory under one roof, KarbonWise enables organisations to move faster from data collection to action.

Our digital sustainability platform simplifies carbon accounting (Scope 1, 2 and 3), ESG data management and Life Cycle Assessment (LCA) for products and processes. Designed for complex manufacturing and chemical operations, the platform centralises data across plants, utilities, raw materials, logistics and suppliers, delivering accurate, traceable and audit-ready results. Companies can track emissions, monitor performance, identify reduction opportunities and generate reports aligned with global standards.

Complementing the platform is KarbonWise's sustainability consultancy, which supports companies beyond reporting. Our **experts work closely with teams on EcoVadis, CDP rating, BRSR reporting, decarbonisation roadmaps, science-based targets (SBTi), net-zero strategies, Scope 3 supplier engagement, LCA and climate risk assessments.** We also support compliance and disclosures aligned with GRI, CSRD, TCFD, and the GHG Protocol, helping organisations stay ahead of regulatory changes.

With deep **experience across manufacturing and process industries**, KarbonWise understands the challenges chemical companies face from data complexity to evolving compliance requirements. Our integrated platform plus consultancy approach ensures sustainability is not just reported, but embedded into business decision-making, driving measurable impact and long-term value.

King Star Freight Pvt. Ltd.

Contact Person: Mrs. Namrata Vaidya, Business Development Manager

Address: B-10, New Heritage, Near RBI Quarters, Dahisar (West).

Sales Office - #B-712, Northern Supremus, Shanti Nagar, S.V. Road Near, Dahisar (East) Metro Station, Dahisar (East), Mumbai-400068, Maharashtra, India

Email: namrata@kingstarfreight.com

Website: <https://kingstarfreight.com/>

King Star Freight Pvt. Ltd., established in 2013, is a freight forwarding and NVOCC agency headquartered in India. We specialize in freight forwarding, customs clearance, and inland transportation, with active operations across major Indian ports including Nhava Sheva, Kandla, Mundra, and Hazira.

Our global network covers key trade lanes such as the Far East, China, Japan, the Gulf, Mediterranean region, Europe, and Africa. One of our core strengths lies in chemical logistics, where we handle both ISO tanks and dry van containers. Our team of 21 experienced professionals is well-trained in hazardous cargo handling and strictly complies with IMO regulations.

Key Services & Capabilities:

- Registered MSME and licensed MTO operator approved by D.G. Shipping
- Non-exclusive agency and marketing partnerships with ISO tank operators
- Inbound and outbound ISO tank movements to and from India
- Ownership of ISO tanks available for trading, short- and long-term leasing, and sale
- Dedicated dry van division offering door pickup and customs clearance services for international clients

Additionally, we are pleased to share that our Director has recently established a new company in Dubai under the name **Pace Venture Logistics LLC**. While our primary focus continues to be freight forwarding and ISO tank agency services, this new entity strengthens our presence in the Middle East. Pace Venture Logistics LLC operates as a freight forwarder and ISO tank agent.

Liuminex Projects & Equipments Pvt Ltd.

Contact Person: Mr. Prakash Vind
Address: Plot No. 51, Near Winner Impex, Village Mahim, Chintupada, Palghar (West)-401404, Maharashtra, India
Email: liuminexprojects@gmail.com
Website: <https://liuminex.com/>

Liuminex Projects And Equipments Private Limited is a trusted name in the engineering landscape, specializing in the **design, fabrication, and supply of process equipment** for diverse industrial applications. With decades of experience and deep domain expertise, we deliver precision-engineered solutions that power some of the world's most demanding sectors — from oil & gas and petrochemicals to food processing and pharmaceuticals.

Our manufacturing operations, located in Palghar, Maharashtra, combine **cutting-edge technology, skilled manpower**, and strict adherence to global quality standards to ensure consistent excellence. At Prakash Industries, we don't just build equipment — we build trust, performance, and long-term partnerships.

What We Do

We design and manufacture a wide spectrum of custom and standard process equipment, including: Reaction Vessels, Shell & Tube Heat Exchangers, Reactors (Jacketed/Agitated), Distillation Columns, Storage Tanks (SS/CS), Mixers & Agitators, Modular Process Skids

Industries We Serve

Our solutions power a broad range of industries:

- **Chemical & Petrochemical**
- **Flavour & Fragrance**
- **Pharmaceuticals**
- **Food & Beverage**
- **Power & Energy**
- **Water & Wastewater**
- **Fertilizers & Agrochemicals**
- **Oil & Gas**

Manufacturing Capabilities

Our fully integrated facility features:

- Large fabrication bays for heavy and complex equipment
- Advanced plasma cutters, and rolling machines
- In-house NDT, hydrotesting, and third-party inspection setups

- AutoCAD based design and modelling
- Certified welders and qualified fabrication teams
- Strict QHSE protocols and documentation traceability

We Mahek Enterprise & Mahek Techno-chem Pvt Ltd are Importer & Distributors of World Class Products from the Internationally & Local Leading manufacturers.

We have an excellent presence in many industries like

- * Ceramics
- * Rare Earth Minerals
- * Paint & Coating
- * Agrochemicals
- * Pigment
- * Specialty chemicals
- * Ink
- * Composite(FRP)
- * Quartz

and many more to the majority of industries leaders for more than 20 Years with world class Quality of Products.

Here under find the list of Products we offer

Grinding Media of Hira Ceramic Japan (Sole Distributors for PAN India since 2005)

- * 92% High Alumina Ceramic Beads & Ball – B.D 2.2
- * Zirconium Silicate Beads – B.D 2.6
- * Zirconium Oxide Beads – B.D 3.8
- * Deburring & polishing media

Chemicals

- * Catalyst – MEKP
- * Accelerator – Cobalt CO & ACL Grade
- * Specialty Chemicals – TBPB, TBHP, BPO, DTBP, TBPEH.
- * Paint Driers

Raw Materials

- * Glass Fiber - CSM, DR, WR
- * Calcium Carbonates
- * China Clay & Wollastonite & Many Raw materials for Ceramic Industries

MakSpeed Technologies – Accelerating Flow Chemistry Adoption MakSpeed Technologies enables organizations to unlock the full potential of Flow Chemistry through deep expertise in process intensification and reaction engineering. We help customers accelerate batch-to-continuous development timelines, enhance safety, and maximize value realization—from laboratory evaluation to full-scale production. We partner with our customers at every stage of their Flow Chemistry adoption journey. Our structured approach begins with evaluating Flow

Chemistry as a platform technology for specific products and business needs, followed by identification and assessment of suitable batch-to-continuous conversion opportunities, focusing on operability, safety, and process feasibility. MakSpeed supports Proof-of-Concept (PoC) generation by experimentally demonstrating reactions in continuous mode and defining robust windows of operation. This is followed by process optimization using Design of Experiments (DoE) to improve conversion, selectivity, and productivity. Based on validated data and throughput requirements, we design and implement pilot- and production-scale continuous flow solutions. As a technology-driven company, MakSpeed designs and manufactures complete Flow Chemistry systems, including INTENSEFLO™ continuous flow reactors, AQFLO™ pulsation-free dosing systems, and AQTHERM™ thermal control units, enabling seamless scale-up from lab to production. We further support customers through equipment access, rental models, and partner facilities, allowing hands-on evaluation and data generation. Our data-driven, techno-commercial analysis ensures informed decision-making at every stage. MakSpeed delivers end-to-end, system-level Flow Chemistry solutions—making advanced continuous processing practical, accessible, and scalable.

Dear Sir,

Regards from MPL !

We hereby take this opportunity to approach your good office through this letter of Introduction. Sir, ours is an Engineering Company engaged in the manufacturing of Process Equipments for the Pharmaceuticals / Chemical / Agro Industry for the last 4 decades. We design and fabricate these equipments as per relevant Indian / International code of Fabrication like ASME / TEMA / IS 2825 etc. We offer the following equipments with properly selected material of construction of superlative quality and esthetic finish :

(1) PROCESS EQUIPMENT

- REACTION VESSELS
- RIBBON BLENDERS
- DISTILLATION COLUMNS
- HEAT EXCHANGERS / CONDENSERS (SHELL & TUBE TYPE)
- PRESSURE VESSEL
- STORAGE TANKS

(2) DRYERS

AGITATED NUTCH FILTER DRYER
VACUUM TRAY DRYER
RCVD – ROTA CONE VACUUM DRYER
RVPD – ROTARY VACUUM PADDLE DRYER

(3) FILTRATION EQUIPMENTS

VACUUM NUTCH FILTER
PRESSURE NUTCH FILTER
AGITATED NUTCH FILTER

Our endeavor is to serve your esteemed organization to your entire satisfaction. Looking forward to hear from you.

Maruti Petrochem is a trusted importer & distributor of high-quality chemical products, serving a wide range of industries including pharmaceuticals, food processing, flexible packaging, printing, inks, and cosmetics. Our

product portfolio includes specialty chemicals, solvents, and intermediates in both liquid and non-liquid forms, tailored to meet diverse industrial needs.

In the pharmaceutical sector, our chemicals and solvents play a vital role in the development of APIs and various dosage forms such as tablets, injectables, and capsules. Our solutions help enhance product quality, stability, and production efficiency. We are certified and compliant with FSSAI, US FDA, Drug License, REACH, and ISO standards, reflecting our dedication to safety, quality assurance, and responsible trading practices.

At Maruti Petrochem, our strength lies in how closely we work with our customers. We take time to understand their processes, quality expectations, and regulatory challenges before supplying any material. This practical approach helps us recommend products that actually work in real production environments, not just on paper. Many of our clients rely on us for consistent grades, dependable lead times, and clear communication, factors that matter most in day-to-day operations.

We maintain strong relationships with our suppliers to ensure dependable supply and timely deliveries, allowing our customers to focus on manufacturing without disruption. Whether it involves arranging urgent material or sourcing a difficult product, we remain closely involved until the requirement is fulfilled. Our growth has been driven by repeat business and long-term trust, built on reliability, honesty, and consistent performance.

Mody Chemi Pharma Ltd.

Contact Person: Mr. Bhavesh Mody, Director
Address: B/605 Raheja Plaza, LBS Marg, Ghatkopar (West), Mumbai-400086, Maharashtra, India
Phone: +91 9821051185
Email: modychem@modychem.com
Website: <https://www.modychem.com/>

Established in the year 2002 at Mumbai, Maharashtra, India, we "**Mody Chemi - Pharma Ltd.,**" are one of the leading manufacturers and exporters of a wide range of **Bromine & Brominated & Lithium Compounds**. With the available product range offered under category heads like **Catalyst, Lithium Salts, Inorganic Bromo Compounds, Hydantoin, Bromide Salts, Aliphatic and Acid Bromide, Bromates, Dibromo Alkane and Organics Bromo Compounds,**

we ensure each of the product being offered delivers best of usage value in defined applications.

As an ISO 9001:2015 Certified Company, our well defined business operations are led by experienced management who ensures the involved business operations are handled in the best possible way and customers are given benefits of quality products at competitive prices. Further, our team of experienced industry professionals also ensures Bromine as well as other Brominated Compounds offered meets requirements of different industry sectors like **Bulk Drugs and Intermediates, Aromatics and Perfumery, Pesticides, Dyes and Dyes Intermediates, Paint and Plastic, Aromatics and Perfumery, Acrylic Sheets and Acrylic Resins and Fine Chemicals.**

Today, we are successfully meeting the demands of both our Indian and overseas customers. Further, our well developed infrastructure support system has also allowed us to expand our portfolio with launching range of products like liquid bromine /hbr 48% 2,2 AzobisIsoButyroNitrile, 1,3- Dibromo- 5,5 - Dimethylhydantoin (DBDMH), 1,3- Dichloro- 5,5-Dimethylhydantoin(DCDMH), Diphenylacetoneitrile, Tetra Butyl Ammonium bromide, Lithium Bromide, N-Bromo Succinimide, Cuprous Bromide and its salts.

Mohini Organics Pvt. Ltd.

Contact Person: Mr. Ronak Manglunia, Vice President
Address: 210 Mahavir Industrial Estate, Kachpada Ramchandra Lane Extn., Malad (West), Mumbai-400064, Maharashtra, India
Phone: +91 022 66669159/689440
Email: info@mohiniorganics.com
Website: <https://www.mohiniorganics.com/>

Mohini Organics Pvt. Ltd. (MOPL) started in 1992 at Tarapur MIDC, Maharashtra, India, founded by Mr. M. Kanoi with ICI India Limited's support. Initially producing Sorbitan Mono Oleate for explosives, MOPL expanded into cosmetics, food, leather, and textiles with Sorbitan Esters like Monemul-20, -40, -60, and -85. Known for quality and timely delivery, MOPL bridged supply gaps, earning user respect.

Success led to developing Glycerol Esters, Glycol Esters, Polyethylene Glycols, and more for high-temp lubricants, metalworking, and cosmetics. MOPL became a reputed fatty acid ester manufacturer. They then produced Polysorbates (Monebat series), equivalent to international grades, leveraging their raw material base. Today, MOPL offers specialty chemicals with a focus on quality and customer needs.

Mohini Organics has grown into a trusted specialty chemical manufacturer, innovating and delivering critical products across industries. With a legacy of reliability, they continue to meet evolving customer demands.

Myrtace Healthcare Private Limited

Contact Person: Dr. Sakthivel C, Managing Director
Address: Plot No. 29, 2nd Main Road, SIPCOT Phase 2, Hosur-635109, Tamil Nadu, India
Phone: +91 4344 420084
Email: sakthi@myrtace.com
Website: <https://www.myrtace.com/>

Myrtace Healthcare Private Limited is a research-driven pharmaceutical company providing **CRAMS and CDMO services** to chemical and pharmaceutical organizations. Founded by a team of young professionals and technologists, we combine strong scientific expertise with operational flexibility to deliver customized and reliable solutions across multiple stages of product development.

Our core capabilities include **process development and custom synthesis** of:

- **New Chemical Entities (NCEs)** from milligram to kilogram scale
- **Advanced pharmaceutical intermediates** from kilogram to bulk scale
- **Specialty and fine chemicals**
- **Impurity and metabolite standards**
- **Stable isotope-labelled compounds**

We execute projects from **milligram to kilogram and commercial scale**, supporting discovery research, route scouting, process optimization, scale-up, and manufacturing readiness. Our collaborative and transparent working model ensures close alignment with client specifications, quality requirements, regulatory expectations, and delivery timelines.

Our team of experienced **Synthetic Organic Chemists** specializes in complex, multi-step synthesis and challenging chemistries. We leverage advanced synthetic methodologies, modern analytical tools, and scalable process development approaches to ensure robustness, reproducibility, and consistent quality across development stages.

Driven by a strong commitment to **quality, confidentiality, and long-term partnerships**, Myrtace Healthcare positions itself as a dependable CRAMS/CDMO partner delivering technically sound, cost-effective, and scalable solutions for global pharmaceutical R&D and manufacturing programs.

Established in **1997**, **Nandadeep Chemicals Pvt. Ltd.** is a leading manufacturer of **sulfonated specialty chemicals**, recognized for its technical expertise, process reliability, and consistent product quality. We serve customers across the **pharmaceutical, agrochemical, petrochemical, and specialty chemical** sectors, both in **India** and **international markets**.

We operate **three state-of-the-art manufacturing facilities** located at **Lote, Ratnagiri (Maharashtra, India)**. All units are **ISO 9001:2015 certified** and function in accordance with **GMP guidelines**, supported by robust **quality control, analytical testing, and traceability systems**.

Our core product portfolio includes **Para Toluene Sulfonic Acid (PTSA), Thiophenol, Sodium Xylene Sulfonate (SXS), Sodium Toluene Sulfonate (STS), Sodium Cumene Sulfonate (SCS), Pyridinium p-Toluene Sulfonate (PPTS), and Phenol Sulfonic Acid (PhSA)**. These products are widely used as **catalysts, intermediates, surfactants, and functional additives** in high-performance formulations and chemical processes.

Application industries are **Foundry, Polymer, Pharma, Agrochemical, Paint, Oilfield chemicals** and other chemical industries.

Beyond standard products, we offer **contract and custom manufacturing solutions**, backed by strong **process development and scale-up capabilities**.

Our technical infrastructure supports **sulphonation, chlorination, bromination**, and other specialized reactions, enabling us to meet complex synthesis and performance requirements.

At Nandadeep Chemicals, we focus on **value creation through technical collaboration**, competitive pricing, flexible packaging options, and dependable delivery. We partner closely with our customers to deliver **tailored chemical solutions** aligned with their specifications, volumes, and supply chain needs.

Nayakem Organics Private Limited

Contact Person: Mr. Ashok Nayak, Manager

Address: B-1101, 11th Floor, Naman Midtown, Senapati Bapat Marg, Near Prabhadevi Station, Mumbai-400013, Maharashtra, India

Email: nayakem@hotmail.com

Website: <https://nayakem.com/>

Nayakem is a well-established plasticizer manufacturer where we take practical steps to cater to our global clients. We have the widest range of plasticizers

delivered worldwide. Our products are made by combining incredible workforce with cutting edge machinery. It has been more than 4 decades since we started, and we look forward to grow as a trusted partner to our customers.

Plasticizers / plasticisers are oil-based additives. They are primarily used to alter physical properties of a material. Therefore, these are used to soften a material by increasing its flexibility or decreasing its viscosity. Plasticizers are either liquids with low volatility like Benzoates, Maleates, and Phthalates, or solids. Each are chosen based on their polymer compatibility. Moreover, the desired properties of the end products also matters. Choosing the right plasticizer with polymer is necessary because it protects from leaching out of the products. Thus, safeguarding from losing the benefits of plasticization. The most common applications include Polyvinyl Chloride(PVC) based products. PVC is used largely for construction, automotive, wire & cable sectors. Plasticizers are also used in non-PVC based products. For example: coatings, rubber products, adhesives and sealants.

Know more about every variety of products available at Nayakem in the following section:

- ADIPATES
- MALEATES
- BENZOATES
- PHTHALATES
- SEBACATES
- STEARATES
- POLYMERIC

Neemcco

Contact Person: Mr. Nitin Shah

Address: 264/9, Panchshil, Sion (West), Mumbai-400022, Maharashtra, India

Email: office@neemcco.com

Website: <https://neemcco.com/>

Established in 1969, NEEMCCO is India's first indigenous manufacturer of hypophosphites and a pioneer in specialty phosphorous chemistry. For over five decades, we have defined the "Chemistry of Transformation," delivering high-purity hypophosphites and derivatives that power critical global industries.

Our manufacturing excellence is built on a diverse range of specialty compounds. Our product range includes Hypophosphorous acid, Sodium Hypophosphite, Calcium Hypophosphite, Magnesium Hypophosphite, Aluminum Hypophosphite and Nickel Hypophosphite, —all produced under strict quality control to ensure purity, consistency, and performance.

NEEMCCO compounds are the driving force behind innovation across diverse industries. In resin synthesis, they enhance durability and performance as antioxidants and color stabilizers, while in pharmaceuticals, they serve as precise reducing agents and antioxidants. In veterinary and agricultural applications, they provide a bioavailable source of phosphorus, supporting animal nutrition and crop health. In polymers, they improve material strength and provide halogen-free flame retardancy, while in aerospace, and electronics, our products enable high-precision electroless plating and the formation of specialized conductive layers for advanced applications.

Operating with ISO 9001:2015, WHO-GMP, and Halal certifications, NEEMCCO combines decades of technical expertise with world-class quality standards. Trusted by leading brands across North America, South America, Europe, and Asia, we offer customized solutions to meet complex industrial challenges.

Address: Sixth Floor, B-602, Delta Central, Sector-23, Plot No 04, Near Central Park, Kharghar, Navi Mumbai-410210, Maharashtra, India

Email: office@northstonecorp.com

Website: <https://www.northstonecorp.com/>

NORTHSTONE CORP is a growing **Detailed Engineering and Project Management Consultancy** supporting leading Indian and multinational organizations across the **process, chemical, fertilizer, oil & gas, and industrial sectors**. We partner with clients across the project lifecycle, providing structured, execution-focused engineering support aligned with business objectives.

An **ISO 9001:2015 certified company**, NORTHSTONE CORP emphasizes **quality systems, coordination, and on-time delivery**. Our services range from **design proof checking, auditing, and value engineering to complete project execution and handover**, ensuring technical accuracy and constructability from early stages.

Our multidisciplinary team of **100+ engineers** operates across multiple engineering offices and project sites in India. This distributed presence enables seamless integration between **design teams, equipment**

vendors, contractors, and site teams, resulting in faster issue resolution, better adherence to timelines.

Over time, NORTHSTONE CORP has built a reputation for delivering **practical, constructible, and cost-effective engineering solutions**. Our approach is driven by disciplined planning, structured communication, and a strong understanding of execution challenges. By working closely with client teams, we help **reduce rework, shorten timelines, mitigate risks, and enable informed technical and commercial decision-making** throughout the project lifecycle.

As part of our growth strategy, NORTHSTONE CORP is expanding into **turnkey warehouse and industrial infrastructure projects**, while developing **technology partnerships** to enhance engineering efficiency and project visibility. Our mission is to support industries with **smarter, safer, and faster engineering excellence**, acting as a dependable engineering partner from concept to commissioning.

1. Polyacrylamide (PAM) / Polyelectrolytes

These are high-molecular-weight, water-soluble polymers supplied as powders (cationic, anionic, non-ionic) used mainly as **flocculants and coagulants** in various industries.

2. Partially Hydrolyzed Polyacrylamide

A modified polyacrylamide with enhanced properties, used as a **flocculant, thickener, stabilizer, and lubricant** in several applications.

3. Water & Wastewater Treatment

- Municipal sewage treatment (STPs/ETPs)
- Industrial wastewater streams

- Coal and mining wastewater
- Textile, chemical, and food processing effluents

4. Oil & Gas Industry

- **Drilling fluids** to modify viscosity and stabilize shale
- **Enhanced oil recovery (EOR)** through mobility control
- Separation and clarification of produced water and oily wastewater

5. Mining & Mineral Processing

- Clarification of mining effluents
- Dewatering of mineral slurries and coal wash water
- Solid-liquid separation in metallurgical operations

6. Paper & Pulp Industry

- **Retention and drainage aids**
- **Dry strength agents**
- Sludge conditioning agents
- Improving paper machine efficiency and water recovery.

Octobotics Tech Pvt. Ltd.

Contact Person: Mr. Ashish Kumar, Chief Operations Officer

Address: 1st Floor, Plot No. 46, Sector 138, Noida-201305, Uttar Pradesh, India

Email: ashish@octobotics.tech

Website: <https://www.octobotics.tech/>

Octobotics Tech Private Limited is a pioneer in Asset Integrity and Advanced Non-Destructive Testing (NDT) through cutting-edge robotics. We specialize in developing innovative tools designed to bridge the gap between human capability and the "Billion-Dollar Blind Spot" of inaccessible industrial assets. Our mission is to eliminate the "Accessibility Tax"—the prohibitive cost of scaffolding that often exceeds the price of the inspection itself.

Our flagship innovation, **Reach Master**, is a revolutionary telescopic NDT system that disrupts

FEATURING MANUFACTURING EXCELLENCE

traditional maintenance workflows. While human reach typically stops at 2 meters, Reach Master enables a single operator to perform high-precision Ultrasonic Thickness (UT) measurements at heights of up to 18 meters for tanks and 10 meters for pipelines—all while standing safely on the ground. By overcoming “real-world” obstacles like wind girders and complex pipe rack geometries that defeat traditional crawlers, we ensure no critical asset goes unmonitored.

Octobotics’ solutions significantly enhance data integrity and safety. By inspecting live tanks and assets before scheduled maintenance shutdowns, we enable an early scope freeze, allowing for precise planning and massive cost savings. Our technology has successfully transformed integrity programs for leading chemical companies, eliminating the need for extensive scaffolding, reducing operational downtime, and providing the data-driven insurance needed against catastrophic failure. At Octobotics Tech, we help you **stop climbing and start inspecting**.

Ode Chem LLP

Contact Person: Ms. Rinki Jain, Designated Partner
Address: Office No:6, Mahavir Mansion, 2nd Khattergalli, 21st Thakurdwar Road, Mumbai-400002, Maharashtra, India
Email: sales@odechem.com
Website: <https://odechem.com/>

Ode Chem Industries: Driving Chemical Innovations

Ode Chem Industries, a specialized division of Ode Chem LLP, excels in manufacturing **bulk chemicals**, **fine chemicals**, and **performance chemicals** for pharmaceuticals, nutraceuticals, food, textiles, and water treatment sectors. Our ISO-compliant production ensures purity grades like LR, AR, ACS, and Pharma & Food Pass to address stringent client specifications.

Phosphate Chemistry Expertise

As **phosphate chemistry experts**, we produce key compounds including Phosphate salts like Sodium salt, Potassium salt, Calcium Salts, Ammonium salts and variants. These support API, Intermediates, Detergents and Buffering applications in pharma and industrial processes.

Activated Carbon Production

Our **activated carbon production** features high-grade Granular, Powder & Pellets of Activated Carbon for decolorization, filtration, and purification in wastewater treatment, gold recovery, and air filtration. Sustainably sourced, these products deliver superior adsorption for environmental and pharma compliance.

With facilities optimized for B2B scalability, Ode Chem Industries offers competitive bulk pricing, custom formulations, and global logistics.

OEM Update – Focused on Industrial Manufacturing

Automotive | Aerospace | Defence | Construction | Steel | Pharma & More

OEM Update is a premier media platform dedicated to the industrial manufacturing sector. It delivers insightful news, expert analysis, and updates on emerging technologies and trends shaping the future of manufacturing. The publication covers processes, machinery, automation, and materials innovations across key industries, including automotive, aerospace, defence, construction, steel, and pharmaceuticals.

With a strong presence across print and digital platforms in the SAARC region, OEM Update also engages a wide professional audience through its active channels on LinkedIn, Facebook, and YouTube. Its comprehensive content makes it an essential resource for manufacturing professionals looking to stay informed and competitive in a rapidly evolving industry.

Website: <http://www.omkarlab.com>

Omkar Lab, established in 2015, is an ISO 9001:2015 certified company dedicated to manufacturing and developing superior quality catalysts and hydrogenation technologies. With a combined 60 years of expertise and a strong in-house R&D team, Omkar Lab has emerged as India's only catalyst manufacturer offering end-to-end support from catalyst development to hydrogenation solutions.

The company specializes in **Nickel and Precious Metal (Pd, Pt, Ru, Rh, Ir, etc.) homogeneous and heterogeneous catalysts**, serving leading API manufacturers, intermediates, agrochemicals, and fine chemical industries. Its product portfolio includes Raney Nickel, fixed bed catalysts, precious metal supported catalysts, and cross-coupling catalysts, alongside recovery and refining services for precious metals. Omkar Lab's advanced infrastructure enables catalyst screening, process optimization, and pilot-scale manufacturing, ensuring tailored solutions that reduce costs, streamline processes, and minimize waste.

A hallmark of Omkar Lab is its commitment to **safe, cost-effective, and green hydrogenation technology**. With facilities ranging from gram-scale to tons-level hydrogenation, the company provides contract manufacturing backed by sophisticated analytical testing. Its fixed bed hydrogenation facility and commercial testing lab further reinforce reliability and precision.

Driven by innovation and sustainability, Omkar Lab also offers **regeneration, recovery, and recycling of used / unused catalysts in any form**, helping clients lower operational costs while promoting environmental responsibility.

Guided by its vision to consistently surpass customer expectations, Omkar Lab continues to modernize and transform the catalyst and hydrogenation landscape, positioning itself as a trusted partner for industries seeking efficiency, safety, and sustainable growth.

We specialize in manufacturing high-quality machinery for the pharmaceutical, API, and chemical processing industries. Established in 2010, we serve diverse sectors including pharmaceuticals, water treatment, bulk drugs, chemicals, intermediates, formulations, food, paint, herbal, cosmetics, and Ayurveda industries.

Our expertise lies in designing and manufacturing Dryers and Blenders in various standard sizes and capacities, available in both standard and GMP-compliant models. We are committed to delivering reliable, high-performance equipment tailored to specific client requirements, ensuring adherence to ISO and GMP guidelines.

Our manufacturing capabilities include equipment in Mild Steel, Stainless Steel (SS 304, SS 316, SS 316L, SS 904, SS 904L), Duplex Steel, and more. We offer multiple size options, extensive customization, safety features such as FLP/PLC control panels, complete documentation, third-party inspections, flexible payment terms, and ex-stock machines.

Product Range:**Semi Solid & Cosmetics:**

Ointment/Cream/Gel/Toothpaste Manufacturing Plants, Tube Filling & Sealing Machines, Shampoo/Lotion Plants.

OSD Section:

Fluid Bed Dryer, Rapid Mixer Granulator, Octagonal Blender, IBC Bin Blender, Auto Coater, Vibro Sifter, Multi Mill, Starch Paste Kettle, Tray Dryer, Mass Mixer, Ribbon Blender, V Blender, Coating Pan, Double Cone Blender, Capsule Filling Machine.
Liquid Oral: Liquid/Syrup Plants, Filling & Sealing Lines, Sparkler Filter Press, Nutch Filter, Basket Filter.

API/Bulk Drug/Chemical:

Fluid Bed Dryer, Blender, Vibro Sifter, Multi Mill, Tray Dryer, Ribbon Blender, SS Reactors, Filter Press. Ayurveda: Tray Dryer, Mass Mixer, Blender, Coating Pan, Vibro Sifter, Multi Mill, Starch Kettle, Capsule Machines.

Paresh Chemical Corporation is a trusted name in the import, distribution, and supply of chemicals across India. Since our establishment in 1981, we have been committed to delivering superior quality raw materials to various industries.

We have ample warehousing space in Bhiwandi, Maharashtra, which serves as a hub for storage of material and dispatch, ensuring smooth and timely deliveries.

We are registered under the Authorized Economic Operator (AEO) program of the Indian Customs.

Products We Offer**SOLVENTS - :**

Acetophenone, DMF, DMSO, Epichlorohydrin, Formic Acid, Isobutanol, Mixed Xylene, Toluene, MEG, **DEG, TEG**.

ETHYLENE OXIDE DERIVATIVES AND GLYCOL ETHERS :

PEG 200, 400, 600, PEG 2000, 4000, 6000, Monoethanolamine, Diethanolamine, Triethanolamine, Butyl Carbitol, Butyl Carbitol Acetate, Butyl Cellosolve, Butyl Cellosolve Acetate, Ethyl Cellosolve, Ethyl Carbitol, Methyl Cellosolve, Methyl Carbitol, Nonyl Phenol Ethoxylates, Castor Oil Ethoxylates, TDA Ethoxylates, Lauryl Alcohol Ethoxylates, Polysorbates.

PROPYLENE OXIDE DERIVATIVES AND GLYCOL ETHERS - :

PPG 400, 1000, 2000, 4000, Propylene Glycol Monomethyl Ether (PM), Propylene Glycol Monomethyl Ether Acetate (PMA), Dipropylene Glycol Methyl Ether (DPM)

MONOMERS - :

Acrylic Acid, Butyl Acrylate, Ethyl Acrylate, 2-Ethyl Hexyl Acrylate, Methacrylic Acid, Methyl Methacrylate.

SPECIALITY AMINES :-

Ethylene Diamine, Diethylene Triamine, Triethylene Triamine

SOLIDS :-

Adipic Acid, Benzoic Acid, Bisphenol A, Pentaerythritol, Paraformaldehyde (91% & 96%), Potassium Carbonate, Sodium Persulphate

We are a specialized manufacturer of high-quality equipment for the pharmaceutical, processing machineries. Since 2007, we have been providing reliable solutions, offering a wide range of products such as Vibro Sifters, Multi Mills, Tray Dryers, Octagonal Blenders, Zero Hold-Up Filter Presses, and Colloid Mills. Our equipment is available in both standard and cGMP models, and we also supply comprehensive spare parts to meet our clients' needs.

We are an R & D focused Company which aims to make India self-dependent upon organo chemical compounds mainly mercaptan series products. We started this business to ensure our imports go Low in the coming days which can help India to save a good amount of foreign exchange. We believe organo chemicals are basically important for various industries, like perfumery, agrochemicals, pharmaceuticals, food supplements etc and foresee India being a rich in-terms of all of these segments in world map for its market share as well as in terms of domestic consumption.

We strongly feel that we can add value in supplying these products to our co-partners who all are making India grow on the world's map. We keep on doing R&D to improve our process for making all essential products in these segments, and also we are ensuring we follow world class EHS and Schedule-M compliance.

3A10**PHE Sealing Solutions Pvt. Ltd**

Contact Person: Mr. Raghav Arora, Head of Sales and Marketing

Address: Behrampur Road, Khasra No. 1192/1, Killa No. 1164, Khandsa Rd, Opposite Evergreen, Gurgaon-122001, Haryana, India

Email: info@phe-gaskets.com

Website: <https://phe-gaskets.com/>

PHE Sealing Solutions Pvt. Ltd. is a leading manufacturer and global supplier of **Plate Heat Exchanger (PHE) gaskets and plates**, serving a wide spectrum of process industries worldwide. Our solutions are trusted across sectors including **Marine, Power Plants, Chemicals, Dairy, Distilleries, Sugar Mills, Sulphuric Acid, Refrigeration, HVAC, Oleum, Paper Mills**, and more, with supplies reaching **over 20 countries**.

We specialize in **replacement PHE plates and gaskets** compatible with a comprehensive range of international makes, including:

Alfa Laval, GEA/Kelvion, Tranter, HRS/Funke, APV,

Sondex, Fischer, Thermowave, SWEP/Reheat, Pasilac, Schmidt, and Hisaka.

Our gasket manufacturing capabilities cover a broad range of elastomers such as **NBR, EPDM, HNBR, FKM/Viton, FKMG, FKMS, and Neoprene**, developed to suit demanding thermal, chemical, and pressure conditions. We also supply PHE plates in multiple metallurgy options including **SS316L, SS304, Titanium, C276, Ti-Pd, and Nickel**, ensuring compatibility with diverse process applications.

What differentiates PHE Sealing Solutions is our strong focus on **quality, responsiveness, and technical reliability**.

Swift Response: With extensive stock of gaskets and plates, we ensure quick dispatch through established logistics networks. **Quality Materials:** All rubbers and chemicals are sourced from authorized distributors of globally recognized brands such as Arlanxeo, DuPont, and Akzo Nobel. **Tailored Solutions:** We offer customized solutions, including development of new models and molds to meet specific customer requirements. **Rigorous Testing:** An in-house testing facility ensures strict quality control at every stage of manufacturing. **Global Reach, Local Support:** Headquartered in India with a branch office in Toronto, Canada.

4B17**Phychem Technologies Limited**

Contact Person: Mr. Umakant Savadekar, Director

Address: Gat No.172, At Post - Khatwad, Tal - Dindori, Nashik Dist.-422004, Maharashtra, India

Email: umakant@phychem.com

Website: <https://www.phychem.com/index.html>

Phychem Technologies Ltd. is a leading manufacturer and supplier of specialty polymer grades for rotolining applications, including **PP, PE, and ETFE**. In addition to material supply, we provide comprehensive **rotolining services** to chemical and pharmaceutical equipment manufacturers.

We are well equipped with advanced **rotomolding machines** specifically designed for rotolining applications and have a fully **in-house testing facility** to ensure consistent quality and performance. We have successfully executed numerous rotolining projects, many of which have been supplied to **US and European markets**.

With our strong **in-house raw material expertise** and deep knowledge of the **rotolining process**, we are well prepared to undertake even the most **challenging rotolining projects**. Our manufacturing facility is located in **Nashik**, strategically positioned with excellent connectivity to the **Maharashtra and Gujarat industrial belts**.

Pi-Process Intensification Experts LLP

Contact Person: Mr. Madhav Sapre, CTO
Address: B-87, Platinum Springs, MIDC Road,
Taloja MIDC Area, Raigad, Navi Mumbai-410208,
Maharashtra, India
Email: ms@pi-inc.co
Website: <https://pi-inc.co/>

Introduction: Pi-Process is an independent organization in Flow & continuous manufacturing technologies since year 2012 with a mission to promote Sustainability solutions.

Pi-Process renders their services & expertise through:

- State-of-the-Art customer centric R&D Flow lab, equipped with advanced Analytical set-up.
- Represent International Companies whose Flow reactors have been proven globally for Hazardous & Complex Chemistries in:
 - APIs & its intermediates
 - Fine & Specialty chemicals
 - Agrochemicals
- Engineering Design & Project consultation
- Technology development
- Process Engineering
- Hand holding projects from lab scale till Scale-up.

Pi has team of PhDs & Engineers having decades of industrial experience in Pharma & chemicals.

Vision: Catapult the system- Innovations across the Pharmaceutical & Chemical industries to have global sustainable development, through Atom efficient, Safest, High quality, economical production facility.

Mission : Alleviate Global issues of Competitiveness, safety, carbon footprints

GREEN GOAL: Successful implementation of the developed green chemical processes that rely on the Flow/continuous reactors & separation technologies to deliver enhanced specific processes performance in a safe, atom- energy efficient, quality, cost & overall viability.

FLOW REACTORS: Makes Complex Chemistry Simple

- Highly Corrosive
- Rapid/Unstable
- Highly Exothermic
- Toxic
- Photochemical
- Chain / Multi-Step
- High Pressure & Temp(-70 to 250C)
- Solid, Liquid & Gas
- Neat

PRINCIPALS PARTNERS: For Lab / Commercial scale

1. Vapourtec Limited, 2. Kinetichem Inc. 3. Chemtrix,
4. Autichem Limited, 5. AM Technology 6.LTF, Germany 7. Zaiput Flow Technologies.

B. High Precision Pumps: Fuji

Polmon Group

Contact Person: Mr. Tajammul Hussain, Marketing Manager
Address: Polmon House, Nizampet Road, Kukatpally, Hyderabad-500085, Telangana, India
Phone: +91 040 23057308
Email: mktg@polmon.com
Website: <https://www.polmon.com/>

About Polmon

For over 30 years, Polmon has pursued innovation, quality, and excellence with unwavering commitment. Today, we are firmly positioned among India's leading Measuring & Control Instrumentation and Automation solution providers, playing a vital role in the Life Sciences and Pharmaceutical industries. Our products are widely used across Production, Quality Control, Raw Material Analysis, Warehousing, Finished Goods, and other critical functions.

At Polmon, innovation is driven by market insight. We translate technological advancements into practical, customized solutions that deliver measurable performance. Our strength lies in actively listening—to global industry developments, evolving customer expectations, and our own culture of continuous improvement. This approach has enabled us to successfully support more than 1,500 clients in meeting international standards of quality, compliance, and competitiveness.

Our diverse, technology-driven portfolio is designed to meet stringent regulatory, safety, and productivity requirements, with standardization, customization, and consistent performance as core principles.

Quality assurance remains central to our operations. Since achieving our first ISO certification in 2005, we have maintained continuous re-certifications through 2008, 2011, 2014, 2015, 2018, 2020, and 2023, reflecting our sustained commitment to process excellence. We align our benchmarks with NABL standards to ensure reliability and precision.

Based in Hyderabad, our facilities are equipped with state-of-the-art infrastructure and regularly upgraded technologies, enabling us to deliver timely, high-quality solutions that anticipate industry needs.

Prabhat Global Industries Ltd.

Contact Person: Mr. Sparsh Ratta, AGM International Business Development

Address: Village - Kurali, Indri Road, Karnal-132001, Haryana, India

Email: sparsh@prabhatagri.com

Website: <https://www.prabhatagri.com>

With due honor we take immense pleasure in introducing to you Prabhaat Global Industries Limited, a pioneer in manufacturing & export of Agriculture inputs in India since 1974. With a state of art manufacturing facility in Karnal, Haryana Prabhaat is a multifaceted organization with a high degree of focus in **Micronutrients, Bio-fertilizer, Bio-pesticides, Bio-Stimulants, Organic fertilizer & Organic manure**. Currently we have the **LARGEST PRODUCTION FACILITY FOR MICRONUTRIENTS LIKE - ZINC SULPHATE, MAGNESIUM SULPHATE, COPPER SULPHATE, MANGANESE SULPHATE, FERROUS SULPHATE, MICRONUTRIENT MIXTURE, ZINC EDTA, IRON EDTA and many more products.**

We have various prestigious accreditations including **IMO, FAMI-QS, ISO 9001, ISO 14001, ISO 18001, HACCP & WHO-GMP** to confer our unmatched product quality. For all our organic products we have "ORGANIC CERTIFICATION" by the Government of India. For our best product quality we have also been awarded "THE NATIONAL QUALITY AWARDS – 2012 FOR BIOTECHNOLOGICAL PRODUCTS" by Honorable Prime Minister of India and further we have also received "THE NATIONAL AWARD – 2014" for Outstanding Entrepreneurship by Government Of India.

We do have ZED GOLD CERTIFICATE (ZERO DEFECT ZERO EFFECT) from QUALITY COUNCIL OF INDIA (QCI), GOVT OF INDIA.

We have our strong presence in Export and presently exporting our Micronutrients namely Zinc Sulphate Heptahydrate & Zinc Sulphate Monohydrate (Agriculture/Animal Feed/Industrial Grades) in Bulk to various regions and continents such as ASIA, AFRICA, USA, LATAM, MIDDLE EAST, EUROPE with presence in more than 35+ countries across the world.

Website: <http://www.prafulventure.co.in>

We are pleased to introduce 'PRAFUL GROUP', established since 1995, as a well established Indentors, Importers, Stockist & Distributors, and Exporters of various Chemical products, based in Mumbai and catering to various Industries like Pharma, Agrochemicals, Water Treatments, Paints, Coating, Resins, Construction Chemicals, Adhesives, Dyes, Pigments etc.

We also act as buying & selling agents for various overseas principals from countries like Korea, China, Japan, Singapore, Europe, Turkey, Russia, Central & South America etc.

We are also engaged in manufacturing & supply of Biomass Briquettes and Pellets for Industrial boilers. We add value additions to supply chain of various corporate giants & also offering comprehensive Packaging Solution.

Our offers for Paints & Coating industry are Isophorone Diamine (IPDA), HDI, IPDI, PEA, Epoxy Resin, Epichlorohydrin, Benzoic Acid, Benzoin, Acrylic Acid, Acrylates, PM, PMA, MIBK, Glycol Ethers, SM, MX, Toluene, MEK, Phthalic Anhydride, Maleic Anhydride, PG Tech, Melamine, Adipic Acid, NPE 9.5Mol, etc.

- We are exclusive distributors of NHU Performance Materials GmbH for IPDA.
- We are leading distributors of Epigral (Former - Meghmani Finechem Ltd.) for Epichlorohydrin.

We co-ordinate the dispatches and deliveries in the most efficient manner, maintaining uninterrupted supplies and quality of material, results to the utmost satisfaction of the customers. We are open for entering long term contracts with you or to deal with your requirements on case-to-case basis.

Request to advise us about your requirements or kindly give us an opportunity for personal meeting with you for the further

Email: chetan@prakashchemicals.com
Website: <http://www.pcaplindia.com/index.aspx>

Prakash Group – Global Chemical Solutions Partner

Prakash Group is a pioneering force in chemical distribution, trading, and contract manufacturing, with a strong global footprint built on reliability, domain expertise, and enduring partnerships.

The Group operates through three integrated entities:

- **Prakash Chemicals Agencies Pvt. Ltd. (PCAPL)**
- **Prakash Chemicals International Pvt. Ltd. (PCIPL)**
- **Prakash Chemicals Pvt. Ltd. (PCPL)**

Together, these companies create a seamless, end-to-end platform spanning global sourcing, efficient distribution, and customized manufacturing solutions.

PCAPL – Enabling Industry through Reliable Chemical Solutions

With over five decades of industry leadership, **PCAPL** has established itself as a trusted and scalable chemical distribution partner.

Backed by a portfolio of **250+ products** and a diversified global supplier network, Its partnerships include leading government enterprises such as **GACL**, **GNFC**, and **OPaL**, along with global multinational companies like BASF, LG Chem, and Ensign.

Serving **5,000+ customers across industries**, PCAPL combines deep market intelligence with disciplined execution to deliver application-driven, value-added solutions.

Operational excellence is anchored in:

- AI-enabled demand forecasting and price sustainability
- Advanced supply chain systems
- Just-in-Time (JIT) delivery capabilities

Core Product Portfolio Strength

PCAPL holds strong market positions in key bulk and industrial chemicals, including:

Acetic Acid, Caustic Soda, Formic Acid, Ethyl Acetate, Technical Urea, Hydrogen Peroxide, Citric Acid, Sodium Citrate, and Acrylic Acid.

Industry Coverage

PCAPL serves a broad and diversified set of industries:

- Specialty Chemicals
- Chloro-Alkali
- Food & Pharmaceuticals
- Water Treatment
- Textiles
- Flexible Packaging
- Paints & Coatings
- Cosmetics & Personal Care
- Soaps & Detergents
- Flavours & Fragrances
- Polymers
- Animal Feed

Prasol Chemicals limited, 33-year experience as leading manufacturer, exporter-Specialty Chemicals are ISO9001,14001:2015, 45001:2018 certified. Prasol has three manufacturing sites totaling 2,00,000sq.mt of production plants for phosphorus, Acetone based hydrogenated products.

Our products find application in industries such as Paints & Coatings, Agrochemicals, Lubricants, Surfactants, Pharmaceuticals, Aroma Chemicals, Construction Chemicals, Cosmetics, Mining Oilfield Chemicals.

With over 33 years of expertise, Prasol Chemicals Limited is a leading manufacturer and exporter of specialty chemicals, serving diverse industries worldwide. Certified with ISO 9001, ISO 14001:2015, and ISO 45001:2018, we are recognized by the Government of India as a *Three Star Export House*, exporting to more than 50 countries. Our state-of-the-art production facility spans 19 acres in Khalapur, near Mumbai.

Our product portfolio includes solvents and organic chemicals such as Diacetone Alcohol, Isophorone, Hexylene Glycol, Mesityl Oxide, DIBK, MIBC, TMCNOL, TMCNONE, CHP, Acetone, Phenol, Acetophenone, Alpha Methyl Styrene, and PU Dispenser Cleaner. We also specialize in phosphorus derivatives like Phosphorous Pentasulphide, Phosphorous Pentoxide, Polyphosphoric Acid, Ammonium Polyphosphate, ZDDP, and mining chemicals.

Precious Scientific Glass Work

Contact Person: Mr. Piyush Gorasiya, Director
Address: Plot No 45, Yogi Estate - 3, Near Karmatur Chowkdi, GIDC, Ankleshwar, Bharuch-393002, Gujarat, India
Email: preciousscientific@yahoo.com
Website: <https://www.preciousscientific.com/>

Precious Scientific Glass Works is a well-known organization from Ankleshwar (Gujarat) has been delivering world class Glass products for Pharma, Chemical, Agro and Dyes & Pigment, at the Lab, Pilot and Production Scale. The firm was established with the vision to work with no boundaries and do all the possible things to achieve excellence. We design and fabricate scientific and industrial glass parts from the best raw material from leading manufacture in the world. On request, we also produce glass parts from European Borosilicate Glass 3.3 tubing.

We serve as a dependable manufacturer and supplier of Distillation Units, Evaporators, Glass Reactors, Dry HCL Gas Generator, Bromine Recovery Plant Gas Absorber, Glass Coil Condenser, Glass Shell & Tube Heat Exchanger, Heating & Cooling Circulating System. We are also involved in turnkey projects for such offerings. The aim of our entity is as clear as Glass of setting up new benchmarks in the industry by successfully fulfilling all the needs of the customers and become a leading market player. Apart from the products, we hold expertise in Designing & Repairing of

Glass Equipment, Fabrication, Engineering, Installation and Commissioning of Mini Plants, Pilot Plants and Standard Distillation Units.

Besides we also keep Process Chemistry at the back of our product engineering to ensure that the process requirements of the user are adequately met by suitable engineering of our products. Trusted by more than 150 customers, try us once, see for yourself and allow us to be one of your

Precision Equipments (Chennai) Pvt. Ltd.

Contact Person: Mr. Raju Prajapati, DGM - Sales & Marketing
Address: B-70/1, SIPCOT Industrial Park, Irungattukottai, Kanchipuram District, Chennai-602 105, Tamil Nadu, India
Phone: +91 44 4710 0603, 604
Email: raju@pecpl.com
Website: <https://pecpl.com/>

Precision Equipments (Chennai) Pvt. Ltd. is a well-established Indian manufacturer and supplier of high-performance process equipment, with origins dating back to **1981** and formal incorporation as a private limited company in **1998**.

Headquartered in **Chennai, Tamil Nadu**, the company specializes in the **design, engineering and manufacture of thermal and process equipment** that serve major industry sectors including **oil and gas, petrochemicals, fertilizers, power generation and energy**. Its core product portfolio revolves around **shell and tube heat exchangers**, but also includes **rod baffle and helical baffle exchangers, hairpin and double-pipe heat exchangers, plate and shell types, cryogenic exchangers, pressure vessels, columns, reactors, and integrated process skids**.

With **over four decades of operational experience**, Precision Equipments has delivered **thousands of process equipment units** to both domestic and international markets, earning a reputation for reliable engineering, quality fabrication and compliance with global standards (like ASME, ISO and client-specific codes). Its manufacturing facilities—situated near Chennai's industrial hubs—are capable of fabricating heavy equipment up to **300 MT** and are well-connected for export logistics, reflecting the company's global reach.

The company employs a strong team of engineers experienced in thermal and mechanical design, working closely with EPC contractors to meet complex project requirements. With a reported workforce of several hundred professionals and an annual turnover in the multi-million-dollar range, Precision Equipments

At Prince Multiplast Pvt. Ltd., we believe packaging is not just a container — it is protection, performance, and a promise of quality. As a leading manufacturer of rigid plastic packaging, we proudly serve the chemical, pharmaceutical, oil, lubricant, and diverse industrial sectors with robust and reliable HDPE solutions designed to perform under demanding conditions.

From compact 100 ml bottles to heavy-duty 120-litre drums, our extensive product range is manufactured at our advanced facility in Daman, where modern technology meets stringent quality control systems. Every container we produce reflects our commitment to precision, durability, and consistency.

Strengthening our growth journey, we are excited to introduce Extrusion Moulded Drums — our new specialized division focused on premium 10-litre to 26-litre containers. Equipped with a state-of-the-art international production line, Extrusion Moulded Drums delivers higher output, superior finish, enhanced structural strength, and unmatched uniformity. This advanced setup allows us to meet large-scale demands while maintaining exceptional quality standards.

Driven by innovation, backed by technology, and built on trust, Prince Multiplast Pvt. Ltd. continues to evolve as a preferred packaging partner — delivering solutions that safeguard products, strengthen brands, and support business growth.

Website: <https://www.flowrhex.com/>

Proburgeon Pvt Ltd, under the brand **FlowRHEX[®]**, is India's leading innovator in **advanced flow reactor technologies** for modern chemical manufacturing. We specialize in **process intensification**, helping companies make their production **safer, faster, smaller, and more cost-efficient**.

As the **only Indian startup developing pressure-rated glass microreactors**, along with plate, tubular (3D mixer & static mixer), and slurry-type flow reactors, we deliver **end-to-end solutions** from lab scale to commercial scale. Our reactors are engineered for challenging chemistries including **halogenations, nitrations, sulfonations, oxidations, aminations, cyanations, and pyrophoric reactions**.

With strong in-house capabilities in **process optimization, application development, equipment engineering, and automated modular skid fabrication**, we support customers from **R&D trials to full production deployment**.

At Proburgeon, our mission is to **democratize flow chemistry** by making world-class continuous manufacturing technology available, **affordable and accessible to Indian MSMEs**, while enabling global standards in quality and sustainability.

FlowRHEX[®] has been recognized with prestigious awards and patents, reflecting our commitment to innovation and technology development.

Our Key offerings,

- Pressure-rated **glass microreactors**
- Plate-type, tubular (3D mixer, static mixer), and slurry-type flow reactors
- Modular automated **flow chemistry skids**
- Process development & scale-up support
- Specialized systems for **hazardous, fast, and exothermic reactions**
- Custom engineering for **lab, pilot, and commercial production**

Partner with us to transform your batch processes into intensified, continuous, and future-ready chemical manufacturing routes.

PROCESS PLANT AND MACHINERY ASSOCIATION OF INDIA (PPMAI), is a 61-year-old industry association in the capital goods sector rendering meticulous services to the Process Plant Manufacturers all over India. An association of highly qualified and experienced companies in India, associated with various process industries right from 'concept to commissioning', providing entire gambit of engineering and project management services covering all disciplines of engineering as well as complete range of supplies including fabricated equipment / pipes & fittings / instrumentation / utility packages etc.

PPMAI draws its membership from the following types of companies, all serving the Process Industry.

- Process Equipment manufacturing companies and fabricators
- Manufactures of components for process equipment
- Turnkey process packages & utility packages suppliers
- Design, Engineering & Project Management Consultants

- Engineering, Procurement & Construction (EPC) Contractors
- Inspection and Quality Assurance Agencies
- NDT, Heat Treatment & other service providers

PROVIK INDUSTRIES is one of the upcoming company managed by technical professionals Mr. Rajendra Shah(MSc:ORGANIC) Mr. Vikrant Bajaria(B.E. Chemical) Mr. Ronak Shah(BSc: MBA) and indulged into manufacturing of "All Types of Synthetic Resins, Casting waxes, Acrylic Resin, Reducer(based on denatured spirit) & Foundry Chemicals" based in Talaja, Maharashtra, India

Our Mission:

We will achieve this goal through continuous innovation and product improvements and through a competent, outstanding service which meet our customers' demand and if, possible, exceeds their expectations. We build up our relationships with our employees, customers and suppliers based on Mutual Trust, Loyalty and Respect.

Our Strengths:

- v Team of well-experience and qualified members
- v State-of-the-art technology with some product groups

- v Innovative products / trouble shooting
- v Technically & Financially Sound Company
- v In-house fully equipped Laboratory Testing of raw-materials finished goods
- v Professional technical expertise with all product groups to maintain our competitive edge

Environment:

For **PROVIK**, long-term environment protection not only means ensuring that the discharge of pollutants is kept as low as possible throughout the whole production and supply chain, but also implementing a functional cleaning and recycling concept. So here too, **PROVIK** shows that in the long term, commercial success can only be guaranteed by means of integrated concepts and their resolute implementation.

Markets Served:

- v Specialty Chemicals
 - v Printing Industry
 - v Pharmaceutical / Life sciences v Foundry industry v Perfumery / Aroma Chemicals
- Our Plant: We currently offer a range of multi-purpose, solid & liquid

Punjab Chemicals and Crop Protection Limited (PCCPL) is a diversified specialty chemicals company with a strong legacy of innovation, quality, and customer-centric solutions. With decades of experience in the chemical industry, PCCPL has established itself as a reliable partner for global customers across **pharmaceuticals, crop protection, and specialty chemical segments**. The company is committed to delivering high-value products supported by robust R&D, strong manufacturing capabilities, and strict adherence to international quality and safety standards.

PCCPL operates state-of-the-art manufacturing facilities designed to handle complex chemistries and multi-step synthesis. Its technical strengths include high-pressure and high-temperature hydrolysis, mercaptan chemistry, low-temperature amination, molecular chlorination,

oxidative bromination, Claisen condensation, and oxidation using TEMPO/H₂O₂. These capabilities enable PCCPL to develop and manufacture a wide range of advanced intermediates and specialty products tailored to customer requirements.

The company places strong emphasis on **process development, cost optimization, and scalability**, ensuring smooth transition from laboratory to commercial production. A dedicated R&D team works closely with customers to co-develop new molecules, improve existing processes, and enhance overall sustainability.

Quality, safety, and compliance form the foundation of PCCPL's operations. The company follows stringent quality systems, environmental norms, and safety practices to ensure consistent product performance and responsible manufacturing. With a customer-focused approach, technical expertise, and long-term partnership mindset, **Punjab Chemicals and Crop Protection Limited** continues to expand its global footprint while delivering dependable, innovative, and sustainable chemical solutions.

East India Drums & Barrels Manufacturing Limited (EIDB), founded in 2013, stands as India's premier manufacturer of high-quality steel drums and barrels, addressing the booming demand for reliable packaging in industries like chemicals, pharmaceuticals, logistics, and food processing.

From its advanced facilities in Daman, Karjat, and Sonipat, EIDB produces UN-certified tight-head and open-head drums (10-235 litres) using automated welding, robotic coatings, and rigorous testing for pressure, drop, and leak-proof performance. Value-added services include customization, reconditioning, and sustainable reuse, promoting a circular economy through eco-friendly practices like water conservation and waste recycling.

A dynamic leadership team drives excellence: Managing Director Madhav Jayesh Valia steers growth; COO Ajay Jani (37+ years) optimizes operations; CEO Neera Singh targets global scalability; and specialists in HR, finance, maintenance, and tenders ensure

efficiency. Listed on the Bombay Stock Exchange, EIDB exemplifies governance and transparency.

Success stories abound, such as resolving leakage woes for a chemical exporter with specialized UN-certified drums, slashing costs and boosting confidence. Client partnerships emphasize post-sale support, training, and compliance.

Sustainability defines EIDB's ethos, from ethical sourcing and renewable energy to emissions control. Looking ahead, expansion into Asia/Africa, digital manufacturing, and lightweight innovations will solidify its leadership.

With agility, quality, and innovation at its core, EIDB meets India's industrial packaging needs while championing environmental responsibility—poised for nationwide dominance over the next five years.

Qingdao Colt Technology Co., Ltd. is a leading manufacturer and solution provider specializing in advanced machinery for the paint and coating industry. Headquartered in Qingdao, China, the company is committed to delivering high-performance, reliable, and cost-effective equipment tailored to the evolving needs of industrial clients worldwide.

With a strong focus on innovation and engineering excellence, Qingdao Colt Technology offers a comprehensive portfolio that includes mixing, grinding, dispersing, and filling systems. Its solutions are widely used across industries such as paints, coatings, inks, adhesives, and chemical processing. The company integrates modern design, precision manufacturing, and strict quality control to ensure consistent performance and durability of its machinery.

Driven by a customer-centric approach, Qingdao Colt Technology provides end-to-end support—from equipment selection and customization to installation and after-sales service. Its team of experienced engineers and technical experts works closely with clients to optimize production efficiency and achieve superior product quality.

The company has established a growing global presence, exporting to multiple international markets and building long-term partnerships based on trust, quality, and service excellence.

Qingdao Colt Technology continues to invest in research and development to stay at the forefront of industry advancements, positioning itself as a reliable partner for businesses seeking efficient and scalable solutions in the paint and coating machinery sector.

Qingdao Kerun Bio-technology Co., LTD. is a specialized and sophisticated enterprise incorporating bio-tech R&D, manufacture and trade. We have three branches: printing & dyeing auxiliary branch, boiler water chemical branch and leather auxiliary branch; three production bases; five technical R&D labs: Shanghai Research Institute, Hefei Laboratory, Qingdao Technical Center, Blue Silicon Valley Laboratory and Cooperation Laboratory with University of Petroleum.

1. Main Products of Printing & Dyeing Auxiliary:

- Finishing Auxiliary: Stiffening Agent, Calendering Agent, Fabric Thickening Agent, Fluffy Agent, Softener Flake, Silicone Oil;
- Printing Auxiliary: Printing Thickener, Binder, Glitter Binder, reach the industry leading level.

2. Main Products of Boiler Water Chemical:

- Water Supply Modifier, Boiler Water Modifier, Deoxidizer, Corrosion Inhibitor, entered into the Procurement List of Sinopec Group

3. Main Products of Leather Auxiliary:

- High-end Fatliquoring Agent, Lecithin Fatliquoring Agent, High Concentration Lecithin Fatliquoring Agent, have good price advantage as qualities matching with foreign products.

Our company emphasizes technical development in order to provide strong technical support and quality assurance to product R&D, upgrading and innovation, all along, adheres to the development strategy 'Technology innovation, green safety, quality & efficiency improving, intelligent development' and the service tenet 'Quality prior, honesty based, customer supreme' to join hands with all customers together for a better future

Rajdeep Plastic Containers (I) Pvt. Ltd.

With a legacy spanning nearly five decades, Rajdeep Plastic Containers (I) Pvt. Ltd. has been a trusted name in industrial packaging since 1976. From a single production line to a pan-India manufacturing presence, Rajdeep has grown into one of India's leading manufacturers of high-quality HM-HDPE blow-moulded plastic containers.

Our Products

Rajdeep offers a comprehensive range of packaging solutions, ranging from 5L to 250L, including Narrow Mouth Jerry Cans, Open Top Round Drums and Narrow Mouth Round Drums; all manufactured exclusively from virgin-grade HM-HDPE material, ensuring purity, strength, and chemical compatibility.

Industries We Serve

Our containers are trusted across pharmaceuticals, agrochemicals, specialty chemicals, food & beverages, paint & coatings, lubricants, and industrial solvents, catering to some of India's largest multinational corporations.

Manufacturing Capabilities & Certifications

Rajdeep operates manufacturing facilities across five strategic locations: Taloja (Maharashtra), Visakhapatnam (Andhra Pradesh), Silvassa, Ahmedabad (Gujarat), and Palwal (Haryana). UN and UL certifications are available on request. We are also proud life members of the All India Plastic Manufacturers Association (AIPMA) and the Indian Institute of Packaging (IIP).

Our dedication to upholding the highest standards of quality have made us a force to be reckoned with in the industry.

Email: reachus@rangerotech.com
Website: <https://www.rangerotech.com/>

Managed (M)SDS and Regulatory Services

Rangero Technology Solutions helps chemical manufacturing companies and distributors remove the operational burden of SDS lifecycle management, so their regulatory teams can focus on compliance decisions rather than document processing. We simplify SDS compliance through a powerful blend of human regulatory expertise + AI-assisted production execution.

What We Do Best

We handle the operational tasks of SDS authoring, updates, indexing, quality checks, and multilingual compliance. Our expert workflows guarantee accuracy, regulatory compliance, and scalability. Chemical companies retain their regulatory expertise internally but outsource the execution tasks.

Innovative SDS Authoring Platform

Our modern SDS authoring platform combines structured data, smart automation, and AI-enabled capabilities to deliver faster, more consistent, and globally compliant SDS creation in multiple languages. Designed for flexibility and scalability, it integrates regulatory data sources seamlessly and supports both growing portfolios and enterprise-scale operations.

Why Rangero?

- Deep expertise in global chemical regulations

Rashtriya Chemicals & Fertilizers Limited (RCF), a "NAVARATNA" Company, is a leading fertilizers and chemicals manufacturing company with about 75% of its equity held by the Government of India. It has two operating units, Trombay in Mumbai and Thal in Raigad district, about 100 KM from Mumbai. RCF mainly manufactures Neem Urea, NPK fertilizers, and a wide range of industrial chemicals. It produces around 23 Lakh MT of Urea, 5.7 Lakh MT of Complex fertilizers, and 5.0 Lakh MT of Industrial chemicals every year. RCF has a countrywide marketing network in all major states. RCF produces a large number of Industrial chemicals that are important for the manufacture of Explosives, dyes, solvents, leather, drugs & pharmaceuticals, and a host of other industrial products. RCF has pioneered the manufacture of basic chemicals such as Methanol, Ammonia, Ammonium Nitrate, Sodium Nitrate/Nitrite,

Ammonium Bicarbonate, Methyl Amines, Dimethyl Formamide, Dimethyl Acetamide, Formic Acid and Argon. Since its inception, RCF has successfully and safely operated two dozen chemical and fertilizer plants at Trombay and Thal. RCF has spent more than Rs. 400 Crore over the years in various pollution abatement and environment improvement schemes. RCF has always strived for the upkeep of its plants through modernizing and upgrading technology. It has also resulted in the company achieving the highest standards of safety and product quality. Both the manufacturing units of RCF are accredited with ISO 9001:2015, ISO 14001:2015, and ISO 45001:2018.

Real Chem is a specialized chemical manufacturing firm dedicated to the production of high-quality **dyes and chemical intermediates**. The company plays a critical role in the industrial supply chain, providing the essential building blocks required for coloring and synthesizing products across various sectors.

Mission Statement

To empower global industries with high-performance colorants and chemical building blocks through **innovation, sustainable manufacturing, and uncompromising quality**. We strive to be the preferred partner for businesses seeking reliable chemical solutions that bring color and functionality to everyday life.

Core Business Operations

Manufacturing Excellence:

Real Chem focuses on the precision synthesis of organic intermediates and a diverse range of dyestuffs.

Key Products:

- **BASIC DYES:**
 - Comprehensive coloring agents for textiles, leather, paper, and plastics.
- RHODAMINE B POWDER
- RHODAMINE B BASE
- RHODAMINE B LIQUIDE
- AURAMINE O
- **SOLVENT DYES:**
 - SOLVENT YELLOW 82
 - SOLVENT ORANGE 62
 - SOLVENT RED 119
 - SOLVENT RED 127
 - SOLVENT BLACK 27
- **INTERMEDIATES:**
 - Complex chemical compounds used as precursors in the manufacturing of pharmaceuticals, agrochemicals, and specialty polymers.
- DEMAP
- PNCBOSA

Strategic Value

As a manufacturer in the **Dyes and Intermediates** sector, Real Chem bridges the gap between raw chemical feedstocks and finished consumer goods. By maintaining rigorous quality control and optimizing chemical processes, they support the global demand for vibrant, durable, and safe chemical solutions.

Process Expertise : Mastery of complex chemical reactions to ensure high-yield and high-purity outputs.

Custom Synthesis: Ability to develop specific intermediates tailored to unique client requirements in the pharma and agrochemical sectors.

Relic Chemicals

Contact Person: Mr. Tejas Jain, Head of Operations
Address: Office No. 123, 1st Floor, Ajay Industrial Estate, Anjirwadi, Mazgaon, Mumbai-400010, Maharashtra, India

Email: tejas@relicchemicals.com

Website: <https://relicchemicals.com/>

Relic Chemicals is a leading manufacturer of **Bromo Compounds** and **specialty chemicals**, serving diverse industries with innovation and reliability. With a strong focus on quality and sustainability, the company has built a reputation as a trusted partner across the

pharmaceutical, pulp & paper, water treatment, and oil & gas sectors.

In pharmaceuticals, Relic Chemicals provides critical intermediates and speciality compounds that meet global standards, supporting drug development and production. For the pulp and paper industry, its solutions enhance efficiency, improve product quality, and promote eco-friendly practices. In water treatment, Relic Chemicals delivers advanced formulations that ensure safe, clean, and sustainable water management. The company also supports the oil and gas sector with robust chemical solutions designed to withstand demanding operational environments, improving performance and reliability.

Relic Chemicals' growth story has been widely recognized. For **three consecutive years**, the company has been honored by **The Economic Times** and **The Financial Times** as one of the **fastest-growing companies in India and the Asia-Pacific region**. This distinction highlights its dynamic expansion, visionary leadership, and commitment to excellence.

With state-of-the-art facilities, rigorous quality systems, and a dedicated team, Relic Chemicals continues to expand its global footprint. Guided by values of integrity, innovation, and sustainability, the company empowers industries with solutions that make a difference and remains poised for continued success in the years ahead.

Remik over the last four decades has grown to be a formidable name in the world of Chemicals. With two state-of-the-art manufacturing centers and a nationwide presence covering 24+ prominent cities across the country, Remik stands tall among the top companies that manufacture, trade and market chemical products in the Indian Subcontinent.

With our 46+ years of unparalleled experience in the chemicals sector, we understand what each industry needs, how to adeptly source the need and how to supply them in the most efficient and cost-effective manner imaginable. Our unwavering commitment to excellence has earned us the trust and loyalty of over 7500 clients, both domestic and international, spanning 16 dynamic industries. This steadfast partnership has

propelled us from strength to strength, cementing our position as a trusted leader in the global marketplace.

The industries that we serve:

- Textile
- Pharmaceuticals
- Paints, Coatings and Ink
- Dyes and Intermediates
- Pigments
- Resin
- Water Treatment
- Paper and Packaging
- Agriculture, Dairy and Animal Feed
- Home and Personal Care
- Ceramic and Glass
- Food & Nutraceuticals
- Steel, Abrasives and Foundry
- Construction
- Plastics and Extrusion

S-Cube Mass Transfer Private Limited

Where precision engineering meets the science of separation.

For over two decades, S-Cube Mass Transfer Private Limited has been a trusted name in the design and manufacture of advanced Distillation Systems and mass transfer equipment — built for industries where purity, performance, and reliability are non-negotiable.

From our state-of-the-art facility, we engineer solutions across the full spectrum of separation technology: **Packed Towers** with structured packing and precision internals, **Distillation Trays**, **Static Mixers**, and **Mist**

Eliminators — including Mesh Pad and Vane-type configurations. Each product is designed to exact process specifications, ensuring consistent performance under the most demanding operating conditions.

Our deepest expertise lies in **turnkey distillation systems** for solvent recovery and purification, serving the pharmaceutical, chemical, and agrochemical sectors. We don't just supply equipment — we partner with clients from process design through to commissioning, delivering fully operational systems with measurable outcomes.

Innovation is central to who we are. S-Cube holds **patented technology for biodiesel production**, reflecting our long-term commitment to sustainable process solutions and clean energy advancement.

What sets us apart is the combination of engineering depth, two decades of hands-on project experience, and an unwavering focus on quality — delivered at competitive value.

S-Cube Mass Transfer: Engineered for Purity. Built for Performance.

Saishraddha Graphite Equipments and Systems Pvt. Ltd.

Contact Person: Mr. Mangesh Deshmukh
Address: D 80, MIDC Malegaon, Sinner, Nashik-422113, Maharashtra, India
Email: mdeshmukh@saigraphite.com

Welcome to Saishraddha Graphite Equipments & Systems Pvt Ltd (SGESPL)

“WE TAKE CARE OF YOUR CORROSIVE FLUIDS”

Established in 2001, **SAISHRADDHA GRAPHITE** is an ISO 9000:2015 Certified leader in graphite technology. We specialize in the design, manufacturing, and servicing of equipment built to handle the most aggressive corrosive environments.

Our Specialized Product Range

- **Graphite Heat Exchanger (Cylindrical & Cubical):** High-efficiency blocks designed for superior heat transfer in compact spaces.
- **Shell & Tube Graphite Heat Exchanger:** Robust solutions for large-scale heating or cooling of corrosive media.
- **Falling Film Absorber (HCL Scrubber):** Precision-engineered systems for efficient gas absorption and acid cooling.
- **Graphite Ejector System:** Reliable vacuum systems designed to withstand harsh chemical vapors.
- **Graphite Bursting / Rupture Disc:** Critical safety components that protect your equipment from overpressure.
- **Graphite Thermowell:** High-conductivity protection for temperature sensors in acidic environments.
- **Graphite Burner Cap:** Durable components built to withstand extreme thermal stress.
- **PTFE Bellow:** Flexible connectors ensuring leak-proof piping under vibration or expansion.
- **Spare Parts:** A full range of genuine spares to keep your graphite systems running.

Why Partner with SGESPL?

Clients worldwide trust us for our commitment to operational uptime and safety:

- **Reliability:** Equipment built for durability and consistent performance.
- **24/7 Service:** Constant support for your continuous plant operations.
- **Expert Problem Solving:** Technical assistance for complex process issues.
- **24-Hour Quotes:** Fast response to keep your projects on schedule.

We deliver tailored, high-quality solutions for your specific chemical processing needs.

Sandhya Organic Chemicals Pvt Ltd, a Division of Sandhya Group since 1984 is in to manufacturing and Exporter of Phosphorous Based Speciality Chemical and Agro Chemicals since last 43 yrs. We are ISO 9001:2008 , ISO 14001:2004 and ISO 45001:2018, Ecovadis Certified Company Certified Company. We have 7 manufacturing plant located in Gujarat (INDIA) . Our product registered in more than 60 countries and comprehensive registration dossiers are also available for new registration. The Products are available in different packing as per the requirement of the importing country. The Sandhya group has emerged as a one of the global player and now has entered in the full range of Agro Formulation and PHP product. Our Range of Product are:-

India's Largest manufacturer and Exporter of Speciality Chemicals and Agro Chemicals

PHOSPHOROUS DERIVATES

- Phosphorous Trichloride – PCI3
- Phosphorous Oxychloride – POCl3
- Phosphorous Pentoxide – P2O5
- Phosphorous Pentachloride – PCI5
- Poly Phosphoric Acid – PPA
- Ortho Phosphoric Acid - OPA

METAL PHOSPHIDES :-

- Aluminium Phosphide (Fumigant)
- Zinc Phosphide – (Rodenticides)
- Magnesium Phosphide (Fumigant)

RODENTICIDES:-

- Bromodoline Cake
- ZNP Paste
- Ratox - Rodent Burrows

PESTICIDES & PHP :-

- Insecticides
- Fungicides
- Herbicides
- Plant Growth Regulator

Agro Chemicals Intermediates :-

- MPBD
- MPBAL

We welcome new opportunities here.

Sangir Plastics Pvt. Ltd.

Contact Person: Mrs. Shiuli Roy, Asst. Manager
Address: Survey No.1291, Near Raymonds Ltd, Palsana Road, Motiwada, Taluka Pardi, Valsad-396125, Gujarat, India
Phone: +91 22 31007800
Email: emarketing@sangir.com
Website: <https://sangir.com/>

Sangir is a major producer of specialty thermoplastic solution and a major supplier to diverse industries and projects.

Sangir is certified with ISO 9001-2015, ISO 14001:2015 & ISO 45001-2018 Certifications. Our D&B No is 91-613-2368.

Operating from 4 manufacturing facilities across India, Sangir manufactures products using various process such as extrusion, injection molding, roto-molding and compression molding. We have established a state-of-the-art thermoplastic machining and fabrication facility,

which include IR Welding Capabilities, clean-room for Specialty fabrication with high-purity piping.

We serve, Water, Waste-Water, Desalination, Chemicals, Agrochemicals, Petrochemicals, Hydrocarbons, Mines, Minerals and Metals Industries, niche and specialty industrial segments such as Solar Cell manufacturing, semi-conductors, Chemicals Delivery Systems, Gas Delivery systems, Electrolyser and Green-Hydrogen Projects, Battery and Energy Storage Projects. Fire-Retardant Ducting in PP-S for contaminated Exhaust and Fumes Extraction, emissions control equipment components.

Major Piping Products Manufactured:

- HDPE Piping systems (upto 1600mm OD)
- Corzan CPVC Piping Systems - Produced under manufacturing license from Lubrizol USA
- KYNAR PVDF Piping Systems - Manufactured under authorization from KYNAR - ARKEMA Inc
- PPH Piping Systems - Superior Grade polypropylene, having higher mechanical strength and better chemical properties
- Dual/Double-Containment Piping as per customer specific MOCs.

High-Purity piping in PFA and PVDF

- Sheets and profiles in diverse MOCs such as HOPE, HDPE-GL, PP, PP-GL, PPH, PPH-GL, PVDF, CPVC and various types of PVC. With a maximum width of 2.0 meters and thickness of 40mm by extrusion process.
- We also undertake supply & installation of Industrial Piping Systems.

At SAP Global Logistics, we don't just move and clear cargo; we enable compliant global trade for the chemical industry.

As a licensed Custom House Clearing Agent with its headquarter in Navi Mumbai, we specialize in managing complex chemical and specialty cargo movements with absolute regulatory precision. From accurate tariff classification and customs valuation to DGFT licensing and hazardous cargo documentation, we ensure every shipment meets statutory requirements while minimizing delays and penalties.

Our integrated logistics solutions include:

- Customs Clearance
- International Freight Forwarding (Air & Sea)
- Hazardous cargo handling
- DGFT services
- End-to-end supply chain optimization

In the chemical industry, where one documentation error can halt production or block exports, our structured compliance framework, proactive coordination with customs authorities and transparent communication ensure seamless cargo clearance and movement.

At ChemExpo, we are connecting with chemical manufacturers, exporters and importers who value:

- Regulatory clarity
- Speed without compliance risk
- Cost optimization without compromise
- Transparent communication

Partner with SAP Global Logistics – your dedicated logistics solution provider for chemical trade – protecting your cargo, your margins and your reputation.

Shree Ganesh Chemicals is an innovation-driven organization established in 1999. We are working in the field of pharmaceuticals intermediates (API intermediates) & specialty chemicals

We have state of art research, manufacturing, quality testing, and training infrastructure. We are equipped

to provide quality pharmaceutical intermediates and custom chemistry services to our customers. Our products are having compliance with various levels of regulatory requirements.

The multi disciplinary team of highly qualified technical staff at SGC belongs to various subjects like quality management, technology transfer, and chemistry makes it possible to address different challenges and serve customer's needs better. Our products and services are being successfully used in various countries in Asia, Europe, Africa, and America

Some of the instruments which are used in QC departments are listed below:

- Gas chromatography
- Sonicator
- Weighing instrument
- Karl feischer
- PH meter
- HPLC
- Cod digestion apparatus
- Turbid meter
- Magnetic stirrer

Our company is accredited from following institution

- ISO 9001:2015 Certified (**Bureau Vertias, UK Accredited**)
- ISO 14001:2015 Certified (**Bureau Vertias, UK Accredited**)

Our company is capable to carry out various types of reaction of those few are listed below:

- Chlorination
- Bromination
- Freidel craft reaction
- Reduction
- Sulfonation
- Grignard reaction
- And various other reaction

Some of the reputed clients of Shree Ganesh chemicals:

- Cadila
- Zentiva
- Lupin
- Msn labs
- Actylis
- Laurus labs
- Vasudha pharma

SMC: 35+ Years of Excellence in Specialty Chemicals & Industrial Solutions

Established in **1989**, **Shree Mahalaxmi Chemicals (SMC)** is a premier Mumbai-based distributor, bulk stockist and exporter. We specialize in providing high-performance raw materials that serve as the backbone for the **Adhesive, Paint & Coating and Construction industries**.

With over three decades of market expertise, SMC bridges the gap between global chemical innovation and local manufacturing needs, offering a **"Quality First" approach** to every formulation.

Our Core Product Portfolio:

- **Polymers & Rheology Modifiers:** Industry-leading **Polyvinyl Alcohol (PVA)** and **Hydroxyethyl Cellulose (HEC)** for superior binding and thickening.
- **Performance Additives:** A comprehensive range of **Plasticizers, Defoamers** and **Construction Chemicals** to enhance durability and workability.
- **Industrial Essentials:** High-performance **Surfactants, Emulsifiers**, and **Detergent Chemicals** tailored for specialized industrial applications.
- **Specialty Chemicals:** A diverse selection including **Monomers, Pearl Pigments**, and other **Industrial Specialty Chemicals**.
- **Protection & Preservation:** High-efficiency **Preservatives & Biocides** designed for long-term product stability and microbiological protection.

Under the leadership of **Mr. Jayesh Sanghavi**, SMC remains committed to technical reliability and cost-effective sourcing. Our global network ensures that your production cycle is optimized with chemicals that meet the highest international standards.

Visit SMC at ChemExpo 2026 to explore how our 35+ years of expertise can empower your chemical sourcing strategy !

SIDSA Environmental Pvt. Ltd.

Contact Person: Mr. Sarang Musale, Dy Manager
Address: Sr. No. 16/9, Pandurang Industrial Area, Nanded, Sinhgad Road, Pune-411041, Maharashtra, India
Email: m.sarang@sidsa.in
Website: <https://sidsa.ch/company/>

SIDSA is Swiss group and the leading organization for Engineering, Manufacturing and Supply of waste treatment technologies across globe.

With 52+ years of presence and group companies in **Switzerland**, Germany, India and China, SID has realized over **1100 projects** across world.

SIDSA is pioneer in bulky and hazardous waste processing in Europe. Our technologies are best in class for MSW, industrial wastes processing.

Our product portfolio comprises of the following machines and installations:

- 2-shaft Primary Shredders, 2-shaft Rotary Shears
- 4-shaft shredders and Rotary Shears
- 1-shaft Fine shredders, 2-shaft Fine shredders
- Disc Screens for size segregation
- Horizontal Industrial Mixers
- **Single Piston Pumps and Double Piston Pumps**
- **Complete Shredding-Mixing-Pumping (SMP) plant for hazardous waste processing**
- **Nitrogen Blanketing system**
- Hydraulic / high-torque drive systems and electrical automation
- Air Density Separator for heavy and inert fraction removal
- Conveying systems for movement of materials
- Design and Engineering of complete processing plant

These customized engineering solutions can be used for several kinds of materials, such as MSW, industrial waste, hazardous waste, tires, paper, landfill waste, etc.

Our machines are of interest for variety of sectors such as MSW treatment plants, cement industry, incinerator plants, hazardous waste treatment plants, etc.

SID has successfully released 30+ projects across India for application in MSW, RDF and Hazardous waste processing.

Our installations known for high performance and less maintenance.

SID's Value chain comprises of all steps from design, manufacturing, and erection up to after sales services.

The equipment is made inhouse with controlled quality parameters and international certifications.

Website: <https://www.siesincubationcentre.in/>

The SIES Incubation Centre, established in 2024 under the aegis of The South Indian Education Society, is a mission-driven entrepreneurship hub based in Navi Mumbai. The Centre is dedicated to fostering high-impact startups by providing structured mentoring, capacity-building programs, industry linkages, and strong ecosystem partnerships. It focuses on transforming early-stage ideas into scalable, investment-ready ventures through sector-focused interventions and real-time market validation.

The Centre adopts an integrated approach that combines academic rigor with practical venture development, enabling founders, especially students and early-stage entrepreneurs to build sustainable businesses. Its programs are designed to support startups across the lifecycle, from ideation to acceleration, with a growing emphasis on impact-driven sectors such as AgriTech, sustainability, and social enterprise.

A key strength of the Centre lies in its strategic collaboration with IIMA Ventures (formerly CIIE.CO), the innovation and incubation arm associated with Indian Institute of Management Ahmedabad. Recognized as a Centre of Excellence by the Department of Science & Technology, Government of India, IIMA Ventures brings over two decades of experience in supporting entrepreneurs through incubation, acceleration, and catalytic capital initiatives.

This partnership enhances the Centre's capabilities through robust program design, access to national startup ecosystems, and deep sectoral expertise, particularly in

areas such as food systems and agribusiness. Together, they enable SIES Incubation Centre to deliver scalable and impactful entrepreneurship programs with strong institutional credibility.

Precision Lime Solutions for Global Chemical Markets

Sigma Minerals Limited is one of India's leading manufacturers and suppliers of high-quality lime and lime-based products, with a legacy spanning **over five decades**. Backed by deep technical expertise, robust infrastructure, and a strong customer-centric approach, we have established ourselves as a trusted partner to key industries including **Chemicals, Steel,**

Paper, Sugar, Water Treatment, AAC blocks, and Environmental Applications.

We operate a strong manufacturing base comprising **3 Cimprogetti kilns (300 TPD each), 23 traditional kilns, 5 hydration plants, and 4 lime sizing plants**, with a total installed capacity of **50,000–55,000 MT per month**. This extensive infrastructure enables us to consistently deliver products that meet stringent quality standards and customized customer requirements.

Our comprehensive product portfolio includes **Quick Lime, Hydrated Lime, High-Purity Lime, and Conventional Lime**, catering to both domestic and international markets. Stringent quality control systems, supported by in-house laboratories and continuous process optimization, ensure **high purity, consistent reactivity, and reliable performance**.

With India emerging as the fastest-growing lime market globally, we remain focused on **sustainable growth, modernization, and strict environmental compliance**. We actively invest in cleaner technologies, efficient fuel utilization, and responsible mining practices to minimize environmental impact.

Driven by **integrity, innovation, and long-term partnerships**, Sigma Minerals Limited continues to support evolving customer needs while contributing to the growth of the chemical and allied industries worldwide.

Our Group

SKY IMPEX is a part of **ALCHEMYPRO GROUP**, a conglomerate based in Singapore. Our group is serving an array of industries which includes Petroleum, Petrochemicals, Basic Chemicals, Coatings, Personal Care, Oleochemicals, Agrochemicals and Pharmaceuticals. Through the Alchemyprom network, the group extends its reach to customers, manufacturers and trading partners in global locations with personalized attention and care. Ethos of our group is to INSPIRE, NURTURE, EMPOWER, SHARE and DELIVER - SUCCESS® to the stakeholders – the manufacturers, distributors, logistics partners and the end users.

About Us

Incorporated in India, SKY IMPEX primarily operates in Indian market as the distribution, exports and toll processing arm of the group. SKY IMPEX was established in the year 2009, with a vision to cater the fastgrowing needs of the Chemical Industry.

Our distribution division adds value to our end users by offering quality and competitive imports with personalized attention. SKY IMPEX serves an array of industries such as Surface coating, Food & Beverages, Personal care and Detergents, Pharmaceutical & Nutrition, Plastics, Foam and Rubber, Oil & Gas, Mining, Construction, Textile, Leather and Paper industries. Our distribution points are in Mumbai, and Chennai to serve our customers spread across India in different states and to meet cost effective on time delivery. Our product-line is expanding rapidly covering a wide range including solvents, basic chemicals, monomers, alcohols, aromatics, aliphatics, esters, glycols, glycol ethers, plastics, amines, fatty acids, fatty alcohols, ketones, surfactants, cosmetics and pharmaceutical ingredients.

Sky Performance Lining & Coatings

Contact Person: Mr. Santosh Mishra, Manager

Address: Plot No. K-1-7706/1, Nr. Karmatur Chowkdi
G.I.D.C., Ankleshwar-393002, Gujarat, India

Email: skycoatings@gmail.com

Website: <http://www.skycoatings.co.in/>

SKY PERFORMANCE LININGS & COATINGS was established in year 2017 with sole purpose of providing a solution to, a most challenging issue faced by chemical process industry i.e. handling of corrosive material.

Corrosion is one of the major challenges faced by Industry during Manufacturing, Processing, Handling, Discharge Effluent & Waste water treatment. Exotic metals & alloys are sometime not cost effective, the solution for such challenges is fluoropolymer (PTFE/ FEP/ PFA/ PP/ HDPE) lining.

We are manufacturing MS/ SS fluoropolymer (PTFE/ FEP/ PFA/PP/ HDPE) lined valve, pipes & fittings.

Our product range includes PTFE Lined Ball Valves, Butterfly Valves, Pipe Spool Piece, Bend, Reducers, Reducing Flanges, Equal & Unequal Tees, Sight Glass, Flush Bottom Valves, Non Return Valve, Y Type Strainer, Basket Strainer etc.

Our Salient features:

1. ASTM A 106 Gr. B Sch. 40 Seamless pipes are used for higher strength.
2. Fluoropolymer resin confirms to ASTM D 4895/ ASTM F 1545-97/ ASTM D 2116/ ASTM D 3307
3. Lining thickness: 3 to 5 MM
4. Hydraulic Test: @ 20 Kg/cm² after lining
5. Spark Test: @ 15 Kva after lining
6. Flange Standards ANSI B 16.5 150# (Other flanges like DIN, Table D, E, F available on request.)

Sectors Served:

1. Chemicals & Agrochemicals Industries, 2. Chloroalkali Industries, 3. Pharmaceuticals & Bulk Drug Industries, 4. Dyes & Pigment Industries, 5. Oil & Gas Industries, 6. Paper & Pulp Industries, 7. Sugar Industries

For any further technical/ commercial queries, please feel free to contact us.

Sree Rayalaseema Hi Strength Hypo Ltd. The touch of the USD 150 Million / Rupees 750 Crores TGV conglomerate, is the first Indian Manufacturer of CALCIUM HYPOCHLORITE-65% & 70% Granules & Tablets (SODIUM PROCESS), and of the very few in the world. A state-of-the-art sodium process technology developed through in-house R&D efforts helps the company in manufacturing the product with a chlorine content of 65% to 70% and export to countries all across the globe.

Products List:

Local & Export Products

- **WATER TREATMENT CHEMICALS :** Calcium Hypochlorite - 65% & 70%(Sodium Process) Granules & Tablets, Stable Bleaching Powder- 35%(tropical Chloride of Lime)&Aluminium Sulphate 17%(non-Ferric)
- **CASTOR DERIVATIVES :** Hydrogenated Castor Oil (Flakes/Powder) 12 Hydroxy Stearic Acid (Flakes/Powder), Ricinoleic Acid (Liquid), Refined Castor Oil(BSS GRADE), Sodium sulphate(Dry/Wet).
- **FATTY ACID :** Stearic Acid (Various Grades), Soap Noodles (toilet), Toilet Soaps, Refined Glycerine(USP/BP/IP Grade).
- **CHLOR-ALKALI PRODUCTS :** Caustic Soda Flakes (98% Min), Caustic Potash Flakes (KOH-90% Min), Hydrochloric Acid (32% Min), Potassium Carbonate (Powder/Granules), Sodium Hypochlorite, Sodium Sulphate.
- **BULK DRUG INTERMEDIATES/ PHARMA PRODUCTS :** Sodium Hydride, Sodium Methoxide.
- **OTHER CHEMICALS :** Sulphuric Acid- Commercial & Battery Grades, Oleum, Chloro Sulphonic Acid, Hydrogen Gas, Liquid Chlorine.

ONLY LOCAL MARKET

Caustic Soda Lye (48% Min), Caustic Potash Lye (Liquid), Sodium Sulphate, Hydrogen Gas.

Sukha Chemical Industries

Established in **1991**, **Sukha Chemical Industries** is a leading manufacturer and supplier of high-quality **Ferric Chloride**, widely used in water treatment applications.

With a highly dedicated team and advanced in-house manufacturing facilities, we ensure consistent quality and reliable global supply. Our focus on innovation, quality control, and customer satisfaction has helped us build a strong presence in domestic and international markets.

Our Business Verticals

- Manufacturing of Ferric Chloride
- Research & Development of industrial chemicals and acids
- Export of organic and inorganic chemicals

Our Products

- Ferric Chloride Anhydrous (Powder)
- Ferric Chloride Hexahydrate
- Ferric Chloride Liquid
- Ferrous Chloride Solution

Manufacturing Units

- **Ankleshwar** – 24,000 TPA
- **Panoli** – 36,000 TPA

Total Annual Capacity: 60,000+ MT

Sun Logistics – Specialized ISO Tank Container Leasing and Dangerous Goods Logistics

Sun Logistics, in strategic partnership with TWS Tankcontainer-Leasing, provides specialized ISO Tank Container leasing solutions tailored for the chemical industry. Recognizing the unique demands of transporting Dangerous Goods, our collaboration focuses on delivering high-quality, reliable, and purpose-built tank containers along with expertise and experience in transporting Dangerous Goods by Sea.

We cater primarily to chemical manufacturers requiring safe and efficient transport solutions. Through our combined expertise with TWS Tank container-Leasing, we offer a diverse fleet designed to meet specific chemical handling requirements, including:

- **Lined Tank Containers:** Ideal for transporting corrosive or high-purity chemicals, ensuring product integrity and container longevity.
- **Temperature Controlled Tank Containers:** Essential for products requiring precise temperature management (heating or cooling) during transit.
- **Product-Specific Custom Tank Containers :** Developed in consultation with clients to meet unique chemical properties, loading/unloading needs, or regulatory requirements.
- **Cost Effective Logistic Solutions:** Systematic, predictable and cost effective logistics for the leased equipment

Our partnership with TWS Tankcontainer-Leasing enables us to offer flexible leasing options and robust support, ensuring your chemical products are transported safely and efficiently in equipment designed for the task.

Sunshield Chemicals Limited is a publicly listed company among India's leading manufacturers of specialty chemicals. As a global leader in the manufacturing of surfactants, antioxidants, and specialty functional chemicals. The company serves a diverse customer base across the globe and has long-standing relationships with many large global and Indian customers. Sunshield was acquired by Indus Petrochem Limited in 2021, an organization with several years of experience in chemical sales and marketing and have been on the growth path ever since. Our manufacturing facility is ISO 9001:2015 certified with best-in-class automation and safety systems. We produce a wide range of specially formulated and customized products for applications in paints and coatings, emulsion polymerization, agrochemicals, lubricants, rubber, home and personal care, and industrial formulations among others. We have a dedicated research and development team and a laboratory for research on new chemistries. We strive to continuously improve our processes and develop new products to serve customer needs. Our state-of-the-art Quality Control Lab is equipped with modern and sophisticated instruments backed by the technical prowess of our research team. Our products conform to national and international regulations, including European REACH. With a comprehensive quality management system that aligns with our world-class production practices, we have deep experience handling critical processes like alkoxylation, alkylation, esterification, transesterification, condensation, emulsion polymerization, high-temperature reactions, sulfation, and blending. Our commitment to satisfying our customers extends to quality products, competitive pricing, and consistent supply with an extensive distribution network. We are thrilled to introduce SUPERFORM (fully owned subsidiary of UPL Ltd), a groundbreaking new company poised to disrupt the speciality chemistries industry with our high-performance products and a visionary platform for change. Our ambition is to reshape the world of specialty chemistries, infusing it with greater innovation, sustainability, and unparalleled efficiency. We believe in the wonder of chemistry and our purpose is to make it the world's most powerful force for positive impact

Superform Chemistries Ltd product portfolio majorly consists of: -

- Phosphorous & its derivatives starting from red phosphorus to select Phosphites & Phosphates.
- Cyanide value chain with backward integration into Hydrogen Cyanide including sodium cyanide & Benzyl Cyanide
- Phosgene & downstream derivatives such as chloroformates & speciality Isocyanates.

- H₂S & CS₂ derivatives.
- Acrolein with Superform being the only Indian manufacturer and one of the few globally.

Superform products find application in diversified end use markets. Key end use markets are: -

- Lubricant additives
- Flame retardants
- Pharmaceutical intermediates
- Dyes & Textiles
- Oil & Gas, Mining & Water treatment
- Agrochemicals
- Optical Brighteners

Superform Chemistries Ltd is also into custom synthesis and has enjoyed trust of major multinational for contract manufacturing of select products.

Website: <https://www.tdgcpl.in/>

T&D Galiakot Containers Pvt. Ltd. is part of the Galiakotwala Group of Companies, and has been one of the pioneers in the private sector of the Barrels & Drums industry. It has been in operation for close to five decades. In 2000, with the help of technology transfer from the T&D PLC UK (the foremost barrel manufacturer in Europe for over a century), Galiakot Containers Pvt. Ltd. reinvented itself as T&D Galiakot Containers Pvt. Ltd. and started production in what was the first highly automated and a very modern manufacturing plant in India at that time. Driven by its customer-centric approach and unwavering commitment to quality, the company has several other “firsts” to its credit. The consistent trustworthy performance of T & D Galiakot Containers Pvt. Ltd. is built on the foundation of ethical business values resulting in strong bonds with long-term partners.

Being an ISO 9001:2015 certified company we offer Mild Steel (MS) and Galvanized Iron (GI) Drums. These can be manufactured as per the Bureau of Indian Standards (BIS) as well as International Organization for Standardization (ISO) specifications.

We customize products as per our client's requirements - types of ends, thickness, silk-screen printing of company logos and product information.

Technocraft Industries (India) Ltd.

Contact Person: Mr. Mahendra Pragada, Vice President Marketing Drum Closures Div
Address: Technocraft House, A-25, Road No. 3, MIDC Ind. Area, Andheri (East), Mumbai-400093, Maharashtra, India
Phone: +91 22 40982222
Email: mahendra.pragada@technocraftgroup.com
Website: <https://technocraftgroup.com/>

Established in 1972, **TECHNOCRAFT INDUSTRIES [INDIA] LTD** is the largest independent **Steel Drum Closures, Clamps (lever latches) & Metal Capseals** manufacturer in the world.

Producing 80 million sets of Drum Closures for steel barrels and drums per year under the brand name of **"TITE SEAL"** & 30 million clamps (lever latches) annually for the Steel Drums, HDPE Drums, Fiber Drums, Pails & Tin Cans.

Also producing a wide variety of plastic spouts and metal closures for plastic & metal pails, cans, small drums & tin containers.

Having production facility in India & China with annual turnover over USD 300 million.

Business in about 80 countries worldwide with offices & warehouses in the USA, UK, Poland, Australia, New Zealand and China.

The various products manufactured in the **Drum Closures Division** are

- **PLATED CLOSURES** -Suitable for the industries that use MS barrels for filling Lubricants, Sp.Chem, Additives, etc
- **LACQUERED CLOSURES** - Suitable for MS Epoxy Coated barrels for filling Extreme Hazardous, Agro, Perfumery Chemicals, Transformer Oils
- **HYBRID PLUGS** -Suitable for MS Barrels to eliminate Adulteration/Pilferage with the filled contents
- **CAPSEALS [METAL & PLASTIC]** -Multi colour Litho printed, Tamper Proof, Leakproof
- **CRIMPING TOOLS** - Wrinkle free uniform capseal crimping, prevents leakage/ tampering
- **VENT PLUGS & VENT CAPSEALS** -Used in 210 ltrs barrels for filling Aggressive, Hazardous, Volatile Chemicals to breath easily, prevents leakages
- **CLAMPS/LEVERS & LOCKING RINGS**
- **LIGHT CLOSURES**-Suitable for MS/Tin Containers for filling Thinner, Paints, Inks, Varnish
- **CAN CAP CLOSURES** -For Tin Containers
- **FM APPROVED NYLON**-For packing flammable liquids

Tianjin Huabang New Materials Technology Co., Ltd. (hereinafter referred to as "Tianjin Huabang") was founded in May 2022. Since its establishment, the company has been dedicated to the innovative research and development, intelligent manufacturing, and global service of chemical equipment. Recognized as a national high-tech enterprise and an industry standard-setting unit, Tianjin Huabang has been honored as one of "China's Top Ten Chemical Equipment Enterprises" for multiple consecutive years. The company holds a total of 35 invention patents and over 120 utility model patents, with annual R&D investment consistently exceeding 8% of operating revenue—setting an industry benchmark through verifiable technological strength.

The company's core products cover the full-process production equipment for fine chemicals such as phthalic anhydride, maleic anhydride, fumaric acid, and acrylic acid. It provides complete solutions ranging from reactors, axial flow pumps, and granulators to screening and conveying systems, fully automatic packaging machines, intelligent palletizing robots, and winding/film wrapping equipment. In the field of catalytic exhaust gas treatment for phthalic anhydride and maleic anhydride, Tianjin Huabang is the only Chinese partner in the global supply chain of BASF (USA) for phthalic anhydride exhaust gas equipment, with its technical standards recognized by international authorities. In terms of domestic market share, the company holds an unshakable leading position—capturing over 85% of the phthalic anhydride-related equipment market and an impressive 95% share in maleic anhydride equipment, ranking first in the industry for three consecutive years.

TCI, headquartered in Japan, is a leading worldwide supplier of speciality organic chemicals for research and production. We offer 30,000+ research chemicals as well as pharmaceutical, cosmetic and functional materials in that around 9,000 are unique products. More than 70 years of synthesis experience and multi-purpose plants enable TCI to offer custom synthesis. TCI is committed to providing exceptional customer service and high quality reagents. Our specialty organic and inorganic chemicals and intermediates are recognized as best-in-class by top research labs, universities and manufacturers.

Why Choose TCI Chemicals

- Real-Time Stock Availability

Know exactly what's available—instantly. Our website shows live inventory so you can plan with confidence.

- Faster Delivery, Always

Get your chemicals delivered within 24–48 hours across major locations in India.

- Seamless Customer Experience

Responsive customer support, make your ordering journey smooth, simple, and stress-free.

Trade Representation of Russia in India

Contact Person: Artem Ukolov, Head of Business Division

Address: Plot No 6&7, Block 50-E, Nyaya Marg, Chanakyapuri, New Delhi-110 021, Delhi, India

Email: ukolovaa@minprom.gov.ru / delhiminprom.gov.ru

The Trade Representation of the Russian Federation in the Republic of India is a state body operating as part of the Russian diplomatic mission and serves as an official instrument for advancing Russia's economic interests abroad.

The Trade Representation operates under the authority of the Ministry of Industry and Trade of the Russian Federation, which oversees and coordinates the global network of trade missions. Its mandate includes promoting bilateral trade, economic, investment, and interregional cooperation between Russia and India, as well as strengthening sustainable economic ties between the two countries.

In pursuing these objectives, the Trade Representation facilitates the entry of companies from both countries into each other's markets and supports business engagement. This includes assisting in establishing partnerships, identifying promising areas of cooperation, and navigating local business environments.

In addition, it contributes to attracting investment and advanced technologies, supports industrial development and modernization, and serves as a platform for interaction between government authorities, businesses, and regional institutions, thereby fostering long-term, mutually beneficial cooperation between Russia and India.

Ultra Chemical Works – Excellence in Chemical Solutions Since 1973

Incorporated in 1973 by **Mr. Ghanshyamlal Agarwal** and now led by **Mr. Kapil Agarwal**, **Ultra Chemical Works** continues its legacy of delivering superior chemical solutions worldwide.

A Government-Recognized Two Star Export House with **ISO 9001:2015** certification, we are committed to world-class quality and exceptional customer service.

Serving over 500 customers across 80+ countries, we stand as a trusted global partner.

With five decades of expertise, we cater to diverse industries and have been honored with **prestigious awards from Chemexcil and FIEO** for outstanding export performance.

Industries We Serve:

- Flexible Packaging
- Paints & Coatings
- Inks & Resins
- Adhesives
- Cosmetics & Personal Care
- Pharmaceuticals
- Agrochemicals
- Food & Flavours
- Water Treatment
- Flexible Packaging
- Plastics / PVC
- Surfactants & Detergents

Our Product Portfolio:

- Organic & Inorganic Chemicals
- Aromatics, Alcohols & Acetates
- Chlorinated Solvents, Glycols & Ethers
- Ketones & Surfactants
- Sorbitan Esters & Plasticizers
- Technical Oils & Ethoxylates
- Personal Care Ingredients

At **Ultra Chemical Works**, we blend **innovation, quality, and reliability** to meet the evolving needs of industries worldwide.

ULTRON INDUSTRY MANUFACTURE SPIRAL STORAGE TANKS UPTO CAPACITY OF 200 KL FOR CHEMICAL STORAGE & **SPIRAL REACTORS** IN **HDPE & PP**. THESE TANKS ARE DESIGN BY **DVS 2205**

STANDARDS USING RITA SOFTWARE. WE ALSO MANUFACTURE NUTSCHE FILTERS, SCRUBBER SYSTEM, MS+HDPE LINED TRANSPORTATION TANKER FOR CHEMICALS

-SPIRAL STORAGE TANKS

- CAPACITY= 0.5 KL TO 200 KL.
- DIAMETER= 300 mm TO 4500 mm
- LENGTH= 10000 mm
- TEMPERATURE= 30 Degree TO 60 Degree(HDPE), 100 Degree (PP)
- TYPE= VERTICAL CYLINDRICAL, HORIZONTAL CYLINDRICAL, RECTANGULAR ETC.

-REACTORS

- CAPACITY= 0.5 KL TO 100 KL.
- MIXING OPTION= ANCHOR, PADDLE OR CUSTOMIZED AGITATOR WITH HDPE, PP, FRP LINED.
- TEMPERATURE= 30 Degree TO 60 Degree(HDPE), 100 Degree (PP)
- TYPE= VERTICAL STAND TYPE, VERTICAL HANGING TYPE.

-SCRUBBER

- MATERIAL= SPIRAL HDPE, PP, FRP, PP+FRP.
- WIDELY USED IN CHEMICAL, PHARMACEUTICAL, ETP AND PROCESS INDUSTRIES FOR GAS CLEANING AND POLLUTION CONTROL.

-TRANSPORTATION TANKER

- MOC= MS+HDPE LINING FOR CORROSION RESISTANCE.
- CAPACITY= 5 KL ONWARDS AS PER CLIENT REQUIREMENT.
- WIDELY USED IN CHEMICAL, ETP, WTP, PHARMACEUTICALS, FOOD PROCESS INDUSTRIES & PETROCHEMICAL INDUSTRIES.

-NUTSCHE FILTER

- TEMPERATURE= 30 Degree TO 60 Degree(HDPE), 100 Degree (PP)

- USED FOR SOLID LIQUID SEPARATION IN CHEMICAL & PHARMACEUTICAL PROCESSES.
- IDEAL FOR CHEMICALS, DYES, PHARMACEUTICAL AND WASTEWATER TREATMENT INDUSTRIES.

Unifab Engineering Project Pvt. Ltd.

Contact Person: Mr. Amit Dumir, Director
Address: Unit No. 102 - 105, Fenkin 9, Phase 1, Wagle Industrial Estate, Thane-400604, Maharashtra, India
Phone: +91 22 41901117
Email: director@unifabengg.com
Website: <https://unifabengg.com/>

UNIFAB is 126 ++ Cr. turnover company with a history of 25 years of technically strong expertise in turnkey process Equipment's right from **Reactors, Gas Double Induction Reactor, High Speed Mixers, Autoclaves, Columns, Heat ex-changers, ANF / ANFD, RCVDs, RVPD, Mixers and Blenders, Exotic metal Equipment's, PESO tanks + IBR Equipments etc.** Unifab operates five state-of-the-art manufacturing facilities in Ambarnath, Maharashtra, with a sixth unit soon to be operational. Workshop is CCOE (PESO) approved, adheres to IBR standards.

Certification: Unifab maintains a strong commitment to quality and safety with certifications :

- ISO 9001:2015(Quality Management)
- ISO 14001:2015(Environmental Management)
- ISO 45001:2018 (Occupational Health and Safety).

Key Divisions and Expertise:

1. Project Division: Specializes in manufacturing columns, reactors, heat exchangers, high-pressure bullets, tanks with capacities ranging from (0.20 KL to 300 KL) & providing turnkey solutions.

2. Dryer & Filtration Division: Unifab Ultra excels in manufacturing advanced drying and filtration equipment including Rotary Vacuum Paddle Dryers (RVPD), Rotary Cone Vacuum Dryers (RCVD), Agitated Nutsche Filters(ANF) and Agitated Nutsche Filters with Dryer(ANFD).

3. Exotic Division: Specializes in manufacturing high-grade equipment using materials like Hastelloy, Titanium Inconel, Alloy 904L, Duplex, Super Duplex & there Cladds. All the equipment of project Division and Dryer Division manufactured in special material as per client requirement.

Through-dedicated R&D-capabilities, Unifab continuously-innovate, introducing-new-technologies, refining-existing-designs & provides custom solutions tailored to specific client. Unifab also provides comprehensive after-sales support, including spare parts logistics, on-site/off-site repairs, and preventive maintenance services.

Email: george@tryunifiedai.com
Website: <https://tryunifiedai.com/>

Unified AI

AI process intelligence for speciality chemical manufacturers. Your DCS and IoT sensors already generate the data. Unified AI turns it into additional profit.

What we deliver:

Cause and effect mapping across every batch. Hundreds of tags, months of history, correlated automatically. The relationships your best process engineers would find if they had six months to look.

Golden batches, replicated in 90 percent less time.

Your best batch becomes the standard batch. Every shift, every product, every reactor.

DCS automation from 60 to 90 percent. Hard-to-pinpoint process parameters quantified, tested, and automated.

AI driven process improvement that moves the P&L. Lower cycle times, lower utility consumption, higher throughput from the assets you already own. Every improvement shows up in cost per kg.

Since 1979, Unique Mixers has been supplying mixing equipment and providing solutions to the process industry in India, and across the globe, through custom design, development of High Viscosity Mixers, Solid Blenders, and Liquid Agitators. At Unique Mixers, we design and manufacture standard as well as customized lab and production size mixing equipment for the following applications.

- Abrasives
- Agrochemicals
- Animal Feed
- Aerospace
- Adhesives & Sealants
- Building materials
- Battery pastes
- Bulk & Dough Molding
- Chemicals
- Cosmetics
- Cellulose
- Ceramics
- Carbon Products
- Dentistry Compounds
- Dyes & Pigments
- Epoxies
- Explosives
- Foods

- Polymers
- Pharmaceuticals
- Gums
- Hot Melts
- Metal Powders
- Polymers
- Plant Based Proteins
- Refractories
- Rocket Insulation
- Silicones
- Soaps & Detergents
- Solid Propellants

Our mixing technology centre is equipped with a variety of laboratory and pilot scale mixers. You can use our infrastructure, resources, knowledge, and expertise as a R&D facility for your product development. Our expertise spans 50+ years, with supplies distributed across 5 continents, serving 500+ customers in 25+ countries, and completing more than 2,500 installations worldwide.

Our Product Range

- Sigma Mixers
- Double Arm Kneader Extruders
- Double Planetary Mixers
- Double & Triple Shaft Mixers
- Plough Shear Mixers
- Ribbon & Paddle Blenders
- V-Blenders, Double Cone Blenders
- Agitators & Reactors
- Laboratory Mixers

3E18**Unisource Chemicals Pvt. Ltd.**

Contact Person: Mr. Sanjay Mehta, Director

Unisource Chemicals Pvt. Ltd. — A Legacy of Manufacturing Excellence and Global Reach

For over three decades, **Unisource Chemicals Pvt. Ltd.** has built a strong reputation as a dependable manufacturer of specialty and fine chemicals.

Established with a commitment to precision and quality, Unisource has grown from a dedicated chemical producer in India to a trusted global supplier, exporting to multiple international markets for many years. Our long-standing export history reflects not only consistent product quality but also our credibility as a reliable partner for industries worldwide.

At the core of Unisource is a **robust manufacturing infrastructure**, equipped with modern facilities, stringent process controls, and a highly skilled technical team. Our production capabilities span laboratory reagents, pH indicators, biological stains, pharmaceutical intermediates, nutraceutical ingredients, and a wide range of organic and inorganic chemicals. Every product is manufactured under **ISO 9001:2015 and GMP-certified** systems, ensuring safety, purity, and repeatable performance.

As our global footprint expanded, Unisource continuously adapted to evolving market requirements. Today, building on our manufacturing strength, **we have also begun exporting APIs and excipients**, produced under strict GMP compliance to meet the demanding standards of international pharmaceutical markets. This step underscores our commitment to delivering high-quality, globally accepted chemical solutions.

With decades of export experience, reliable production, and a forward-looking approach, Unisource remains dedicated to serving clients with integrity, consistency, and innovation.

Unity Flow Reactors

Contact Person: Mr. Premal Smart, Director
Address: Survey No. 1605, Village Varnama, Besides Varnama Cotton Gin, N.H. 48, Vadodara-391243, Gujarat, India
Email: info@unityflowreactors.com
Website: <https://unityflowreactors.com/>

With 35+ years of manufacturing experience, Unity Flow Reactors is offering **Customized Plug Flow Reactors** solution tailor made for each reaction for optimum performance and consistent long term benefits.

The distinct advantages offered by our Reactors for Chemical & Pharma industries are as following:

1. **Enhanced safety** for **High Pressure Reaction** and **Lower Space** requirement.
2. **LOWER CAPITAL COST.**
3. **High Slurry Concentrate** formulations.
4. **Better Product Quality. Higher Production Yield**

5. **Continuous Reaction Process** with Better process control.
6. **Lower Effluent generation.**
7. **REDUCTION IN DOWN STREAM** process.
8. **BETTER ENERGY EFFECIENCY, Reduced material handling and manpower requirement.**

From our range of 5 types of Reactors, we are in position to offer customized solution for **Liquid-Liquid, Liquid-Slurry, and Liquid-Gas reactions, both Exothermic / Endothermic type for various process viz. Sulfonation, Hydrogenation, Halogenation, Nitration, Oxidation, Reduction, Amination etc.**

Please visit our website www.unityflowreactors.com for more details or email us your specific requirement on info@unityflowreactors.com.

We cordially invite you to visit our stall 3A31 in Hall 3 at ChemProTech India, Mumbai on 29 - 30 April, 2026.

Universal Chemicals and Industries Private Limited, a family-owned, integrated chemical company established in 1961 with the manufacture of potassium permanganate. Built on a foundation of integrity and responsible business practices, the company has grown steadily by investing in long-term capability building. Today, Universal Chemicals is the leading manufacturer of potassium permanganate in India and emerged as a significant player in the world market. We have been the first company in India to get our Potassium Permanganate REACH Registered, NSF and BIS Certified. It was the first company in India to integrate forward into the manufacture of sodium permanganate.

2010 saw backward expansion into Potassium Hydroxide manufacturing. Reflecting its commitment to continuous improvement and technological advancement, the KOH plant is fully DCS-controlled and operates on advanced technology from Asahi Kasei, Japan. This integration supports the production of allied potassium-based products such as potassium carbonate, di-potassium phosphate, and potassium hydroxide across multiple grades, including high-purity variants. The group operates a specialty and agrochemical manufacturing unit at Ambernath,

Universal fosters a stimulating work environment that emphasizes delegation, empowerment, and accountability. Strong and enduring relationships with customers, partners, and employees remain central to the company's philosophy, supported by an unwavering focus on quality, reliability, and innovation.

What remains constant is Universal's adherence to high standards of ethics and responsible conduct. Guided by the belief of its founding fathers— "We are but trustees for the next generation," Universal is committed to

sustaining its legacy and giving back to society and contributing to a sustainable future.

VINIPUL INORGANICS PVT. LTD. Is a leading manufacturer of high-quality inorganic chemicals, specializing in the production and supply of a wide range of industrial chemicals that cater to diverse sectors such as manufacturing, agriculture, pharmaceuticals, and textiles. Established with a vision to provide superior chemical solutions, the company has built a reputation for its commitment to innovation, sustainability, and customer satisfaction.

With state-of-the-art manufacturing facilities and advanced technologies, VINIPUL INORGANICS ensures the production of chemicals that meet both domestic and international standards. The company's product range includes various inorganic compounds such as salts, acids, and bases, which are produced using the finest raw materials and cutting-edge processes. Each product is thoroughly tested for quality and consistency to meet the specific requirements of their clients.

The company's core strength lies in its research and development capabilities, which enable it to continuously innovate and improve existing products while also introducing new, high-performance chemicals to the market. VINIPUL INORGANICS is dedicated to maintaining strict adherence to safety and environmental regulations, ensuring that its manufacturing processes are eco-friendly and sustainable.

Customer-centric and responsive to the dynamic needs of industries, VINIPUL INORGANICS has successfully established itself as a trusted name in the chemical manufacturing industry. Its reliable supply chain, prompt delivery, and competitive pricing make it a preferred choice for clients seeking high-quality inorganic chemicals for a variety of applications.

Vintage Chrom India

Contact Person: Mr. Nimit Shah, Partner
Address: Block- "M", Friends Row Housing Society,
Near SBI ATM, Bengali Chouraha, Ring Road,
Indore-452001, Madhya Pradesh, India
Email: salesindia@vintagechrom.com
Website: <https://vintagechrom.com/>

Vintage Chrom delivers a comprehensive portfolio of high-performance HPLC columns engineered for precise, reliable separations across diverse applications. Our range includes reversed-phase columns (C18, C8, AQ), normal-phase chemistries (silica, diol, cyano), ion-exchange columns, and specialty phases such as PFP and phenyl-hexyl—each designed to address specific analytical challenges with accuracy and consistency.

Manufactured at our New Jersey facility, Vintage Chrom products incorporate state-of-the-art bonding chemistry and advanced packing technologies. These innovations enable chromatographers to achieve superior selectivity, efficiency, and reproducibility, even in complex separations.

Backed by extensive industry expertise, our columns are recognized for their durability, high capacity, and excellent permeability. Whether for analytical, small-bore, preparative, or bulk-scale applications, Vintage Chrom solutions are built to support projects of every scale with dependable performance.

At Vintage Chrom, we are committed to empowering laboratories with robust chromatography solutions that deliver consistent results and long-term value.

Company Profile – Virtual Element Studios Pvt. Ltd.

Virtual Element Studios Pvt. Ltd. is a Pune-based specialized studio focused on delivering high-quality **3D industrial animation, interactive 3D, and AR/VR solutions** for engineering, manufacturing, and process industries. Established in 2018, the company brings together a unique blend of **engineering expertise and creative storytelling** to simplify complex industrial concepts and transform them into impactful visual experiences.

At Virtual Element Studios, we work closely with OEMs, EPC companies, and industrial manufacturers to help them **visualize products, processes, and plant systems with clarity and precision**. Our solutions are designed to enhance **sales presentations, technical communication, and training effectiveness**, enabling businesses to better engage their customers and stakeholders.

Our core offerings include **3D product animations, plant and process animations, virtual walkthroughs, interactive 3D applications, and immersive AR/VR experiences**. With a strong focus on industrial applications, we help organizations present internal mechanisms, workflows, and complex operations in a way that is easy to understand and visually compelling.

At ChemProTech, we are showcasing how advanced visualization technologies can help chemical and process industry companies **improve product understanding, reduce sales cycles, and enhance training outcomes**. Our approach is built on the philosophy that *"Seeing is Believing,"* enabling businesses to communicate their innovations more effectively in today's competitive landscape.

Website: <http://www.viswaat.com/>

Viswaat Chemicals Limited is an Integrated Management System (IMS)–certified company, accredited with ISO 9001:2015, ISO 14001:2015, and ISO 45001:2018 certifications. Established in 1996, Viswaat has steadily evolved into a trusted and innovative manufacturer, delivering high-quality chemical solutions to a wide range of industries. Over the years, the company has built a strong reputation by consistently emphasizing robust research, advanced technology, and strict adherence to Good Manufacturing Practices (GMP).

Viswaat operates a world-class manufacturing facility at Ambarnath, near Mumbai, which is certified under Together for Sustainability (TfS). Its R&D facility is approved by the Department of Scientific and Industrial Research (DSIR) under the Ministry of Science & Technology, Government of India.

In 2019, Viswaat commissioned its second state-of-the-art manufacturing facility at Dahej, Bharuch, Gujarat. This facility is ISO-certified and also holds Kosher and Halal certifications, further strengthening the company's global compliance credentials.

The Dahej facility features a properly designed, FDA GMP–certified block and complies with EXCiPACT and EFfCI standards, supporting pharmaceutical and personal care applications. Viswaat's strong certification portfolio—including FSSAI, AEO, EcoVadis sustainability rating, Responsible Care accreditation, and IMS—reinforces its position as a reliable, compliant, and forward-looking chemical manufacturer.

Viswaat manufactures its products with an unwavering commitment to Environment, Health, and Safety (EHS), while complying with REACH regulations and other global chemical governance frameworks. The company is a Responsible Care[®] Logo Holder under the Indian Chemical Council, reflecting its dedication to sustainable and responsible operations.

A multi-product organization involved in Manufacturing, Contract Manufacturing and Exports of Chemicals since 1993.

Vital Chemicals, Ahmedabad, Established in 1993, the founding company of Vital Group, offering various Industrial Chemicals for various applications such as Water Treatment, Textiles, Pharma and Food Industries.

- Organophosphates
- Polymers & Dispersants
- Acetyl Chloride
- Sodium Benzoate

Vital Chemtech Limited, Dahej facility is now largest producer of various Phosphorus Derivatives at Single Complex in India.

The Range of Phosphorus Derivates includes:

- Phosphorus Trichloride
- Phosphorus Oxychloride
- Phosphorus Pentachloride
- Phosphorus Pentoxide
- Poly Phosphoric Acid
- Ortho Phosphoric Acid
- Phosphorus Pentasulfide

Vital Alkoxides Pvt. Ltd., Dahej has dedicated largest Manufacturing facility to manufacture:

- Sodium Methoxide Solution
- Sodium Methoxide Powder

Vital Wellness Limited, Ahmedabad, offer various category of products for Nutraceutical & Wellness that includes:

- Immunity Boosters
- Dietary Supplements
- Skin Care Products
- Hair Care Products
- Sugar Control Products
- Bone & Joint Products
- Herbal Products
- Heart Care Products
- Probiotic Products
- Protein Supports

It is a pleasure to introduce **Vivan Industries**, a leading ISO 9001:2015 certified Manufacturer, Exporter, and Supplier of high-quality inorganic and organic chemicals based in Ankleshwar, Gujarat.

Driven by our commitment to “**Delivering Trust to Chemical Industries**,” we specialize in the manufacturing of high-purity **Aluminium Sulphate (Non-Ferric Alum)**, available in Powder, Lump, and Liquid forms. Our state-of-the-art facility ensures every batch meets stringent international standards for operational efficiency.

In addition to our flagship manufacturing, our trading division provides a comprehensive portfolio including:

- **Specialty Salts:** Magnesium, Zinc, Copper, and Ammonium Sulphate.
- **Water Treatment:** Poly Aluminium Chloride, Bleaching Powder, and Calcium Hypochlorite.
- **Industrial Essentials:** Sodium Acetate, Citric Acid, and Sulphamic Acid.

Whether you are in Water Treatment, Pharmaceuticals, Textiles, or Construction, we aim to provide tailor-made chemical solutions that match your precise requirements.

VND Plastico Pumps Pvt. Ltd.

Contact Person: Mr. Nimesh Patel, Director
Address: 199/2, GIDC Estate, B/H Bank of Baroda, Nandesari, Vadodara Dist.-391340, Gujarat, India
Email: nimeshpumps@gmail.com
Website: <https://www.pvdfpump.com/>

VND Plastico Pumps Pvt. Ltd. is a Gujarat-based engineering company specializing in the design, manufacturing, and supply of industrial pumping solutions for chemical processing and fluid-handling applications. Established in 1990 and headquartered in Vadodara, the company serves industries such as chemical, petrochemical, pharmaceuticals, wastewater treatment, mining, power, and food processing.

The company offers a wide product range including PVDF pumps, polypropylene pumps, centrifugal chemical process pumps, stainless steel pumps, AODD pumps, gear pumps, vacuum ejectors, scrubber pumps, and self-priming pumps. These products are designed to handle corrosive chemicals, acids, and industrial fluids with high efficiency, durability, and reliability.

VND Plastico Pumps focuses on quality manufacturing through advanced production facilities, strict testing procedures, and customized engineering solutions to meet specific customer requirements. Its products are known for corrosion resistance, low maintenance, long service life, and dependable performance.

With strong technical expertise, customer support, and export capabilities, the company has built a reputation as a trusted supplier of industrial pumping systems in both domestic and international markets.

VVF (India) Ltd.

Contact Person: Ms. Ananya Shinde, Assistant Manager
Address: 109, Sion (East), Mumbai-400022, Maharashtra, India
Email: ananya.shinde@vvfltd.com
Website: <https://www.vvfltd.com/aboutus.html>

VVF was established in 1939 by Godrej Pallonji Joshi as the Vegetable Vitamin Foods Company Ltd.

VVF is the partner of choice for multiple Indian and global customers in diverse segments, ranging from home and personal care, cosmetics, oilfields, paints and coatings, textiles, etc. Today, the company has an annual capacity of 600,000 metric tonnes of fatty acids, fatty alcohols and glycerine, India's largest manufacturer of Oleochemicals.

The company has the entire range of fatty acids from Caproic, Caprylic, Capric, Lauric, Myristic, Palmitic, Stearic, Oleic, Erucic and Behenic..

VVF has the entire range of fatty alcohols from short chain Vegarol C10 (Decyl alcohol) to VegarolC22 (Behenyl Alcohol).

VVF manufacturers and delivers natural refined glycerin to CP, IP, BP, EP and USP standards.

VVF Also manufactures EMULSIFYING WAXES

Our waxes provide rich emulsifying, stabilising and viscosity modifying benefits to the end product. With a range of anionic, non-ionic and emollient blends to choose from, our waxes and blends find application in most types of creams, foaming formulations, stick formulations, make up products, etc.

MILD SURFACTANTS

SCI (Sodium Cocoyl Isethionate) variants & SLI (Sodium Lauroyl Isethionate) are Fatty Acids-2-Sulfo-Ethyl Esters-Sodium Salt. V.

The mild surfactant variants with active matter ranging from 55% to 85% find applications in preparation of syndet bars, combo-bars, liquid soaps, hair cleansers, etc.

X2 Valves Pvt Ltd., established in 2023, is a leading manufacturer of industrial valves. under brand "X 2" Valves.

We specialize in a wide range of flow-control valves and industrial automation solutions.

Infrastructure includes 41, 818 sq. ft. land with 23, 412 sq. ft. built up and 100+ skilled workforce.

We serve Process Chemical and Pharmaceuticals, Petrochemicals, Oil and Gas, Power plant, West Water Treatment Plant and multiple industries worldwide.

Offering Range:

- Ball Valves
- Butterfly Valves
- Sight Flow Indicators
- Y-Strainers
- Forged Steel Valves
- Check Valve (NRV)

Our Value Proposition:

- Precision engineered valves for leak-free & reliable performance
- In-house casting, machining, assembly & testing facilities
- 100% Hydro & Pneumatic testing as per API standards
- Competitive pricing with faster delivery

Size Range:

- Ball Valve: 1/4" to 10"
- Butterfly Valve: 1 1/2" to 24 "

Pressure Range:

- 150#, 300#, 800#

Temperature Range:

- -40°C to 230°C

Material Range:

- Carbon Steel
- Stainless Steel
- Duplex Stainless Steel
- Super Duplex Stainless Steel
- High Nickel Alloys

Established in 1995, Yogi Intermediates Pvt. Ltd. has become a globally trusted leader in bromine derivatives and specialty chemicals. As a pioneering manufacturer, supplier, and exporter, the company specializes in bromine, bromine derivatives, pharmaceutical intermediates, active pharmaceutical ingredients (APIs), and a wide range of specialty chemicals. Serving industries such as pharmaceuticals, personal care, cosmetics, agrochemicals, and flavors &

fragrances, Yogi Intermediates offers a diverse portfolio tailored to meet global market demands. Key segments include:

- Pharmaceuticals & APIs
- Agrochemicals
- Pesticides
- Flavors & Fragrances
- Personal Care & Cosmetics
- Specialty Chemicals

Commitment to Quality:

Quality drives every aspect of Yogi Intermediates' operations, from selecting raw materials to conducting rigorous multi-level quality control checks. This unwavering focus ensures products meet and exceed customer expectations, solidifying its reputation as a trusted global partner.

Innovation & Expertise:

With a team of over 100 skilled professionals, the company fosters innovation and technical excellence to address complex industry challenges. By combining expertise with sustainability, Yogi Intermediates creates cutting-edge solutions that align with evolving market trends.

Vision for the Future:

Yogi Intermediates envisions leading the future of the chemical industry through innovation, sustainability, and customer-centricity. By investing in research and fostering partnerships, the company strives to redefine global standards in bromine chemistry, shaping the future of health, beauty, and sustainability.

"Yogi Intermediates—Innovating for a better tomorrow."

Zaiput Flow Technologies

Contact Person: Mr. Vijendra Singh, India Sales Manager

Address: 101a First Ave, Suite 100, Waltham-02451, Massachusetts, United States

Email: vsingh@zaiput.com

Website: <https://www.zaiput.com/>

Zaiput Flow Technologies enables advanced continuous chemical manufacturing through integrated solutions in reaction and downstream processing. Its Tower Reactor platform enhances gas-liquid reactions like hydrogenation by improving mass transfer, safety, and process control. The continuous crystallizer ensures precise control over particle size, morphology, and product consistency. Zaiput is best known for its membrane-based liquid-liquid separation and extraction systems, which deliver rapid, reliable phase separation without relying on gravity, even for challenging mixtures. Together, these technologies create a seamless, scalable flow platform that improves efficiency, reproducibility, and overall process intensification from lab to production scale.

Zhejiang Xinqi Chemical Co., Ltd is a high-tech joint-stock enterprise specialized in the manufacturing and sales of Polycarboxylate Chelating Dispersants. It is devoted to the research and development as well as the manufacturing and sales of high molecular polymers. Zhengjinag Xinqi produces 2000 tons of various Polycarboxylate Chelating Dispersants annually that are widely used in daily chemical industry, textile printing and dyeing, waterborne coatings, building concrete, paper making and water treatment. Developed by Zhejiang Xinqi independently and being the leading product of the corporation, high molecular builder, is the first such product in China. It is sold throughout the planet and has made Zhejiang Xinqi a long-term and high-quality supplier to well-known enterprises at home and abroad.

AN ISO 9001, 14001, 45001 & 22301 CERTIFIED COMPANY

Your Reliable Outsourcing Partner For Bromination & Beyond

Powering Chemistry. Transforming Industries.

- **Reactor Capacity:** Over 450 m³ (Glass-lined, Stainless Steel, Hastelloy)
- **Commercial-scale Grignard & n-Butyl Lithium** supply with downstream reactions
- **High-purity gaseous products** synthesis and handling
- **Distillation Types:** High Vacuum, Solid, Thin Film (using WFE)
- **FDA-audited** manufacturing site, cGMP compliant
- **Advanced Analytical Infrastructure:** GC-MS, ICP-OES, Ion Chromatography, etc.
- **FEI number** available

We Specialize in

- Alkyl Bromides
- Dibromo Alkanes
- Bromo Chloro Alkanes
- Cycloalkyl Bromides
- Benzene based Bromo/Chloro compounds
- **Grignard Reagents**
- Chiral Intermediates (Under development)
- **Organo-Lithium Compounds**
- Speciality Chloro Compounds
- Bromo Acids and their Esters
- **Lithium Salts**
- Functional Bromo Fluoro Derivatives
- Any other Speciality Compounds
